NEXT MEETING

Coun. HENNIGAN CASEY moved that when the Council adjourns today, it be in memory of Coun. BOLLING's grandfather, and that it be to meet again on Wednesday, June 22, 1988, at 1 p.m.

The motion was carried.

The members of the Council stood for a moment of silence in memory of Walter Samuel Green, Councillor Bolling's grandfather.

STATEMENT OF COUNCILLOR BOLLING

Having received unanimous consent to do so, Councillor Bolling said that he appreciated the Council's expression of sympathy in his family's grief. He said that his grandfather had died two weeks before his 103rd birthday. He was born in post-slavery times, that his mother was a slave, that his best friend, when he was ten years old, was hanged in the State of South Carolina. His grandfather left South Carolina and came to Connecticut where he settled and raised a family. He always strongly believed in the work ethic and in fulfilling the American Dream. He was very joyful when Councillor Bolling was elected to the Boston City Council and later became its first Black President.

STATEMENT OF COUNCILLOR YANCEY

Having received unanimous consent to do so, Councillor Yancey said that Councillor Bolling and he had a few things in common. They both come from relatively large families and Councillor Yancey's grandaunt, Amy Warner just passed away at the age of ninety-nine. So they both have longevity in common. She, too, left a great legacy to her grandnieces and grandnephews, and Councillor Yancey just wanted to take this opportunity to tell the world how much he appreciated all the support she gave him, having made his first campaign contribution.

Adjourned at 2:05 p.m., in memory of Walter Samuel Green, on motion of Councillor Hennigan Casey, to meet on Wednesday, June 22, 1988, at 1 p.m.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

I urge your Honorable Body to pass this order as expeditiously as possible in order to assure reimbursement for transportation provided during the current fiscal year.

REQUESTING MAYOR AMEND POLICE DEPARTMENT OPERATING BUDGET TO INCREASE UNIFORMED PERSONNEL

Coun. O'NEIL offered the following:

Whereas, At the recent budget hearing on the Police Department, the need for more sworn personnel was stressed by Council members, citing the rash of violent crime; and

Whereas, The Mayors' budget proposal as resubmitted and which must be acted on by the Council before month's end will only bring the total uniformed force to a little over 2,000 during fiscal year 1989; and

Whereas, Normal attrition will serve to reduce that figure; and

Whereas, The Police Commissioner said he could not support a suggestion for a 20 percent increase in personnel in the forthcoming budget; and

Whereas, The Mayor, when a member of this Council, supported calls for increased man and womenpower to help deliver public safety services to taxpayers and tenants residing in Boston; and

Whereas, This Council, in a spirit of compromise but still holding firm to the need for at least a 20 percent increase, now proposes that goal be attained in a two-step process covering Fiscal Years 1989 and 1990; therefore, be it

Ordered, That his Honor, the Mayor is formally requested to amend the Police Department operating budget for fiscal year 1989 beginning July 1, next to provide at least a 10 percent increase in the ranks of current uniformed personnel, and indicate that he will make every effort to effectuate another 10 percent increase in sworn personnel as part of the Fiscal Year 1990 police budget.

Passed under suspension of the rules.

ORDER FOR STUDIES BY TRANSPORTATION DEPARTMENT AND BOSTON REDEVELOPMENT AUTHORITY RE THE FENWAY

Coun. SCONDRAS offered the following:

Whereas, Over the past two years community meetings between representatives of the Sears Company and its subcontractors have left neighborhood groups with the understanding that any future development of the Sears building and its parking lots would at a minimum occur with the inclusion of a return of park land taken from the Olmsted Park System, the development of affordable housing, and design review of the building and input into its use on the part of the community; and

Whereas, The Sears Company by putting the building up for sale for \$60 million makes it unclear what the status of that understanding now is; and

Whereas, This property comprises the largest amount of office space in the city housed in a single structure and would heavily impact the Fenway area however it is utilized; and

Whereas, Fenway Park is the next institution along the Boylston Corridor to announce new plans, in this case to expand by some 3,000 seats the capacity of the stadium; and

Whereas, There have been serious and unresolved problems with the park including local residents being buzzed by helicopters, inadequate police protection during the breakup of games, serious congestion and parking problems associated with the existing capacity of the stadium; and

Whereas, The Fenway Community Development Corporation has taken a position of no support for expansion of the park without these issues being resolved; and

Whereas, The outlandish truth is that the Department of Transportation does not have a single study of any consequence of the traffic flow in the Fenway-Kenmore area, and the only study of the Back Bay area was done in 1985 and does not include any consideration of the effects of the Prudential expansion or of the actual impact of the Hynes and other developments along the Boylston Street corridor; and

Whereas, For over two years attempts have been made to get a serious set of actions to alleviate what has become

an area unacceptably congested as a result of no implementation of parking or flow plans to alleviate this congestion; and

Whereas, The very quality of life in these areas and the potential economic activity is limited by a lack of these plans and their implementation; and

Whereas, The attempt to create an IPOD for the West Fenway is after the fact for the Sears project; now, therefore, be it

Ordered, That the Department of Transportation do a short feasibility study of the use of the air rights over the Mass. Pike between Massachusetts Avenue and Brookline Avenue to create two garages and commercial/residential structures to absorb a significant portion of the congestion occasioned by the Hynes/Pru construction and the future Sears development and Fenway Park expansion; and be it further

Ordered, That the BRA evaluate the true worth of the Sears properties and secure an option to purchase so that the community and the city can engage in a serious planning effort analogous to the planning for the reuse of the Custom House Tower by the city, to ensure that the development meets the bottom line already set by the BRA and the neighborhood since at least March of 1987 when the first meetings regarding the potential Sears sale began; and be it further

Ordered, That the BRA create an impact study of the effects on congestion and parking and other environmental issues of the entire Boylston Street development corridor including Sears, Fenway Park, the Hynes, the Prudential, NE Life, etc.; and be it further

Ordered, That the BRA proceed immediately to form an IPOD for the West Fenway as has been discussed for over a year to provide the community and city with a tool for planning development in the neighborhood; and be it further

Ordered, That the BRA report its findings to the Boston City Council on each of the above studies and actions.

Referred to the Committee on Planning and Development.

ACCEPTING PROVISIONS OF SECTION 90G 1/2 OF GENERAL LAWS AS INSERTED BY CHAPTER 697 OF ACTS OF 1987

ORDINANCE AMENDING RENTAL HOUSING EQUITY ORDINANCE TO GIVE ELDERLY AND HANDICAPPED TENANTS THE RIGHT TO OWN AND LIVE WITH PETS

Couns. SALERNOR, SCODRAS, and O'NEIL offered the following:

City of Boston

In the Year Nineteen Hundred and Eighty-eight

An Ordinance Amending

the Rental Housing Equity Ordinance

to Give Elderly and Handicapped Tenants

the Right to Own and Live with Pets.

Be it ordained by the City Council of Boston, as follows:

Whereas, Elderly and/or handicapped tenants often become attached to their pets and rely on them for companionship and protection; and

Whereas, Congress has declared that tenants that reside in federally assisted public and subsidized housing for the elderly and/or handicapped have the right to own and live with pets, so long as they abide by reasonable rules relating to the care and conduct of those pets; and

Whereas, Elderly and/or handicapped tenants who reside in other public, subsidized, and private housing do not have the same rights to own and live with their pets and have had to suffer the trauma of loss of their pets, even when such pets will not cause disturbance or nuisance; and

Whereas, It is in the public interest to insure that such elderly and/or handicapped tenants are not discriminated against and do not face eviction because of their pet ownership, so long as such tenants agree to abide by reasonable rules relating to animal control and pet care; therefore, be it

Declared by the City Council of the City of Boston, in accordance with the provisions of Massachusetts General Laws chapter 43B, section 13, and any other applicable law as follows, and pursuant to the authority vested in it be law, including, without limitation, Article 2, as amended, and Article 47 of the Amendments to the Constitution of the Commonwealth of Massachusetts, and

chapter 797 of the Acts of 1969, as amended by chapter 863 of the Acts of 1970, by section 26 of chapter 843 of the Acts of 1971, by chapter 45 of the Acts of 1987, and by chapter 504 of the Acts of 1987, that the following ordinance be adopted.

Section 1. A new section 9A is added to chapter 34 of the Ordinances of 1984, as amended, after section 9 and before section 10 as follows:

Pages 30-35

"Section 9A. Rights of Elderly and Handicapped Tenants to Have Pets. Notwithstanding the provisions of any lease or rental agreement to the contrary, no owner of a controlled or decontrolled housing accommodation subject to the jurisdiction of the board may, as a condition of tenancy or otherwise, prohibit or prevent any elderly or handicapped tenant from owning common household pets or having such pets living in the tenant's unit. Furthermore, no owner of a controlled or decontrolled housing accommodation shall have the right to restrict or discriminate against any elderly or handicapped tenant in connection with admission to, or continued occupancy of, such housing by reason of the tenant's ownership of common household pets or the presence of such pets in that tenant's unit. The owner of such housing accommodations shall have the right to promulgate reasonable requirements regarding the number of common household pets allowed in each unit, standards of pet care, licensing, inoculation, and leash laws, similar to those permitted in HUD-assisted elderly and handicapped housing (see 24 CFR s. 243.20 and s. 942.20), and consistent with state and local laws on animal control, such as G.L. c. 140 ss. 136A-174D. Nothing in this provision shall bar the owner from requiring the removal of any pet if the pet's conduct or condition is determined to constitute a nuisance or a threat to the health or safety of other occupants of the building, structure, or development or other persons in the community where the housing accommodation is located."

Section 2. Scope.

Notwithstanding the exemptions found in section 1(n)(i-vii) of chapter 34 of the Ordinances of 1984, as amended, all housing accommodations in mobile homes, in mobile home parks, and in structures having three or more dwelling units, excluding motels, hotels, or inns, and excluding housing accommodations in structures having three dwelling units, one of which is occupied by all the legal and beneficial owners of the structures as their principal residence, shall be subject to the provisions of section 9A of chapter 34 of the Ordinances of 1984, as amended.

Section 3. Severability.

Each of the provisions, sections, and subsections of this ordinance are severable, and if any of its provisions, sections, or subsections shall be held unconstitutional or otherwise invalid by any court of competent jurisdiction, the decisions of such court shall not affect or impair any of the remaining provisions, sections, or subsections.

Section 4. Effective Date.

This ordinance shall go into effect immediately upon passage.

Referred to the Committee on Housing.

EMERGENCY PREAMBLE

Coun. HENNIGAN CASEY offered the following:

HIGH STREET RAMP PAVES WAY FOR INTERNATIONAL PLACE II

Boston Mayor Raymond Flynn and State Transportation Secretary Frederick P. Salvucci have announced that city and state officials, and the developers of International Place, have reached agreement on the relocation of the High Street Central Artery Ramp, paving the way for the start of the \$300 million International Place II project.

"The agreement on the future High Street Ramp location marks a positive partnership of the city, state and business community, and resoundingly affirms the growing strength of Boston's economy," said Mayor Flynn. "Phase II of International Place is a major investment in the future of Boston that will create 4,900 new construction and permanent jobs. The project will also invest over \$3.7 million in Boston for housing and jobs through the linkage trusts, and contribute an additional \$4.2 million in new taxes to the city."

The state has granted Chiofaro Company conditional approval to construct a new ramp on Purchase Street, parallel to the Central Artery. Secretary Salvucci said the recent improvements in the design of the new central artery have made the proposal to move the ramp to Purchase Street physically feasible and moving the ramp can be accomplished without delay to the artery-tunnel project. When the new ramp has been completed, the High Street Off-Ramp can be dismantled and, on that site, the developer will construct the two buildings which make up the \$300 million second phase of International Place.

International Place Phase II can break ground in the fall of 1989 as a result of the High Street Off-Ramp agreement. The project will create 1,500 construction jobs and 3,400 people will be employed by firms occupying space in the new development. In addition to new jobs and housing linkage contributions, developers of International Place Phase II will voluntarily contribute one-half million dollars to the Boston Jobs program, an educational scholarship fund for Boston school children, and recreational activities.

The first phase of International Place, which was completed in 1987, is a one million square-foot office complex. The project was the first downtown development required to make linkage payments to the city to help construct low-and moderate-income housing in Boston neighborhoods. International Place Phase I is producing \$5 million in housing linkage funds and more than \$6 million annually in new property taxes. Approximately 4,000 are employed within the complex.

FIRST BOSTON FOR BOSTON DOWNTOWN '89 JOB FAIR

One of Boston's largest downtown developers — Jaymont Properties — joined forces with the Mayor's Office of Jobs and Community Services (JCS) have sponsored the first Boston for Boston Downtown '89 Job Fair. More than 560 people gathered in the lobby of Jaymont's 99 Summer Street building, attracted by the promise of job openings in some of Boston's fastest growing companies.

Representatives from thirty-five employers and job training agencies were on hand at the Job Fair to discuss job opportunities, distribute applications, and set up interviews with candidates. Job seekers had the opportunity to explore a variety of positions in financial services, law, building management, health care, tourism, and other industries.

While other development companies have worked with JCS to sponsor job fairs in the city's neighborhoods, the

Jaymont event was the first job fair offered in the downtown area. "We're very proud of our involvement with Boston for Boston," said Richard Eichorn, President of Jaymont Properties. "By sponsoring and participating in the Downtown '89 Job Fair, I feel we are making a significant contribution to the effort to link downtown economic growth with the neighborhoods."

People attending the Job Fair included a wide range of Boston residents seeking new jobs or career changes that will provide them with a higher income and better job security. One participant, Brian Dobday, explained: "The variety of companies is amazing. I've put in applications for three jobs I would love to have."

Job Fairs are one element of JCS's overall effort to assist residents of Boston's neighborhoods in benefiting from business growth downtown. For information about JobStart's education, skills training and job placement options call or visit any of the five JobStart offices:

SEVENTH ANNUAL NORTHEAST CONSTRUCTION EXPO

Neil Sullivan, Senior Policy Advisor to Mayor Flynn, Lisa G. Chapnick, Director, City of Boston Public Facilities Department, and Larry Dwyer, Chairman of the Neighborhood Housing Trust will participate in a panel presentation at the 1989 BIG SHOW that will discuss Boston's innovative programs, policies and laws aimed at stimulating the creation of affordable housing through linkage; neighborhood stabilization ordinances; and the development of city-owned land and buildings. With a decline in the amount of federal resources provided for much-needed housing for both low-and-moderate income and first-time homebuyers, cities have to create programs to stimulate such development. The session, "Linkage and Affordable Housing" will take place Tuesday, March 21 from 1 p.m. to 2:30 p.m. at the World Trade Center Boston.

A second session, "The Joint Venture for Affordable Housing Program" will take place Tuesday, March 21, from 10:30 a.m. to noon. Kenneth Salk, Deputy Director of Housing, U.S. Department of Housing and Urban Development and a representative from the

National Association of Homebuilders Research Foundation will discuss the Major goal of the JVAH Program which is to identify ways the city, builder, planner, engineer, and architect can work together to produce high quality homes at affordable prices by cutting costs in three areas: administration and processing; site development and preparation; and use of innovative construction methods and materials. This session will discuss the focus of the JVAH Program — providing independent homeownership opportunities for individuals through the use of innovative approaches by builders and communities.

The seventh annual Northeast Construction Expo — the BIG SHOW '89 — will take place March 21-23 at the World Trade Center Boston. More than 10,000 attendees are expected including: contractors, architects, engineers, developers, owners, and other qualified buyers and specifiers of construction products and services.

"The Northeast Construction Expo and Conference is designed as the gathering place for the region's construction industry," said Robert T. Slater, president of Slater Expositions, producer of BIG SHOW. "The event brings together the many professionals who make up the industry and offers a complete networking, sales and learning experience for participants."

CITY FINANCING AUTHORITY ISSUES \$1.7 MILLION TAX-EXEMPT BOND

With \$1.7 million in funding from a bond issued by a city financing authority, a major Hyde Park employer will expand and create new jobs for Boston residents. The Boston Industrial Development Authority (BIDFA) issued the bond to Magnesium Casting Company to buy new manufacturing equipment boost its production capacity, and add fifty jobs to its 286-person workforce within two years.

The electrical equipment manufacturer experienced substantial growth in the last decade, adding two new product lines and boosting sales some 250 percent. But the forty-four-year-old company's growth created a need for new financing. The BIDFA bond now allows the company to finance the expansion in capacity necessary to keep pace with its growing markets in residential and commercial construction, creating new jobs at the same time.

"By buying additional die-cast and finishing machines at this time, we will be able to continue meeting our sale demand and soon begin adding new jobs," said Ralph Smith, Chief Financial Officer of Magnesium Casting. "The BIDFA financing makes our expansion possible."

"Magnesium Casting is a very good employer, one we're happy to assist," said Marilyn Swartz Lloyd, Director of BIDFA's parent organization, the Economic Development and Industrial Corporation (EDIC). "The jobs they provide are high-wage, technical jobs, nearly 75 percent of their workers are Boston

residents, and the proportions of minority and women workers are very high."

BIDFA is an affiliate of EDIC, the City of Boston's economic development agency. "BIDFA is an important element in my administration's efforts to see that Boston's economic growth is shared by all residents," said Mayor Flynn.

To be eligible for BIDFA financing companies must employ significant numbers of Boston residents, women, and minorities, demonstrate credit worthiness, and show that their expansion will result in the retention or creation of jobs.

While public issuance of tax-exempt bonds has declined under the restrictions of the Tax Reform Act of 1986, BIDFA is still actively seeking qualified employers who need financing to expand. Another bond for \$4.95 million was recently approved by the BIDFA board for a nonprofit nursing home operator associated with the Boston Archdiocese. This bond will be considered for final approval by the Boston City Council's Planning and Development Committee early this year.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

HEALTH AND HOSPITALS DEPARTMENT

Computer Hardware Repair, etc.

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to dispense with public advertising and award a contract to Digital Equipment Corporation, Waltham, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$95,144.24

Under this contract, Digital Equipment Corporation will provide computer hardware repair and maintenance service, including parts, labor and travel for the following equipment

Nuclear Medicine — (cc7161), PDP 11/34 GMA II Digital Computer, \$8,472/year; Radiology Administration — (cc7140), 11780 DECrad Computer System, \$32,424/year; \$20,000 repairs as needed Pulmonary Function Laboratory — (cc7217), PDP 11/34A Computer System, \$7,440/year; Biochemistry Laboratory — (cc7071), PDP 11/70, console terminal, disk drive, \$36,024.96/year; Family Health and Community Epidemiology — (7783), 3 PC 350 System; 2 PC DEC Std 169 Systems; LA50-RA Printer; VT 100 DEC Terminal, \$2,436/year; Parent and Child Health Service — (cc7759), 2PC 350 Systems; 1 PC 380 System; 1 VT 100-AA DEC Terminal; 2 LA50-RA Printers; \$1,608/year

The total cost for all the systems is \$88,404.96. Digital Equipment Corporation has provided the hospital with a 15 percent discount on the total amount. Thus the final cost for maintenance will be \$75,144.24. An additional \$20,000, is added to cover repairs not under the maintenance agreement

In the past, Digital Equipment Corporation has provided excellent service to the department. Unadvertised contracts have been awarded to Digital Equipment Corporation for computer hardware repair, maintenance and an upgrade package for the past three fiscal years in the following amounts 1988 — \$76,230. 1987 — \$81,326.40; 1986 \$85,257.74

Inasmuch as the equipment is of highly specialized nature, as Digital Equipment Corporation is the manufacturer, and as the cost, in my opinion, is reasonable, no benefit would inure to the city by publicly advertising for bids.

Digital Equipment Corporation did not inform the hospital of the final contract figures until October 24, 1988. There was a question as to whether all the systems involved were eligible for the 15 percent discount. Because of this the contract is being processed late

Very truly yours,

Judith Kurland,
Commissioner

JOBS AND COMMUNITY SERVICES

Employment Preparation and Placement

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract, to J. B. Marshall & Company, Inc., d/b/a Boston Jobs Academy, located at One

International Place, Suite 315, Boston 02110. Under the terms of the contract, the contractor will provide comprehensive employment preparation and job placement services to City of Boston residents who are receiving AFDC assistance and are ET-registered. Clients will be referred to the contractor through neighborhood Jobstarts offices or the Mayor's Office of Jobs and Community Services. In addition, recruitment services will be provided by the contractor

The contractor was selected based upon an evaluation of its refunding proposal submitted to the Mayor's Office of Jobs and Community Services. Other selection criteria include the results of site monitoring visits conducted by JCS staff, an overall review of the contractor's performance during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population

Compensation under the terms of this contract shall not exceed \$32,400, payment being made from funds received from the State's Department of Public Welfare. The period of performance shall be from January 1, 1989, until June 30, 1989. The contractor has had a contract with this agency for this program for the previous fiscal year (FY 88) at the funding amount of \$75,000. The submission of this letter has been delayed due to the time involved in contract and budget negotiations

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose

Sincerely,
Theodore C. Landsmark,
Director.

English Language Instruction

I respectfully request your Honor's permission to award a contract to the Local 26, Employees and Restaurant Employees Union/English-as-a-Second Language Program, located at 58 Berkeley Street. Under the terms of the contract, the contractor will provide English-as-a-Second Language instruction to immigrant union members and their families. The goal of the program is to improve the literacy skills of the members to enable them to perform their jobs more effectively

The Mayor's Office of Jobs and Community Services was asked by the Executive Office of Economic Affairs/Office of Training and Employment now the Commonwealth of Massachusetts/Department of Employment and Training, to administer its Workplace Education Grant. This project represents a joint collaboration by the Executive Office of Labor, Commonwealth of Massachusetts/Department of Employment and Training, Department of Education and the Commonwealth Literacy Campaign and has been administered by JCS for the Boston Service Delivery Area on behalf of the state for the past year. The contractor was selected based upon its proposal in the areas of administrative capability, the ability to provide the services needed, and the ability to serve the targeted population

Compensation under the terms of this contract shall not exceed \$5,400, payment being made from funds provided by the state to the City of Boston through the Workplace Education Grant. The period of performance shall be from October 1, 1988, until June 30, 1989. The submission of this letter has been delayed due to administrative oversight related to staff turnover at JCS, and due to the late notification of funding availability from the state

Sincerely,
Theodore C. Landsmark.

Job Placement for Elders

I respectfully request your Honor's permission to award a contract to Employment Resources, Inc., a nonprofit corporation, located at 432 Columbia Street, Cambridge, for the provision of administrative services. Under the terms of the contract, the contractor, in collaboration with Careers for Later Years, Inc./Operation A.B.L.E. of Greater Boston, will provide expanded job placement services to eligible older workers targeting agencies in the Metro-North service delivery area. Services will include intake, assessment and referrals.

The Mayor's Office of Jobs and Community Services was asked by the Commonwealth of Massachusetts, Department of Employment and Training to administer this project. The contractor was selected by DET and is the sole provider of these unique services.

Compensation under the terms of this contract shall not exceed \$7,500, payment being provided to the City of Boston through the Mature Older Workers Grant (3 percent) provided by the Commonwealth of Massachusetts, Department of Employment and Training. The period of performance shall be from December 1, 1988, until June 30, 1989. The submission of this letter has been delayed due to late notification of funding availability from state and the time involved in reaching funding decisions.

As this is a negotiated contract at a reasonable cost, mandated by the state agency responsible for funding this program, I believe that public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark,
Director

Renovation to Schools

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on November 10, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Cole and Goyette, Architects & Planners, Inc., a Massachusetts corporation, with offices at Cambridge, providing design services for renovations and repairs to the Brighton High School, James J. Chittick School, Mary E. Curley Middle School, Clarence Edwards Middle School, Patrick O'Hern School, and William Barton Rogers Middle School. The scope of work will include preliminary drawings and construction supervision.

Compensation under this contract shall not exceed \$333,500 (including \$43,500 for supplementary services) which is a fixed fee of 11.6 percent based on an estimated cost of construction of \$2,500,000, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for twenty-eight months from the date of execution.

Following the advertisement of this project in the *Boston Globe* on June 27, 1988 and receipt of proposals, the contractor was selected on the basis of a rating system undertaken by the Public Facilities Designer Selection Committee in accordance with MGL c.7, s. 38A 1/2 et seq. The Committee evaluated twenty-six proposals submitted by the applicants and determined Cole & Goyette, Architects & Planners, Inc. most qualified and competent to complete said design work. The numerical matrix rating for a firm reflects the combined score of each Committee member's ranking of this firm and thus the recommended firm has the lowest number. The numerical matrix rating summary of the three finalists, in order of rank, was as follows:

Cole & Goyette, Architects & Planners, Inc.

Cambridge, 7; A. Anthony Tappe & Assoc., Inc., 132 Lincoln Street, 21; Hammer, Kiefer and Todd, Inc., Cambridge, 23.

I believe Cole & Goyette, Architects & Planners, Inc. is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgement that further public advertising would serve no useful purpose in this instance.

Sincerely,

Lisa G. Chapnick,
Director

SCHOOL DEPARTMENT Psychological Evaluations

Dear Mr. Mayor:

As superintendent of the Boston Public Schools, I respectfully request your authorization for the award of a contract to Helen H. Gallagher, an individual located at 96 Bellevue Street, West Roxbury.

This contract shall be in effect during the period January 30, 1989, to June 30, 1989, and shall occur at a cost not to exceed \$5,000, which I deemed to be reasonable.

Under the terms of this contract, the contractor will provide on an emergency basis, psychological evaluations at the rates provided in 114.3 CMR 30.00: Vocational Interest Evaluation, \$30.40/each, Educational Achievement Testing, \$40.50/each, Intellectual and Personality Evaluation, \$242.80/each; Services Generally Compensated, \$40.50/hour.

The contractor is specially qualified to provide the above services because this person can go to work immediately when required since she was a permanent employee who is now retired. She will not need detailed instruction, supervision, directions for reaching schools, information on available programs, or advice on in-school decorum. Her many years of excellent service make her unequalled in ability to perform this unique service in substance without the need for procedural assistance.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

Compensation to this vendor during the past three fiscal years in the form of unadvertised contracts is as follows: 1988 — \$5,000; 1987 — \$00; 1986 — \$00.

Very truly yours,

Laval S. Wilson,
Superintendent

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

JOBS AND COMMUNITY SERVICES

Outreach Services to Newcomers

Dear Mayor Flynn:

On or about December 13, 1988, your Honor approved the award of a contract with the Polish Social Cultural Association of the Polish-American Citizens Club, a nonprofit corporation, located at 655 Dorchester Avenue, for the purpose of providing outreach services to Polish newcomers. Under

the terms of the contract, the contractor provided a forum for disseminating information on youth programs, bilingual education and support services to the newcomers to assist them in adjusting and resettling in America. Compensation was for an amount not to exceed \$9,060, payment being provided by the Executive Office of Communities and Development through the Gateway Cities Program for the period July 1, 1988, through September 30, 1988.

Your approval is requested to amend this contract in terms of compensation and time. Additional funds are requested to allow the contractor to enhance its organizational and administrative capacity to provide a broader range of services to the Polish newcomers. The training services will include staff development, office management and procedures, fund raising strategies, and resource management. The new effective dates will be July 1, 1988, through June 30, 1989. Funding for this amendment will be provided by EOCD through the Gateway Cities Program in the amount of \$27,500. Total compensation under the terms of this contract, as amended, shall not exceed \$36,560. All other terms and conditions of the original contract shall remain the same.

As this is a negotiated contract amendment at a reasonable cost, I believe that public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark,
Director

Counseling and Job Placement

Dear Mayor Flynn:

On August 8, 1988, your Honor approved the award of a contract with the Boston Technical Center, a nonprofit corporation, located at 660 Summer Street, to provide English-as-a-Second Language/Machine Tool training to JTPA eligible participants. In addition, counseling and job placement services are being provided. Compensation was for an amount not to exceed \$57,040, payment being made from funds received under the Job Training Partnership Act for the period July 1, 1988, until June 30, 1989.

Your approval is requested to amend this contract in terms of compensation. The purpose of this amendment is to increase the contract amount to allow the contractor to provide training services to eight additional participants in the areas of medical secretary, business machine repair, and job placement services. Funding will be provided by the State's Department of Public Welfare in the amount of \$28,183. Total compensation under the terms of the contract, as amended, shall not exceed \$85,223. All other terms and conditions of the original contract shall remain the same.

As this is a negotiated contract amendment at a reasonable cost, I believe that public advertising would serve no useful purpose.

Sincerely,

Theodore C. Landsmark,
Director

PARKS AND RECREATION DEPARTMENT

Playground Improvements

Dear Mr. Mayor:

On August 24, 1987, your Honor approved the award of a contract, without public advertising for bids, to Whitman and Howard, Inc., Wellesley, for design services for "Improvements to the Stanley A. Ringer and John J. Ryan Playgrounds" during the period of June 1, 1987, to October 1, 1988, at a cost not to exceed \$92,018, based on a construction cost estimate of \$594,000.

Your approval is requested to amend this contract for additional design services which are required due to the increase in the scope or work for site improvements. The additional site improvements are estimated to cost \$180,000. The amended construction cost estimate of \$774,000 will be the basis for the increase in the total cost of the design contract

The cost for this amendment, which is effective October 2, 1988, shall not exceed \$20,000, which I have determined to be reasonable. The total cost of the contract, as amended, shall not exceed \$112,018 to be charged to 59 6S2-300-4309-0725, \$16,800 and 6S2-300-4305-0725, \$13,200. The period of this contract shall be extended from October 2, 1988, to December 30, 1989

I therefore, request your permission to dispense with advertising in the *City Record* as required by City of Boston Code, St. 4, Sec. 5.

Contractor failed to submit amendment before contract expired.

Sincerely,
William B. Coughlin,
Commissioner

SCHOOL DEPARTMENT

Education Materials

Dear Mayor Flynn:

In May 1986, the Mayor approved the award of a contract to various vendors for providing books and certain educational materials during the period July 1, 1986, to June 30, 1989

Your approval is requested to amend this contract to add additional vendors to the original listing approved by the Mayor for fiscal year 1989. The are as follows: Boston Museum of Science, Deschamps — Educators Books, Empak Publishing Co., Language Circle Enterprises, EDL.

This amendment will not effect the amount of dollars budgeted for fiscal year 1988. Because of the ongoing need to provide Boston Public Schools with books and certain educational materials, and because textbook and certain other educational materials are unique to a particular publisher, it is my opinion that advertising for bids would serve no public purpose

This contract amendment is late due to new orders place by various schools and departments. Orders were placed at intervals between summer 1988, and as recent as fall 1988. The Business Office anticipates that new orders are going to exceed the \$2,000 limit

All companies on this list are reputable and publish at least some materials that should be included on Boston's Approved Lists.

Very truly yours,

Leo J. Burke,
Business Manager

REPORT ON ORDER FOR ANNUAL APPROPRIATION AND TAX ORDERS FOR FISCAL YEAR COMMENCING JULY 1, 1988, AND ENDING JUNE 30, 1989

Coun. MENINO, on behalf of the Committee on Government Finance, submitted the following:

Report on Docket No. 0779, message of the Mayor and order for the annual appropriation and tax orders for the fiscal year commencing July 1, 1988, and ending June 30, 1989 (referred June 8) — recommending passage of the order in a new draft with the attached reductions and that the following committee report be attached:

In evaluating Boston's fiscal year 1989 budget, the Committee on Government Finance first reviewed the Administration's revenue estimates. The Committee concurs that these estimates are reasonable and will support the appropriations being requested by the Mayor. Hearings were held on the departmental appropriation requests by the appropriate City Council Committees; the Finance Committee chairman attended each of these hearings. The Committee is confident that the FY89 budget is balanced and affordable.

Although the Committee is satisfied with the numbers contained in the FY89 budget, it wishes to raise some major issues relating to the city's fiscal management policies and the budget process itself. These issues are: the presentation of revenue in the budget document; the future of Boston City Hospital; the escalating School Department budget and the use of surplus school space; waste disposal and its effects on future budgets; collective bargaining; and the Tregor Legislation, as amended by ch. 701, Acts of 1986. There are, in addition, several specific departmental issues that will be addressed.

Revenue Presentation

In the Committee's opinion, the administration has included nonrecurring revenue in the recurring section of the budget. These revenues include proceeds from a settlement with the Water and Sewer Commission, proceeds from a settlement with Dow Chemical Company relating to the use of sarabond in the construction of school buildings, as well as accrued parking meter and street opening receipts that do not reflect FY89 activity. The Water and Sewer settlement has been reclassified; it was shown as a nonrecurring revenue in the FY88 budget presentation.

During the FY88 supplemental hearings and the FY89 revenue hearings the city's budget director defended this practice by stating that, in his opinion, settlement ac-

counts are recurring revenues as the city is involved in lawsuits which result in some kind of settlements every year. Although this may be true, the amount of each settlement varies widely, and the suits may even be settled unfavorably for the city. The Committee heard no evidence to substantiate the budget director's opinion that funds expected from settlements can be projected over the long term and can be relied upon to fund recurring expenses. The Committee strongly recommends that these funds be correctly classified in future budgets as nonrecurring revenues.

The administration has, for the past several years, funded a portion of the operating budget with proceeds from the sale of capital assets. The Committee takes issue with this practice which now violates the provisions of chapter 701, Acts of 1986. The practice of using the proceeds from the sale of capital assets to support operating budgets is not conducive to sound long term planning. The Municipal Research Bureau concurs with the Committee's opinion.

The Council expected to see a multi-year revenue forecast in the FY89 budget presentation. The Budget Office has contracted with an outside firm to design a model for five-year revenue and expenditure projections; the Budget Director stated that OBPE is 70 to 80 percent toward completion of the project. A multi-year forecast, including both revenues and expenditures, for no less than a three-year period, would give the City Council a better base on which to make appropriation decisions. The projection would also allow the administration and the City Council to begin to prioritize and set goals based on revenues that will be available in future fiscal years.

Collective Bargaining

Upon presentation of the FY89 budget document, the administration stated that the total budget request was only a 4.9 percent increase over the FY88 budget. However, during the budget hearings, the Committee was made aware of the fact that no provision has been made for collective bargaining in the departments where contracts would be expiring. The middle management contract, which effects a large number of departments, the nurses contract and the jail officers contract all expire on June 30, 1988. These agreements will have a significant impact on personal services line items.

Although some of the increases can be covered through mayoral reallocations and salary savings, some departments may have to request supplements to fund the new agreements. If that happens, the real increase in the budget will be higher than 4.9 percent. One department head stated that the new MM contract would probably call for a 5 percent increase; Sam Tyler of the Municipal Research Bureau disagreed, stating that the percentage would most likely be higher. The question of the availability of funds to support a supplemental budget must also be raised.

The entire collective bargaining process needs to be looked at more closely. It appears that the administration and the School Department have negotiated past and present contracts without considering the effects of the agreements on the budget of future years. The city's budget is driven in large part by collective bargaining, further stressing the importance of the multi-year revenue and expenditure forecast as a critical tool in the negotiating process. The administration, as well as the School Department, must use the multi-year forecast information to negotiate in a realistic and responsible manner.

Health and Hospitals

The department could be facing as much as a \$10 million revenue deficit in FY88 due to delays in state reimbursements. The Municipal Research Bureau has also warned that the state's FY89 Medicaid budget appears to be underfunded.

Increasing costs for medical care and the growing AIDS epidemic have already begun to strain the health care community. The new health care bill promises support, however, numerous requests by the Finance Committee for a written analysis of the legislation's impact on the city's health care system have not produced such an analysis. The Office of Intergovernmental Relations, the Office of Budget and Program Evaluation and the Health and Hospitals Department itself should have been following this legislation closely. All legislation that has a critical impact on city services that require a large percentage of the city budget should be analyzed carefully in relation to its effects on the total city budget.

The city expects to rebuild a new hospital in the early 1990s. The financing has already been reevaluated and the project has been scaled down. The rebuilding of Boston City Hospital cannot take place in a vacuum, a single new hospital isolated from the larger issue of a viable health care system. The city should be determining its public health policy for the next decade. Long-term care for the elderly, community health programs, as well as the financial future and the ability of a new hospital to compete with area hospitals are integrated goals. The administration should consider the possible benefits of legislation that would make the department a special enterprise fund.

The Committee supports the appointment of the new Commissioner, Judith Kurland, and is optimistic that the commissioner will be afforded the autonomy necessary to pursue objectives which are based solely in providing quality health care.

Departmental Issues

Public Works and Waste Removal — The City of Boston's Public Works Department budget encompasses many areas of service which are rendered daily to city residents. The city's waste removal program is one area whose economic and societal import has become of critical concern to city officials. The City of Boston generates in excess of 500,000 tons per year of municipal solid waste from residences, businesses, and institutions. The city is directly responsible for disposing approximately half of that amount. This segment of Public Works Department has emerged significantly over the last three years and will continue to escalate unless and until state and local governments jointly resolve this dilemma.

The cost of trash removal which, as recently as five years ago, was as low as \$5 to \$20 a ton is now \$60 to \$100 ton. Furthermore, it is likely that additional increases are inevitable due in part to the lack of waste-to-energy plants now being built coupled with the ongoing effort by state and federal government to close landfills. Three-quarters of the 193 landfills operating in 1986 will have closed by 1990, reducing the state's landfill capacity by more than 50 percent. The need for waste-to-energy plants is obvious, but equally essential are greater efforts in the recycling and composting alternatives.

By not addressing our waste disposal needs in the short term, a very substantial and disproportionate allocation of city funds from the city budget (and not just the D.P.W. budget) will be needed to pay spiraling waste removal costs.

Physicians Contracts — An issue of concern to the Committee is the fact that the Police Department will be contracting with University Hospital for the services of a physician. Representatives from the Police Department stated that Boston City Hospital did not respond to an RFP for the services required. During the hospital's budget hearing, representatives from BCH had no knowledge of the contract. It seems that the city should be using its own resources for contractual services.

Contract Management — The Committee supports the Finance Committee's recommendation that the limit for no-bid contracts be raised from \$2,000 to \$10,000.

Vehicle Policy — During the budget hearings, it became apparent that provisions for vehicles in the various departmental budgets is not uniform. Some departments have a provision for car leases while others use Transportation Department vehicles. Fuel is sometimes budgeted in the user department and sometimes is paid for by another department. These expenditures should be budgeted consistently for all departments to reflect accurate program budgets and expenditures. The Committee believes that a central motor pool should be used for many of the administrative departments where a real need for vehicles cannot be justified.

Consolidation — The administration must look at ways to consolidate smaller commissions and departments. It may be desirable and more efficient for smaller agencies to share support staff and equipment.

Legal Counsel — The use of personal service contracts for lawyers in various departments should be reviewed. The Committee feels that the city's Law Department should include some specialized attorneys who can handle issues that are unique to the city, but can be expected to recur.

School Department

The School Department's budget requires a large percentage of the city's total budget. The Mayor's request for an appropriation for this department to be met with tax dollars is \$341.1M — an increase of 9.5 percent over FY88. When added to additional available discretionary funds the total spending authority of the School Department will be \$350M. The superintendent has cut his budget request in an attempt to reduce the dollars to the \$350M spending authority, but has not reached that figure to date. The Committee is also concerned about the availability of the \$8.9M in outside discretionary funds; this figure may be off by over \$2M. The Mayor has stated that the School Department will have a \$350M spending authority; if the outside funding is less than \$8.9M, the administration must identify additional revenues to support the shortfall.

None of us wants to see the children in the Boston Public Schools deprived of a good education. The administration must work with the School Department and estimate those revenues that will be available to the schools over the next three to five years in order for the department to be able to plan its future budgets responsibly. It is only through such prudent planning that the school children of the city will realize the benefit of consistency in programs.

Use of School Buildings

The School Department has a surplus capacity of over 21,000 seats — the equivalent of about 30 vacant schools. It is never an easy decision to close a school; rather, the city must be quick to plan efficient and productive use of the existing surplus space.

Presently the city rents space for various departments at scattered sites. A possible better use of resources may be to house many of these at 26 Court Street. The School Department offices at Court Street could be moved, along with Boston Latin Academy, to the old Boston Technical building. The building trades union could share space at the Hubert Humphrey Occupational Resource Center. Day care could be provided in some of the other underutilized buildings such as English High School which is in the heart of the medical community. These are only some of the options that should be reviewed in the near future.

Tregor Legislation and Fiscal Controls

The intent of the Tregor legislation, as amended, is to provide the city with fiscal controls that make it more accountable and, hopefully, more responsible. The administration, however, during FY88 has chosen to disregard many of those fiscal controls.

Mayoral Reallocations — For the past few years the source of most of the funds used for the Mayor's \$3M reallocation account has been the debt service appropriation. During two different hearings, the city's budget director stated that this practice would most likely be followed again in FY90. It is the opinion of this Committee that this is not the intent of ch. 190. The debt service appropriation is for a fixed cost that does not receive the approval of the City Council. This account should accurately reflect the debt service needs of the city for the year and should not be inflated for use for reallocations. Reallocations should come from departmental appropriations that have been approved by the City Council.

Another issue requiring closer review is the fact that many of the same departments have received reallocations for two or all of the past three years. This does not reflect well on either the budgeting efforts of those departments or their ability to forecast expenditures.

Audit Committee — The Audit Committee should be meeting at least quarterly with Peat Marwick, the CPA firm which audits the city's accounting records. The Committee should review the recommendations made in the auditors' report on internal control in a timely manner and report any of its own related recommendations to the Mayor and the City Council.

Three of the five members of this Committee have terms which have expired. The Committee has met only once this year, on April 6, to review Peat Marwick's audit plan and the city's financial statements for the year ended June 30, 1987, and also to review the "Auditor's Report on Internal Control" for the year ended June 30, 1986. A draft of the FY87 report was also discussed at that meeting.

The Finance Committee feels that the Audit Committee is not serving the purpose for which it was intended. The Mayor has not appointed or reappointed three of the members of the Audit Committee; the Committee is not meeting as often as it should and the review of the FY86 management letter was not done in a timely manner. The Finance Committee believes that the Audit Committee should not dilute its intent even during times when the city is in a strong financial position.

Use of Proceeds from the Sale of Assets — Ch. 701, Acts of 1986, requires the city to credit the net proceeds from the sale of surplus property to the capital fund unless the City Council by a majority vote allows the proceeds to be credited to the general fund. The administration has ignored this requirement in FY88 and in the FY89 request. There has been no vote of the Council to use the proceeds for general fund expenditures, yet proceeds are being identified as a source of revenue for the budget before us.

Quarterly Allotments — Ch. 190 requires the administration to file quarterly allotment schedules with the City Clerk by August 1. These schedules were not filed for FY88 until the City Council requested them. When several departments overspent their allotments and were immediately granted waivers by the Mayor, a report explaining how the departments would remedy the shortfalls was not filed until the requirements of the law were brought to the attention of the administration by the City Council. The reports that were finally filed stated that supplemental appropriations would be used for some departments to support the approved spending levels in subsequent quarters. The law does not state that appropriating supplementals is a proper course of action. (The supplementals referred to were not filed by the Mayor until much later.)

Recommendations

As a result of the observations noted above, the Committee on Government Finance has several recommendations to emphasize. One of the most important of these recommendations is the provision of a three to five year

revenue and expenditure forecast no later than the early fall of FY89. This forecast should be reviewed with the City Council and the School Department at that time.

The Council's role in the budget process has been mainly a reactive one. The Committee recommends that the City Council adapt its role and become more active in setting goals and priorities. This role should begin in the fall with the review of the long-term revenue and expenditure forecast. The review would afford the Council a realistic picture of available revenues, and anticipated expenditures. The Council should work with the administration and the School Department to determine a course that will ensure the most effective and efficient use of resources. The Council, in its post audit capacity, should continue to monitor the operating budget throughout the entire budget cycle, not just at "budget time."

A third recommendation is also related to the long-range financial plan. The administration and the School Department should use the multi-year forecast to ensure that all contract negotiations result in affordable agreements for all years covered.

In the health care area, the Committee recommends that the administration carefully research special enterprise legislation for BCH and report its findings to the City Council.

Since the DEQE's decision prohibiting the city's solid waste plan, the state must assume some responsibility and should play a larger part in the resolution of the problem. The administration should continue to press the state for assistance.

The use of surplus school buildings has to be addressed in the near future. We recommend that the administration and the School Department work together to redistribute the surplus space for more efficient use. A concrete plan with timetable should follow and be implemented.

Finally, the Committee recommends that the administration comply with the requirements of Tregor, as amended by chapter 701, Acts of 1986. All reporting requirements should be completed in a timely manner, mayoral reallocations should reflect the intent of the law and the Audit Committee should be required to follow its mandate. The Committee disagrees with the practice of using proceeds from the sale of capital assets, especially without a separate vote of the Council, and will not approve the use of these proceeds to fund future operating expenses.

The Committee recommends that the following reductions be made to the budget submitted by the Mayor:

Department	Line Item	Amount
ASD - Intergov. Relations	29. Contractual Services	\$ 32,137
ASD - Intergov. Relations	49. Current Charges	\$ 17,600

Be it ordained by the City Council of Boston, as follows:

Whereas, A serious public emergency, as declared and described in chapter 797 of the Acts of 1969 and in the preamble to the Rental Housing Equity Ordinance, chapter 34 of the Acts of 1984, continues to exist in the City of Boston; and

Whereas, The rate of conversion of rental housing accommodations into condominiums, cooperatives or other forms of ownership and the rent increases and evictions associated with such conversions, continues to result in fewer affordable rental housing accommodations; and

Whereas, The unregulated spread of condominium and cooperative conversions throughout the city threatens the stability of Boston's neighborhoods; and

Whereas, The vacancy rate for rental housing accommodations in the City of Boston is less than 5 percent; and

Whereas, Preservation of affordable rental housing accommodations furthers the public health, safety and welfare; and

Whereas, Conversion of rental housing accommodations to condominium or cooperative ownership results in high tenant turnover due to tenants vacating voluntarily or involuntarily; and

Whereas, Conversion of rental housing accommodations to condominium or cooperative ownership can and does result in large numbers of absentee owners; and

Whereas, It is often difficult for tenants of condominium and cooperative housing accommodations to determine the proper procedure for reporting and resolving maintenance problems in the unit when the owner of the unit or his agent does not reside in the building; and

Whereas, The substantial number of housing accommodations in the City of Boston which are not in compliance with Article II of the State Sanitary Code, the State Building Code and/or the Boston Fire Prevention Code detract from and endanger the existence of safe, decent and affordable housing; now, therefore

Pursuant to the authority vested in it by law, including, without limitation, Article 2, as amended, and Article 47 of the Amendments to the Constitution of the Commonwealth of Massachusetts; and chapter 797 of the Acts of 1969, as amended by chapter 863 of the acts of 1970, chapter 843 of the Acts of 1971, and by chapter 45 of the Acts of 1987; and chapters 111 and 143 of the General Laws; be it

Declared by the City Council and the City of Boston that a substantial and critical shortage of safe, decent, and reasonably priced rental housing accommodations exists in the City of Boston, particularly for those who are elderly, handicapped, or who have low or moderate annual incomes because of deterioration and demolition of existing housing and an insufficient supply of new housing, and due, further, to the conversion of rental housing accommodations to other uses or forms of ownership, particularly conversion to condominiums or cooperatives, and, therefore, the following is declared to be in the public interest:

threats to the public health, safety, and general welfare of the citizens of the City of Boston; and"

Chapter 34 of the Ordinances of 1984, as amended, hereby further amended by inserting after section 10 the following new section:

Section 11.

Removal of Housing Accommodation Regulated.

(A) Terms Defined: All terms used herein shall have the meanings defined in section 1 of chapter 34 of the Ordinances of 1984, as amended, except that as used herein, the term "housing accommodation" as contained in section 1(n) shall not include: "Mobile homes, trailers, or trailer or mobile home lots."

(B) Removal of Housing Accommodation Regulated: Except as provided in section 11 of this ordinance, it shall be unlawful for any owner or other person to remove any housing accommodation unless the board, after hearing, grants a removal permit. Nothing herein, however, shall prohibit the creation of a condominium in accordance with General Laws, chapter 183A or a cooperative in accordance with General Laws chapters 156B, 157, and 157B where any unit in the condominium or cooperative is

(a) not a housing accommodation;

(b) a luxury housing accommodation; or

(c) a housing accommodation for which a removal permit has been received.

In all condominiums or cooperative units so created, it shall be unlawful to convey any housing accommodation therein not falling within the definitions in (a), (b), or (c), above, without first obtaining from the board a removal permit.

The board may issue such orders and promulgate such regulations as are necessary to effectuate the purposes of this section, the procedure for applications, notice, hearings and the grant and review of removal permits. The board shall promptly submit to the City Council proposed regulations pursuant to this section. No such regulation shall be effective until approved by the said City Council and the Mayor of the City of Boston.

(C) Eviction. Eviction of tenants from controlled or decontrolled housing accommodations is governed by section 9 as modified by sections 10 and 11 of this ordinance. Issuance of a removal permit does not relieve any person of compliance with the eviction procedures contained in this ordinance.

(D) Exceptions. Except as otherwise required by this ordinance including, but not limited to, the requirements contained in section 10(i) relating to lodging and rooming houses, no removal permit shall be required for the removal of any luxury housing accommodation or any housing accommodation for which, on or before May 4, 1988, a master condominium deed or articles of organization for the housing accommodation is located has been duly recorded pursuant to the provisions of General Laws, chapters 183A, 156B, 157 or 157B.

(I) Sale or Transfer After Removal: Once a removal permit has been issued, no additional removal permit is required for subsequent transfers of ownership.

(E) Removal Procedure:

(1) Criteria: In reviewing an application for a removal permit the board shall consider relevant factors including, without limitation: the aggravation of the shortage of safe, decent and affordable housing accommodations in the city and its neighborhoods which may result from the removal, especially for tenants of low and moderate income, and handicapped or elderly tenants. In making such determination the board shall review and make findings as to all relevant factors including, without limitation, the following:

(a) The benefits and detriments to the persons whom this ordinance and this section seek to protect;

(b) The hardships imposed on the tenant(s) residing in the housing accommodation proposed to be removed;

(c) Circumstances demonstrating hardship and inequity to the applicant seeking a removal permit;

(d) The rate of vacancy in the City of Boston at the time the applicant applies for a removal permit; and

(e) Substantiated evidence demonstrating the occurrence at the site of the housing accommodation of arson or a suspicious fire, as defined in section 12 of this ordinance.

(3) Mandatory Granting of Removal Permit.

(a) The board shall grant a removal permit for all of the housing accommodations in the building or project where the applicant demonstrates to the board by sufficient evidence (i) that the applicant is in compliance with all of the requirements of this ordinance; and (ii) that tenants or unit owners who occupy a majority of all of the units in a building or project and who have resided in the building or project for one year or longer prior to the filing of the removal permit application

(i) have purchased shares in or have unequivocally agreed to purchase such building and convert it to a limited equity cooperative pursuant to General Laws, chapters 156B, 157 and 157B; or

(ii) have purchased or have unequivocally agreed to purchase their rental units when they are or were converted to a condominium or cooperative unit and have represented that they are intended in good faith to occupy such units as their principal and permanent residences; or

(b) For purposes of determining a "majority" or lesser required number under the previous subsection, only occupied units in a building or project shall be included and voting shall be done by unit with all of the tenants or owners residing in a unit treated as a single voting entity.

(c) The board shall grant a removal permit for a housing accommodation if the applicant demonstrates to the board by sufficient evidence that

(i) the proposed purchaser of the housing accommodation is the tenant who currently resides in the housing accommodation and has so resided in the housing accommodation or the building in which the housing accommodation is a part for at least one year prior to the filing of the application for removal permit.

(4) Conditions to be Imposed on Removal Permits. The board shall impose the following conditions, if applicable, when it grants a removal permit. Nothing in this ordinance shall restrict an owner from conveying his/her interest in any building or property or portion thereof provided that the property shall remain subject to the provisions of this ordinance and to the conditions and terms of the last issued removal permit. Once issued, a removal permit shall not be revoked; however, the board may subsequently modify the terms of a removal permit in accordance with the procedures set forth in section II(E)(5) (a)-(c), and may take such action as is necessary to enforce the terms of the removal permit, as provided in II(F) of this Ordinance.

(a) Right to Purchase Unit. Any tenant who occupies a housing accommodation at the time of its conversion to a condominium or cooperative unit and which condominium or cooperative was cre-

ated after May 4, 1988, shall have a first refusal right to purchase the same upon substantially the same or more favorable terms as the unit is being offered to third parties. Prior to the initial sale or transfer of the first unit in a condominium or cooperative to a third party the tenants in the condominium or cooperative shall be served with a notice advising each tenant of their rights under this ordinance and a purchase and sale agreement executed by the landlord whose terms comply with this section and the tenant may exercise the first refusal right within ninety days from its receipt or delivery to the tenant's housing accommodation (whichever is earlier) by executing the same, pay any required deposit and return the same to the landlord. Failure by the tenant to exercise the first refusal right shall permit the landlord to sell the unit to third parties and this first refusal right shall be forever extinguished, provided, however, that if the landlord does not then sell to third parties but seeks thereafter to sell at more favorable terms than were offered to the tenant, the landlord must re-offer the unit to the tenant upon the procedure set out above prior to any such sale. The first refusal right created by this section shall be independent of any obligation of the landlord to serve the notice described in section 10(c) of this ordinance.

(b) Code Compliance. At the time that a removal permit is granted the building must be in, and thereafter, remain in, full compliance with Article II of the State Sanitary Code, the State Building Code, the Boston Fire Prevention Code and any other applicable municipal code, ordinance, or state law, regulating the conditions or occupancy of housing accommodations. Notwithstanding the preceding sentence if, for good cause, the building is not currently in compliance with any of the above codes, ordinances, or laws, the removal permit must be conditioned upon the applicant's agreement to bring the building and/or unit into such compliance within a specified time period determined reasonable by the applicable enforcement agency.

(c) Maintenance and Repairs. Whenever the housing accommodation is used for rental housing purposes, the owner must designate a person or persons within 25 miles of the building to be responsible for maintenance and repairs. The tenant in each unit shall be informed by the owner or his/her agent in writing as to who is responsible for maintenance and repairs, both as to common and individual unit areas, and such notice shall be updated whenever there is a change in tenants or a change in who is responsible for such maintenance.

4(A) Rent and Eviction Protections: The granting of a removal permit under this section shall not by itself operate to change the classification of the housing accommodation of controlled or vacancy decontrolled and the provisions of this ordinance as to decontrol under section I(n) (v) shall continue to be in full force and effect. Nothing herein, however, shall extinguish the right of a landlord after the granting of a removal permit to seek decontrol status of a housing accommodation which is voluntarily vacated within the meaning of said section I(n) (v) of this ordinance.

(5) Procedures

(a) The board shall consider an application for a removal permit for a controlled or decontrolled housing accommodation, or an application to modify the terms of a removal permit previously

issued, upon receipt of an application filed by the landlord, owner or other authorized person. Such application shall be made on a form approved by the administrator. The board shall notify the applicant and tenant of the receipt of an application and of the right of either party to request a hearing in writing within fifteen calendar days of the date of such notice. At any time, the board may, on its own initiative, order a hearing on any application. If a hearing is timely requested by either party, or if the action is undertaken on the initiative of the board, notice of the time and place of the hearing shall be furnished to the applicant and tenant and the hearing shall be conducted before a designee of the board. Hearings, final decision and notification of the final decision to the applicant relative to permits shall occur within sixty days of the filing of the application unless the parties otherwise agree. The board may consolidate applications relating to housing accommodations in the same building or development. The board may conduct a single hearing on all such consolidated applications. The administrator may designate a person or persons to participate in a removal proceeding, where appropriate, in order to further the provisions and purposes of this ordinance and to serve the public interest. Any removal permit application for which notification of a final decision is not sent within sixty days, or such further period to which the parties have agreed, shall be deemed granted.

(b) Removal permit hearings shall be conducted in accordance with the provisions of section 11 of chapter 30A of the General Laws except that requirements (7) and (8) of such section 11 shall not apply to such hearings.

(c) Notwithstanding any other provision of this section, if a decision regarding a removal permit has been made with regard to such controlled or decontrolled housing accommodation within the preceding twelve months, the board may, without holding a hearing, refuse to grant a removal permit for that housing accommodation or may dismiss any such application. In addition, if the application is not in conformance with the filing requirement of this section or applicable regulations, the administrator may administratively dismiss such application without holding a hearing.

(F) Enforcement. All of the remedies provided in sections 13 through 16 of this ordinance shall be available to the board for purposes of enforcing section 11. Section 9.

Section 1(e) of chapter 34 of the Ordinances of 1984, as amended, is further amended by deleting the punctuation (.) at the end and adding the words "when the tenant whose eviction is sought was a resident of the housing accommodation at the time of the master deed or articles of organization for the property wherein said housing accommodation is located was recorded pursuant to the provisions of chapters 156B, 157 or 183A of the Massachusetts General Laws."

Section 10.

Section 2 of chapter 34 of the Ordinances of 1984, as amended, is further amended by adding the following paragraph thereto:

(e) Determination of Invalidity. In the event that any policy, rule, ruling, regulation or order promulgated by the board is held invalid by any court of competent jurisdiction, the board shall forthwith amend or revoke such policy, rule, ruling, regulation or order, and cease further enforcement thereof, to the full extent required in order to conform to the principles and reasoning set

forth in the decision of such court, and such decision shall be deemed binding upon the board in connection with any and all pending matters.

Section 11.

Chapter 12 of the Ordinances of 1987 is hereby amended by inserting immediately before the words "removal permit" everywhere that they appear in that ordinance the following words: mobile home.

Section 12.

The provisions of this ordinance are severable and if any provision shall be held to be unconstitutional or otherwise invalidated by any court of competent jurisdiction, then such provision shall be considered separately and apart from the remaining provisions of this ordinance, which shall remain in full force and effect.

Section 13.

The City Clerk may place this ordinance in the City Code and renumber the sections as appropriate.

Section 14.

This ordinance shall be effective upon signing by the Mayor.

The report was accepted.

(E) Removal Procedure

(1) Generally. A separate removal permit shall be issued for each qualifying housing accommodation. Copies thereof shall be kept on file at the Board and certified copies shall be available upon payment of a reasonable fee.

(2) Criteria: In reviewing an application for a removal permit the board shall consider relevant factors including, without limitation; the aggravation of the shortage of safe, decent and affordable housing accommodations in the City and its neighbor-

hoods which may result from the removal, especially for tenants of low and moderate income, and handicapped or elderly tenants. In making such determination the board shall review and make findings as to all relevant factors including, without limitation, the following:

- (a) The benefits and detriments to the persons whom this ordinance and this section seek to protect;
- (b) The hardships imposed on the tenant(s) residing in the housing accommodation proposed to be removed;
- (c) Circumstances demonstrating hardship and inequity to the applicant seeking a removal permit;
- (d) The rate of vacancy in the City of Boston at the time the applicant applies for a removal permit; and
- (e) Substantiated evidence demonstrating the occurrence at the site of the housing accommodation of arson or a suspicious fire, as defined in section 12 of this ordinance.

(3) Mandatory Granting of Removal Permit.

(a) The board shall grant a removal permit where the applicant demonstrates to the board by sufficient evidence (i) that the applicant is in compliance with all the requirements of this ordinance; and (ii) that tenants who occupy a majority of all of the units in a building or project and who have resided in the building or project for one year or longer prior to the filing of the removal permit application:

- (i) have unequivocally agreed to purchase such building and convert it to a limited equity cooperative pursuant to General Laws, chapters 156B, 157 and 157B; or
- (ii) have unequivocally agreed to purchase their rental units when they are converted to a condominium or cooperative unit and have represented that they are intending in good faith to occupy such units as their principal and permanent residences.

(b) For purposes of determining a "majority" under the previous subsection, all occupied units in a building or project shall be included and voting shall be done by rental unit with all of the tenants residing in a unit treated as a single tenant. All units in a building or project shall be offered for sale to the residing tenants at the same time, at the same or comparable price.

(4) Conditions to be Imposed on Removal Permits. The board shall impose the following conditions, if applicable, when it grants a removal permit. Nothing in this ordinance shall restrict an owner from conveying his/her interest in any building or property or portion thereof provided that the property shall remain subject to the provisions of this Ordinance and to the conditions and terms of the last issued removal permit. Once issued, a removal permit shall not be revoked; however, the board may subsequently modify the terms of a removal permit in accordance with the procedures set forth in section II(E)(5) (a)-(c), and may take such action as is necessary to enforce the terms of the removal permit, as provided in II(F) of this Ordinance.

(a) Right of First Refusal to Purchase

Any tenant who lives in a housing accommodation for which a removal permit has been granted shall, within sixty days of the date of the grant of the permit or such other time period as shall be established by the board, be given the right of first refusal to purchase the housing accommodation he/she occupies for substantially the same or more

favorable terms and conditions as are being or would be offered to prospective arms length purchasers.

Such tenant may exercise a right of first refusal to purchase such housing accommodation by executing a purchase and sales agreement prior to the expiration of ninety days after the date of receiving a copy of the purchase and sales agreement properly executed by the person offering the housing accommodation for sale. Each time the housing accommodation is subsequently offered for sale, the tenant then occupying the housing accommodation shall be offered the right of first refusal to purchase as described above in this section.

(b) Code Compliance

At the time that a removal permit is granted the building must be in, and thereafter, remain in, full compliance with Article II of the State Sanitary Code, the State Building Code, the Boston Fire Prevention Code and any other applicable municipal code, ordinance, or state law, regulating the conditions or occupancy of housing accommodations. Notwithstanding the preceding sentence if, for good cause, the building is not currently in compliance with any of the above codes, ordinances, or laws, the removal permit must be conditioned upon the applicant's agreement to bring the building and/or unit into such compliance within a specified time period determined reasonable by the applicable enforcement agency.

(c) Maintenance and Repairs

Whenever the housing accommodation is used for rental housing purposes, the owner must designate a person or persons within 25 miles of the building to be responsible for maintenance and repairs. The tenant in each unit shall be informed by the owner or his/her agent in writing as to who is responsible for maintenance and repairs, both as to common and individual unit areas, and such notice shall be updated whenever there is a change in tenants or a change in who is responsible for such maintenance.

(d) Rent and Eviction Protections

Whenever the housing accommodation is used for rental housing purposes, it shall revert to its prerenoval classification of controlled or vacancy decontrolled and the tenant shall be entitled to the rent protections contained in sections 4 through 8 of this Ordinance, as well as the eviction protections contained in sections 9 and 10 of this Ordinance.

4. Procedures

(a) The board shall consider an application for a removal permit for a controlled or decontrolled housing accommodation, or an application to modify the terms of a removal permit previously issued, upon receipt of an application filed by the landlord, owner or other authorized person. Such application shall be made on a form approved by the administrator. The board shall notify the applicant and tenant of the receipt of an application and of the right of either party to request a hearing in writing within fifteen calendar days of the date of such notice. At any time, the Board may, on its own initiative, order a hearing on any application. If a hearing is timely requested by either party, or if the action is undertaken on the initiative of the board, notice of the time and place of the hearing shall be furnished to the applicant and tenant and the hearing shall be conducted before a designee of the Board. Hearings, final decision and notification of the final decision to the applicant rela-

tive to permits shall occur within sixty days of the filing of the request unless the parties otherwise agree. The Board may consolidate applications relating to housing accommodations in the same building or development. The Board may conduct a single hearing on all such consolidated applications. The administrator may designate a person or persons to participate in a removal proceeding, where appropriate, in order to further the provisions and purposes of this ordinance and to serve the public interest.

(b) Removal permit hearings shall be conducted in accordance with the provisions of section 11 of chapter 30A of the General Laws except that requirements (7) and (8) of such section 11 shall not apply to such hearings.

(c) Notwithstanding any other provision of this section, if a decision regarding a removal permit has been made with regard to such controlled or decontrolled housing accommodation within the preceding twelve months, the board may, without holding a hearing, refuse to grant a removal permit for that housing accommodation or may dismiss any such application. In addition, if the application is not in conformance with the filing requirement of this section or applicable regulations, the administrator may administratively dismiss such application without holding a hearing.

(F) Enforcement

All of the remedies provided in sections 13 through 16 of this ordinance shall be available to the board for purposes of enforcing section 11.

Section 9. Chapter 12 of the Ordinances of 1987 is hereby amended by inserting immediately before the words "removal permit" everywhere that they appear in that ordinance the following words:

mobile home

CITY RECORD

RAYMOND L. FLYNN
MAYOR OF BOSTON

OFFICIAL CHRONICLE, MUNICIPAL AFFAIRS

CHRISTOPHER A. IANNELLA
PRESIDENT, CITY COUNCIL

VOL. 81

MONDAY, MARCH 20, 1989

NO. 12

MAYOR NAMES LARRY DWYER PARKS COMMISSIONER

Mayor Raymond L. Flynn announced the appointment of Larry Dwyer, former city youth worker and former Community Schools Director, as Boston Parks Commissioner.

"Larry Dwyer has worked closely with young people and families in our city for over fifteen years. His dedication and commitment to the neighborhoods of Boston will build on the momentum gained in recent years to revitalize our parks," said Mayor Flynn.

"With Larry Dwyer at the helm of Parks and Recreation, we will continue to rebuild the 2,500 acres of parks, fields, and open spaces in Boston that residents, especially our young people, turn to as valuable resources for recreation and pleasure.

"We have made great strides over the past few years in our parks system with capital investment and improved management and maintenance, Larry's sensitivity, compassion for the neighborhoods, and years of community service experience will make our park programs even more attractive and useful to residents of the city."

Commissioner Dwyer, thirty-six, will take over the Parks and Recreation Department and responsibilities for maintaining city parks, playgrounds, tot lots, athletic fields and courts. In addition, the department organizes athletic activities and recreational programs throughout the city, including summer sailing, neighborhood basketball and baseball leagues, and the Boston Park Rangers.

Boston Parks and Recreation employs over 250 workers and operates under a \$13-million budget. During the last three years, Mayor Flynn has doubled the operating budget for the parks system and, through the Capital Plan to rebuild Boston, has initiated improvements to virtually the entire Parks and Recreation system.

Starting as a youth worker in South Boston, Larry Dwyer has worked closely with the young people of Boston for over fifteen years, eventually becoming director of Boston Community Schools and Recreation Centers in 1984. While heading up Community Schools, Mr.

Dwyer tripled childcare availability within the schools, established the Alternative Education Initiative and expanded recreational opportunities by opening fifteen gyms and pools throughout the city.

In 1987, Mayor Flynn assigned Larry Dwyer to the Boston Housing Authority, where he assisted BHA Administrator Doris Bunte to resolve tenant and constituent issues. Commissioner Dwyer worked diligently to help develop a Voluntary Compliance Agreement with the federal department of Housing and Urban Development.

As chairman of the Neighborhood Housing Trust, Dwyer has overseen the distribution of \$24.5 million in Linkage grants and loans to thirty-one affordable housing projects of over 2,600 units of housing.

Commissioner Dwyer has also chaired the Fan Piers/Fort Point Channel Civic Advisory Committee, at the request of Mayor Flynn, to work closely with neighborhood residents, local businesses, environmentalists, the local maritime industry, and developers to balance the needs and concerns of the future.

UNITED WAY NAMES OUTSTANDING VOLUNTEERS

Margery and Arthur D. Katzenberg, Jr., of Waban, have been named "most outstanding volunteer leaders" by the Alexis de Tocqueville Society of the United Way of Massachusetts Bay.

The local society — named after the French historian who admired America's spirit of voluntary association and voluntary effort for the common good —

was formed in 1984, and consists of individual donors who annually pledge \$10,000 or more to the United Way of Massachusetts Bay campaign.

"Each year the society looks to the community at large to honor people who have dedicated themselves to better the lives of others by taking the lead in volunteer efforts," said Alexis de Tocqueville Society Chairman Al Kenab.

"In choosing the Katzenbergs to receive our award, the society recognized their partnership in voluntary efforts, as well as their individual long and distinguished records of leadership in community service," said Kenab.

Married for twenty-two years, the Katzenbergs say their community involvement is motivated by a strong sense of family values and obligation.

Margery, a native of Montreal, Canada, says she began volunteering when she was eleven years old. "My family was very community-conscious and we were active in an organization that was equivalent to the Combined Jewish Philanthropies (here a United Way affiliated agency).

Volunteering as a couple became prevalent for the Katzenbergs during the beginning years of their marriage. "For our fifth anniversary we went to Israel," said Arthur. It was a very emotional experience for the both of us. It made us realize what needs to be done and why, and gave us a strong feeling of wanting to do things for other people."

The Katzenbergs have played significant roles in numerous community organizations including, the Massachusetts Chapter of the National Multiple Sclerosis (MS) Society and the Combined Jewish Philanthropies (CJP) of Greater Boston, a United Way agency.

Professionally, Arthur is senior vice-president of marketing for Global Petroleum Corporation. He is also a trustee of Beth Israel Hospital, a member of the

board of overseers of the Newton-Wellesley Hospital, and former member of the United Way of Massachusetts Bay Corporation.

Margery and Arthur have five children.

MAYOR FLYNN NOTIFIES FAMILIES OF EARNED INCOME TAX CREDIT

Mayor Raymond L. Flynn kicked off a six-week outreach campaign to notify thousands of low-income families about the federal Earned Income Tax Credit (EIC) — which could mean up to \$874 in additional money to each family.

"It is important that we spread the word and let the people of Boston know that this opportunity is available. Taking advantage of Earned Income Credit can make a difference in our working families' ability to support their children and provide for their households," Mayor Flynn said.

The campaign will run until April 15, and will include public service announcements and a series of outreach workshops held throughout Boston in cooperation with the IRS. Approximately 50,000 pamphlets and 2,000 posters will be distributed to every neighborhood.

Boston's campaign is part of a national outreach effort jointly sponsored by the U.S. Conference of Mayors, the National Conference of Catholic Bishops, the AFL-CIO, the Center on Budget and Policy Priorities, and the League of United Latin-American Citizens.

To qualify for EIC a family must have at least one child at home and have adjusted gross income of less than \$18,576. To apply, all a family needs to do is file a federal 1040 or 1040A form. The IRS will compute their credit and send them a check if they qualify.

The outreach campaign became necessary when federal income tax liabilities for millions of low-income Americans were eliminated as a result of the Tax Reform Act of 1986. Many families who now owe no taxes, and would not file a federal tax form otherwise, may miss out on the EIC.

The Earned Income Credit was expanded by the federal government to

help offset the burden that payroll taxes place on low-income working families, according to Robert Greenstein, director of the Center on Budget and Policy Priorities. Families can ask their employers to provide the credit for 1989 as part of their paycheck throughout the year. Federal law requires that the credit be provided to eligible workers in their paychecks, if the workers request it.

Low-income Boston residents can call the Internal Revenue Service at 1-800-424-1040 for more information about the EIC program.

MBTA NEW FARE RATES

The new fare rates on the Massachusetts Bay Transportation Authority's Commuter Rail System have taken effect, starting on Wednesday, March 1, 1989. Only cash fares and half-fares for students and children under twelve, and senior citizens and passengers with special needs with identification cards, will be affected; prices for monthly passes and twelve-ride tickets will not change until April 1.

One-way cash fares are being increased ranging from twenty-five to seventy-five cents on zones 1B through 11, based on distance traveled. The new fares are as follows: Zone 1B: \$1;

zone 1: \$1.65; zone 2: \$1.90; zone 3: \$2.25; zone 4: \$2.50; zone 5: \$2.75; zone 6: \$3.10; zone 7: \$3.35; zone 8: \$3.60; zone 9: \$4.25; zone 10: \$4.75; and zone 11: \$5.25.

The fare rates are the result of recommendations from the MBTA Advisory Board, which is composed of representatives of the cities and towns served by the MBTA and oversees its annual budgets, to increase the percentage of operating costs covered through fares from 28 percent to 34 percent.

The fare changes were discussed in public hearings and approved by the MBTA Board of Directors in January, 1989. The first proposal offered a fifty-percent across the board increase, however, due to suggestions from commuters and public officials who attended the public hearings, the Board of Directors approved a staggered increase based on distance traveled.

The last fare increase was in 1981. Since then, costs for wages, fuel, equipment and maintenance have increased dramatically, while revenues have declined by more than 25 percent. Even with the fare increase, the rise is less than the rate of inflation since 1981.

Prices for MBTA monthly passes, twelve-ride tickets, monthly interzone passes, and family fare rates will increase starting April 1, 1989.

MBTA Commuter Rail service has also been expanded and improved, with a 100 percent increase in ridership and over \$200 million invested in new equipment and facilities. Fifty-six commuter coaches are on order for the Authority and will be delivered by the end of 1989; a vendor is also being selected to manufacture another seventy-five double-deck coaches for use on the Commuter Rail System.

DISAPPROVING ORDER REQUESTING MAYOR AMEND POLICE DEPARTMENT OPERATING BUDGET TO PROVIDE FOR INCREASE IN UNIFORMED PERSONNEL

The following was received:

City of Boston
Office of the Mayor

July 8, 1988.

To the City Council.
Dear Councilors,

I return herewith, without my signature and disapproved, the order passed by your Honorable Body on June 22, 1988. Since your Honorable Body has passed the fiscal year 1989 budget, the subject matter in the order is moot.

Operating in a fiscally prudent manner, the City of Boston maintains a strong and continued commitment to public safety. Since 1985, the city has fielded 456 new officers. Presently there are 85 recruits in training and in fiscal year 1989, 150 new recruits will be added.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Referred to the Committee on Public Safety.

DISAPPROVING ORDER THAT PROVISION OF SECTION 90G 1/2 OF GENERAL LAWS AS INSERTED BY CHAPTER 697 OF THE ACT OF 1987 BE ACCEPTED

The following was received:

City of Boston
Office of the Mayor

July 8, 1988.

To the City Council.

Dear Councilors,

I return herewith, without my signature and disapproved, the order passed by your Honorable Body, on June 22, 1988, which accepts the provisions of section 90G 1/2 of the G.L. as inserted by chapter 697 of the Acts of 1987.

Given the fact that pending before the City Council is an order accepting the provisions of the new Pension Reform Act, passage of this measure is unnecessary. Passage of the pending order will accomplish the same purpose and address the important matter of strengthening our city's pension system.

Your acceptance of Section 22D of chapter 32 of the G.L. will promote the future well-being of the city and its employees by improving our pension system.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

ORDER FOR CONFIRMATION OF APPOINTMENT OF CONSTABLES

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That the reappointment of the following-named persons as Constables of the City of Boston for the period commencing May 1, 1988, and ending April 30, 1989, be, and hereby are, confirmed.

ORDER FOR PETITION FOR SPECIAL LAW RELATIVE TO BOSTON PUBLIC LIBRARY

The following was received:

City of Boston
Office of the Mayor

July 11, 1988.

To the City Council.
Dear Councillors:

I transmit herewith for your approval a petition amending section 3 of chapter 114 of the Acts of 1878 concerning the organization of the Boston Public Library. The requested amendment will expand the number of trustees from five to nine and establish a board of overseers consisting of twenty-five members who shall assist both the trustees and the director in areas of development, outreach, marketing, and fund raising.

The Boston Public Library is one of Boston's greatest cultural and educational assets. Its research library has been an invaluable resource to students and scholars for over a century. Through the twenty-five branch libraries, it maintains a vital presence in each of the city's neighborhoods.

As Mayor of Boston, one of my major goals has been to rebuild and revitalize the services and resources of our Library to the status that it has enjoyed in the past. I have been committed to rebuilding and maintaining this most valuable of the city's cultural assets. Since 1984, with the support of the City Council, we have increased the Library's operating budget from \$12,000,000 in 1984 to \$19,500,000 in the current fiscal year, a 62.5 percent increase in the operating budget. This increase has enabled the Library to proceed with the following initiatives:

1. employ a children's librarian in every branch;
2. restore Saturday service in all branches;
3. open the Adult Literacy Center in the Dudley Square branch;
4. continue to increase acquisitions for book collections;
5. complete the addition to and book acquisition for the West Roxbury branch; and
6. complete the automated circulation system.

Over \$39,000,000 has been reserved in the capital budget for improvements in the physical condition of both the central facility in Copley Square and the branches in the neighborhoods. As part of the Capital Plan we are undertaking a major effort to restore the Central Library's research building — the McKim Building in Copley Square. At the same time, the city's commitment in this program will provide for the rehabilitation of the twenty-five neighborhood branch libraries.

By expanding the number of trustees and establishing the board of overseers, we will broaden the involvement of those concerned with the Library and increase representation of the city's diverse interests. In this way we can expand both the capacity and vitality of the Boston Public Library for its constituents.

The Library is planning to reinforce its services by establishing special endowments to develop community education and literary programs in our neighborhoods and to strengthen its special collections, as well as to raise funds to assist in the restoration of our efforts depends greatly upon the help we receive from the private sector.

The Boston Public Library has been built upon a public/private partnership that began in 1852 with Joshua Bates, whose substantial contributions of books and funds helped launch the Library on its path to excellence. It is clear that with the cooperation of dedicated individuals and private institutions and businesses, we can guarantee the resources and services of the Boston Public Library for future generations.

I urge your Honorable Body to pass this home rule petition as expeditiously as possible so that the important business of reorganizing the governance of the Library can be effectively executed to help this renowned institution meet the needs of our city well into the twenty-first century.

Sincerely,
Raymond L. Flynn,
Mayor of Boston.

ORDER FOR PETITION FOR SPECIAL LAW RE PENSION OF ERMES CAMETTI

The following was received:
City of Boston
Office of the Mayor

July 12, 1988.

To the City Council.
Dear Councillors:

I transmit herewith for your approval a Home Rule Petition authorizing the State-Boston Retirement System to grant former Boston Police Officer Ermes Cametti a pension equal to the annual rate of regular compensation which would have been payable to him by the City of Boston had he continued in service in the grade held by him at the time of his retirement.

On July 21, 1985, while in the performance of his duty as a patrolman in the Boston Police Department, Mr. Cametti sustained injuries which rendered him "totally and permanently incapacitated."

Since October 31, 1987, the date of his retirement, seeking a compensation option which included long-term provisions for his family, Mr. Cametti chose to receive his superannuation retirement allowance. Unlike disability compensation, this pension extends to his family upon his death. However, again unlike disability compensation, it does not provide for medical expenses, and it amounts to only a percentage of his regular compensation. Therefore, in recognition of the courage and dedication of law enforcement officials and their families, particularly that to the Cametti family, I urge your Honorable Body to pass this petition and to do so as expeditiously as possible.

Sincerely,
Raymond L. Flynn,
Mayor of Boston.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under clause (1) of section 8 of article 2, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. For the purpose of promoting the public good, notwithstanding any general or special law to the contrary, an annual pension shall be paid to the State-Boston Retirement System in monthly installments to Ernes Cametti, who is totally and permanently incapacitated as a result of injuries sustained by him in the course of and while in the performance of his duty as a patrolman in the Police Department of the City of Boston, on July 21, 1985. Said pension shall at all times be equal to the annual rate of regular compensation which would have been payable to him by said city had he continued in service in the grade held by him at the time of his retirement. Upon Ernes Cametti's death, his wife Norma, should she survive him, shall be paid in monthly installments an annual benefit equal to three-quarters of the amount of the annual pension that would have been payable to Ernes Cametti had he continued to live.

Section 2. On the effective date of this act, all amounts standing to the credit of Ernes Cametti in the annuity savings fund of the State-Boston Retirement System shall be paid to him.

Section 3. On the effective date of this act, the superannuation retirement allowance being paid to Ernes Cametti by the State-Boston Retirement System under the provisions of General Laws chapter 32, section 5, effective October 31, 1987, shall be terminated.

Section 4. On the effective date of this act, the amount of the difference between the superannuation retirement allowance paid to Ernes Cametti and the amount that would have been paid to him under the provisions of this act had it been effective October 31, 1987, shall be paid to him.

Section 5. Notwithstanding the eligibility provisions of section 100B of chapter 41 of the General Laws to the contrary, on the effective date of this act, said section shall apply to Ernes Cametti relative to his indemnification by the City of Boston for any reasonable hospital, medical and related expenses incurred by him on or after the effective date of this act as a result of the above-mentioned disability. Said Section 100B, notwithstanding any provisions therein to the contrary, shall also apply to said hospital, medical and related expenses incurred by Ernes Cametti from October 31, 1987, until

the effective date of this act, provided that bills for said expenses are presented for indemnification within six months of the effective date of this act.

Section 6. The pension awarded under this special act shall be construed for purposes of determining income tax liability, as if it were awarded under section 7 of chapter 32 of the General Laws.

Section 7. This act shall take effect upon passage.

On motion of Coun. MENINO, the rules were suspended; **the order was passed.**

ORDER FOR SALE OF APPROXIMATELY 16,214 SQUARE FEET OF BELOW-GRADE DISCON- TINUED PORTIONS OF MILK, PEARL, FRANKLIN, AND CONGRESS STREETS AND FURTHER RECOMMENDATION FOR SALE OF TWO SLIVER PARCELS OWNED IN FEE BY THE CITY TO POST OFFICE SQUARE REDE- VELOPMENT CORPORATION

The following was received:
City of Boston
Office of the Mayor

July 12, 1988.

To the City Council.

Dear Councillors:

I transmit for your consideration an order for the sale of approximately 16,214 square feet of below-grade discontinued portions of Milk Street, Pearl Street, Franklin Street, and Congress Street, surrounding Post Office Square, in the Boston Proper District of the City of Boston for the amount of \$100,000, and a further recommendation for the sale of two sliver parcels owned in fee by the City of Boston.

Post Office Square Redevelopment Corporation desires to purchase the discontinued area and sliver parcels in conjunction with their construction of a grade level park and below-grade parking garage in Post Office Square. The sliver parcels, previously discontinued by

the City of Boston, were intended by the City of Boston and the Post Office Square Redevelopment Corporation to have been acquired by the corporation as part of earlier eminent domain proceedings. These sales will enable the corporation to proceed with development of this valuable project in the Post Office Square area of the City of Boston.

I recommend the adoption of the accompanying order by your Honorable Body.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, Post Office Square Redevelopment Corporation (the "Redeveloper"), a Massachusetts corporation formed for the purpose of undertaking an urban renewal project under the provisions of Massachusetts General Laws chapters 121A and 156, has proposed to construct a project (the "Project") consisting of a below-grade parking garage and grade-level park on a parcel of land in Post Office Square, Boston, bounded by Congress Street, Franklin Street, Pearl Street, and Milk Street (the "Site"); and

Whereas, Pursuant to a settlement agreement entered into between the City of Boston and the redeveloper, dated January 29, 1987, the redeveloper instituted eminent domain proceedings under Massachusetts General Laws, chapter 80A and acquired all rights and interests of the city in the site by judgment of the Massachusetts Superior Court on February 14, 1987 (the "Taking"); and

Whereas, Under a petition dated as of May 18, 1988, the redeveloper petitioned the Public Improvement Commission to discontinue below-grade portions of Milk Street, Pearl Street, Franklin Street, and Congress Street, Boston Proper District, comprising approximately 16,214 square feet, all as shown on a certain plan marked "City of Boston, Public Works Department, Engineering Division Discontinuance Plan, Milk St., Pearl St., and Franklin St. (Boston Proper), Scale 1" = 20', Dated June 6, 1988, Gordon E. Barnes, Division Engineer," and as described in Exhibit A attached hereto (the "Discontinued Areas"); and

Whereas, A duly authorized public hearing was held on May 26, 1988, for the proposed discontinuance, all abutters having been notified by certified mail of said hearing; and

Whereas, The commission has determined that the below-grade property lying within the discontinued area owned in fee by the City of Boston comprising 16,214 square feet is no longer required for public purposes, all such square feet of which the redeveloper wishes to purchase, and further that said 16,214 square feet of discontinued area has a fair market value of \$100,000; and

Whereas, The City owns a fee simple interest in two small parcels of the property (the "Sliver Parcels") located within the site which the city and the redeveloper intended to have been acquired by the redeveloper pursuant to the taking and which are needed for the construction of the project; said sliver parcels being described in Exhibit B attached hereto; and

Whereas, The city desires to convey and the redeveloper desires to acquire all the city's rights and interests in the discontinued areas and the sliver parcels; now, therefore, be it

Ordered, That the Mayor of the City of Boston be, and he hereby is, authorized to execute and deliver to the redeveloper on behalf of the City of Boston, for consideration paid in the amount of \$100,000, a deed or other instrument in writing conveying all of the City of Boston's right, title and interest in and to the 16,214 square feet of below-grade discontinued area and to take any other action he deems necessary to convey said discontinued area to the redeveloper; and be it further

Ordered, That the Mayor of the City of Boston is hereby authorized to execute and deliver on behalf of the City of Boston a deed or other instrument in writing conveying all the City of Boston's right, title and interest in and to the sliver parcels to the redeveloper and to take any other action he deems necessary to convey the sliver parcels to the redeveloper; and be it further

Ordered, That the City of Boston hereby finds that full consideration for the conveyance of the sliver parcels to the redeveloper has been paid to the City of Boston pursuant to the taking and that no further compensation is required in connection with the conveyance of said sliver parcels; and be it further

Ordered, That provided the project is constructed substantially in accordance with the plans and specifications for the project approved by the Boston Redevelopment Authority from time to time, any encroachments by the project onto property owned by the City of Boston and located adjacent to the discontinued areas which are conveyed to the redeveloper herein, shall be allowed by the city as fully as if such encroachment area was included in the discontinued areas and conveyed hereby.

ORDER CLASSIFYING POSITION OF SPECIAL OUTSIDE COUNSEL AS THAT OF SPECIAL MUNICIPAL EMPLOYEE

The following was received:

City of Boston
Office of the Mayor

July 12, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order classifying the position of Special Outside Counsel as that of a special municipal employee.

The City of Boston, from time to time, must contract with lawyers who are not employees of the city to perform legal services for the city. Those lawyers are subject to the provisions of G.L. c. 268A, the so-called "ethics law," which applies to public officials and employees generally. This means essentially that, while under contract with the city, the outside attorneys can perform no legal services for any clients other than the city if such services in any way involve the city. For example, if the city contracts with a major law firm to provide advice and representation on a complex environmental issue, that firm could not represent another client who was seeking a variance before the city's Zoning Board of Appeals. This limitation can sometimes seriously affect the city's ability to hire the most competent counsel available, and several other municipalities have addressed the issue by making outside counsel special municipal employees.

This order addressed this problem, while continuing to maintain the highest level of vigilance against the potential for actual unethical conduct. It creates a new position, that of "Special Outside Counsel" where the Corporation Counsel has determined that outside counsel is absolutely necessary to protect the city's interests and where, further, the Corporation Counsel has determined that there is no genuine threat of any conflict with the city's interest. Strict reporting requirements would be imposed on attorneys who receive such a designation. Since attorneys are further governed by additional ethical rules which prohibit actual conflicts of interest, there is little danger that any such conflict of interest would actually occur.

By this order, the City Council would exercise its authority under G.L. c. 268A to classify the position of Special Outside Counsel as that of a special municipal employee thereby avoiding any technical violation of G.L. c. 268A.

I urge your Honorable Body to pass this order.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That the position of Special Outside Counsel be, and hereby is, classified as that of a special municipal employee pursuant to G.L. c. 268A, s. 1(n); provided that all such Special Outside Counsel shall be so designated in writing by the Corporation Counsel in their contract with the city and shall retain such designation during the time of his or her contract employment with the city subject to the discretion of the Corporation Counsel; and, provided further that all such Special Outside Counsel shall be required to disclose in writing to the Corporation Counsel at the time of employment, with such periodic updates as the Corporation Counsel may require, any other matters in which they or their firm represent a client in a matter pending before any city agency or in a matter in which the city is a party or is known to have a direct and substantial interest.

Referred to the Committee on Government Operations.

ORDINANCE CONCERNING BOSTON
RESIDENTIAL RECYCLING INITIATIVE

The following was received:

City of Boston
Office of the Mayor

July 26, 1988.

To the City Council.
Dear Councillors:

I transmit herewith for your approval an ordinance that
will allow the city to receive state recycling and compost-
ing grants in order to expand Boston's recycling initia-
tives. The Massachusetts Regional Recycling Program
promotes curbside recycling by providing grants for "set
out containers," collection vehicles, a Materials Recov-
ery Facility and public education materials. In enacting
this ordinance, the City of Boston takes responsibility for
collecting the recyclables and educating the public in order
to boost voluntary participation.

There is a solid waste disposal crisis in the Common-
wealth of Massachusetts which will cost cities and
towns, as well as businesses, unprecedented amounts of
money in the years and decades to come. Massachusetts
already has virtually the highest trash disposal costs in
the country; and, with very little new disposal capacity
winning approval, the prices will continue to skyrocket.

It is of no particular comfort to know that this crisis
would have been avoided if the state government had de-
veloped and implemented a coherent solid waste policy
over the past several years. It is of no particular comfort
to know that, if our South Bay incinerator and recycling
proposal had won state support, Boston would have re-
duced its trash disposal costs by over 20 percent at con-
tract time next year.

Now we must deal with the reality of major cost in-
creases on July 1, 1989, and beyond. Now we must do
everything we can to minimize the damage to our city
budget. We can draw only slight comfort from knowing
that we are not alone. Virtually every city, town and
business in the state will soon face this same grim situa-
tion. Recycling cannot stand alone as a response to the
solid waste crisis. However, every ton of trash we suc-
cessfully move into recycling is a ton of trash which will
not have to be burned or buried at an exorbitant disposal
cost.

By passing this ordinance, we commit to the difficult
but necessary work of organizing a viable recycling sys-
tem in Boston. The special character of Boston's neigh-
borhoods poses many challenges for the Boston recy-

cling program. This ordinance provides flexibility to the
Commissioner of Public Works to implement alternative
recycling programs in different neighborhoods begin-
ning with several pilot projects. I urge your Honorable
Body to pass this ordinance, as expeditiously as possible
so the City of Boston can move forward with the only in-
town disposal solution currently available to Boston.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

City of Boston

In the Year Nineteen Hundred and Eighty-Eight.

An Ordinance Concerning the Boston Residential Recy-
cling Initiative.

Be it ordained by the City Council of Boston, as follows:

Whereas, Recycling the maximum volume of residen-
tial solid waste is an integral component of the City of
Boston's solid waste management strategy; and

Whereas, The reduction, reuse and recycling of solid
waste is a cost-effective and environmentally sound ap-
proach to solid waste disposal; and

Whereas, Section 5 of chapter 584 of the Acts of 1987
requires communities to pass recycling ordinances in or-
der to participate in the Massachusetts Regional Recy-
cling Program; and

Whereas, The Massachusetts Regional Recycling Pro-
gram requires source separation and municipal collec-
tion of recyclables, processing of the recyclables at a
state-owned Materials Recovery Facility, and the mar-
keting of recyclables by a private operator; and

Whereas, The Massachusetts Regional Recycling Pro-

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order approving the compensating balance agreement by and between the City of Boston and Boston Bank of Commerce for the provision of banking services.

Under chapter 740 of the Acts of 1985, G. L. c. 44 s. 53F, the city is authorized to enter into formal "compensating balance" agreements with banking institutions for the provision of banking services. Your approval of these agreements is required under the statute.

the city will keep a specified minimum balance with the contracting bank as compensation for various specified services rendered.

I urge your Honorable Body to pass this order as expeditiously as possible so that the city can realize the greatest possible savings and minimize any interruption of banking services to the city.

Dear Councillors:

I transmit herewith for your approval an order approving the compensating balance agreement by and between the City of Boston and U. S. Trust Company for the provision of banking services.

Under chapter 740 of the Acts of 1985, G. L. c. 44 s. 53F, the city is authorized to enter into formal "compensating balance" agreements with banking institutions for the provision of banking services. Your approval of these agreements is required under the statute.

I urge your Honorable Body to pass this order as expeditiously as possible so that the city can realize the greatest possible savings and minimize any interruption of banking services to the city.

Raymond L. Flynn,
Mayor of Boston.

The backdrop for the awards ceremony is the opening of the "Designing Boston/Creating Opportunities" show of architectural renderings of downtown towers at the Alchemie Gallery.

The event, sponsored by Mayor Flynn's Office of Jobs and Community Services, will be attended by more than 150 representatives of community organizations, members of the development and business communities, and elected officials.

A consortium of several established Chinatown groups serving the city's Asian population and a Jamaica Plain-based organization that assists Boston's Hispanic adults will receive the largest awards.

The Chinatown Services Consortium received \$232,000 to provide 160 individuals with English as a Second Language classes, prevocational training, and business education instruction.

Oficina Hispana's Hispanic Technical Development Program has been awarded \$160,000 to provide building maintenance skills and supervisory training and work experience to fifty unemployed and underemployed Hispanic adults.

Eight other programs throughout the city's neighborhoods encompassing a wide variety of job training and related services received funds from the Trust.

The Neighborhood Jobs Trust was created in 1987, in an effort to give city residents a direct benefit from large-scale development in the form of jobs, job training, and related services.

Funding for the Jobs Trust comes from linkage funds paid by developers of projects over 100,000 square feet. Under the Zoning Code of the City of Boston, developers of these projects must pay a linkage fee based on square footage to the Neighborhood Jobs Trust. The linkage fee is \$1 per square foot for every foot in excess of 100,000 square feet.

The Jobs Trust is managed by three appointees: City Councillor Thomas Menino, Midtown Cultural District Director Kristen J. McCormack, and the city's Collector-Treasurer Lee Jackson.

The Trust was created to provide services such as job training and retraining, job placement services, adult literacy, and alternative education programs and related support services.

All residents served by Trust-funded programs must be in the low- or moderate-income categories.

"We are proud to present these Neighborhood Jobs Trust funding awards, which represent concrete and innovative opportunities for Boston residents. These awards represent a direct path to opportunity for Boston residents to follow," said Mayor Raymond L. Flynn.

ORDER AUTHORIZING PUBLIC FACILITIES DEPARTMENT FOR, ACCEPT, AND EXPEND PWED GRANT NOT TO EXCEED \$394,353 FROM MASSACHUSETTS EXECUTIVE OFFICE OF TRANSPORTATION AND CONSTRUCTION

The following was received:

City of Boston
Office of the Mayor

August 2, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order authorizing the Public Facilities Department of Boston to apply for, accept and expend a Public Works Economic Development (PWED) grant not to exceed \$394,353 from the Massachusetts Executive Office of Transportation and Construction.

On August 27, 1987, the Public Facilities Department of Boston tentatively designated Lorne Development Associates (LDA) as the developer of a number of city-owned vacant parcels in the Franklin Field area of Dorchester. LDA plans to construct a sixty-unit, limited-equity housing cooperative. The project has received enthusiastic support from community residents and representatives. The goal of the project is to redevelop long-abandoned parcels of land into affordable housing.

Lorne Development Associates is a joint partnership of Lena Park Community Development Corporation and Faith Pentecostal Church. Each of these entities owns parcels of land in the project area which they have pledged to combine with the city-owned parcels. The city-owned parcels are:

11, 15, 19, 22-24, 26-28, 30, 31, 34, 35, 37, 41, 43, 44, 46, 48, 47, 51, 56, 57 and 59 Lorne Street Parcels 4272, 4273, 4274, 4290, 4291, 4292, 4293, 4277, 4278, 4279, 4280, 4281, 4285, 4287, 4288, 4311.

The site upon which Lorne Development Associates wishes to build consists of vacant land which needs capital improvements for the construction of housing. These capital improvements include water/sewer lines, new roadbed and sidewalks, street lighting and landscaping.

The construction and sale of sixty new units of ownership housing on this long vacant site will serve as an important stimulus to the economic revitalization of this neighborhood. The PWED will allow the city to achieve several important goals:

1. It will allow the highest and best use for a vacant, blighted site in the Franklin Hill neighborhood.

2. It will provide sixty units of cooperative housing of which thirty-nine units will be affordable to low- and moderate-income residents.

3. It will promote residential stability and ownership opportunities in an area where a small percentage of residents own their own homes and many families reside in publicly assisted rental housing.

4. It will provide five construction-related and sixty construction jobs, at least half of which will be for city residents, 25 percent for minorities and 10 percent for women.

5. It will serve to reinforce the commercial revitalization which is clearly evident along Blue Hill Avenue.

I urge your Honorable Body to pass this order which will make possible the construction of the sixty-unit Lorne Street housing development.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, The City of Boston is presently in the midst of a severe shortage of affordable housing which has a particularly onerous impact upon homeownership opportunities for low- and moderate-income residents; and

Whereas, The Franklin Field area of Dorchester is one of the city's neighborhoods with this housing shortage; and

Whereas, To meet the demand for affordable housing, the city has established the construction of new, owner-occupied housing as a major goal; and

Whereas, The city has targeted the Franklin Field neighborhood for the construction of new housing due to the presence of a large number of vacant parcels, with the expectation that this will stimulate the residential and commercial revitalization of the area; and

Whereas, The city has designated Lorne Development Associates as the developer of a number of city-owned vacant parcels, which parcels are as follows: 4272, 4273, 4274, 4290, 4291, 4292, 4293, 4277, 4278, 4279, 4280, 4288, 4288, 4287, 4285, 4283, 4311; and

Whereas, The Lorne Street development project requires Public Works Economic Development (PWED) funding to make the construction possible; and

Whereas, Lorne Development Associates, a joint partnership of Lena Park Community Development Corporation and Faith Pentecostal Church, has the capacity and the neighborhood support to carry out this project, having been tentatively designated by the Public Facilities Department on August 27, 1987; now, therefore, be it

Ordered, That the Mayor, acting on behalf of the City of Boston, be, and hereby is, authorized to apply for, accept and also in accordance with section 53A of chapter 44 of the General Laws to expend a Public Works Economic Development (PWED) grant not to exceed \$394,353 from the Massachusetts Executive Office of Transportation and Construction to make feasible the construction of a sixty-unit, limited-equity cooperative housing development by Lorne Development Associates, and in connection therewith to execute and deliver such documents as may be required; and to act as the authorized representative of the City of Boston in connection with said application.

COMMUNICATIONS FROM COMMONWEALTH OF MASSACHUSETTS, DIVISION OF CAPITAL PLANNING AND OPERATIONS, OFFICE OF GENERAL COUNSEL, TRANSMITTING TO CITY COUNCIL NOTICE OF AVAILABILITY OF MASSACHUSETTS COLLEGE OF ART

The Commonwealth of Massachusetts
Executive Office for Administration and Finance
Division of Capital Planning and Operations
Office of the General Counsel

July 29, 1988.

Mr. Christopher Iannella; Chair, Suffolk County Commissioners, City Hall, 1 City Hall Plaza, Boston, MA 02201.

and

Mr. Christopher Iannella,
Council President, City Hall, 1 City Hall Plaza,

Boston, MA 02201.

Dear President Iannella:

Pursuant to the provisions of the Massachusetts General Laws, chapter 7, the Division of Capital Planning and Operations hereby gives notice of the availability of state-owned real property. At your earliest convenience, I ask that you review the property described on the enclosed pages.

If you believe the property may be suitable for a direct public use, please prepare a brief proposal which includes 1) a detailed description of the proposed use; 2) the expected costs and benefits; and 3) capital and operating funds. Direct public uses of property would include, for example, a school, park, or fire station. Acquisition of property by a municipality or its redevelopment authority for resale to a private entity does not constitute a direct public use.

If you so request, a public hearing will be convened to assist the division in determining whether any other public agency has a current or foreseeable direct public use for the property.

ture of a grant from the Commonwealth of Massachusetts, Secretary of the Executive Office of Environmental Affairs, Massachusetts Coastal Zone Management Office, under chapter 589 of the Acts of 1983, for funding of a comprehensive plan for Boston Harbor by the City of Boston acting with the Boston Redevelopment Authority.

Since the application deadline for Coastal Facilities Improvement Program Grants is August 12, 1988, it is imperative that the council pass the order immediately so that the application for the grant to fund the comprehensive plan for the harbor does not miss the application deadline.

I urge your Honorable Body to pass this order in order that the application for Coastal Facilities Improvement Program Grant may be submitted to the Massachusetts Coastal Zone Management Office by the August 12, 1988 application deadline.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

DISAPPROVING ORDER DIRECTING THAT FUNDS PAID CITY UNDER PROVISIONS OF SECTION 21D OF CHAPTER 40 OF GENERAL LAWS, AS AMENDED, BE HELD IN SEPARATE FUND

The following was received:

City of Boston
Office of the Mayor

August 12, 1988.

To the City Council.

Dear Councillors:

I return herewith, without my signature and disapproved, the order passed by your Honorable Body on July 27, 1988, which would direct that funds paid to the city under provisions of section 21D of chapter 40 of the General Laws, as amended by chapter 609 of the Acts of 1987, be held in a separate fund.

I disapprove the order because it violates section 53 of chapter 44 of the General Laws, which states that "all moneys received by any city, town or district officer or department, except as otherwise provided by special acts and except fees provided for by statute, shall be paid by such officers or department upon their receipt into the city, town or district treasury." Also, while the intent of Councillor Iannella's and Councillor Hennigan Casey's order is laudable, numerous programs are already in place, which address a broad range of similar environmental issues.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

AMENDING ORDER PREVIOUSLY PASSED AUTHORIZING FINANCING OF CERTAIN DEPARTMENTAL EQUIPMENT THROUGH MASTER INSTALLMENT SALE PROGRAM TO ADD FIRE AND POLICE BOATS

The following was received:

City of Boston
Office of the Mayor

August 15, 1988.

To the City Council.

Dear Councillors:

I enclose herewith for your approval an order which amends an order previously passed by the City Council authorizing the financing of certain departmental equipment through a master installment sale program. This amendment would add fire and police boats to the list of equipment which is financeable under this program.

I urge your Honorable Body to pass this order as expeditiously as possible so that the city can finance these vital pieces of equipment.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That the order of the City Council passed on December 30, 1987, and approved by the Mayor on January 21, 1988, which (i) authorized the City of Boston to acquire certain departmental equipment by entering into certain installment sale agreements; and (ii) authorized the Collector-Treasurer to execute certain agreements to secure the city's obligations under said installment sale agreements be and hereby is amended by inserting the words: "fire and police boats"; after the words "school and educational equipment."

Referred to the Committee on Government Finance.

SUPPLEMENTAL APPROPRIATION OF \$1,545,000 FOR SCHOOL DEPARTMENT FOR GENERAL SCHOOL PURPOSES

The following was received:

City of Boston
Office of the Mayor

August 16, 1988.

To the City Council.

Dear Councillors:

I am today filing a supplemental budget request for the School Department for FY89.

The purpose of this supplemental budget is threefold: (a) to make improvements in special education and attempt to end a long-standing lawsuit over alleged special education inequities; (b) to rectify the confusion over the transportation of high school students; and (c) to provide additional dollars to make up for the funding shortfall in the important Alternative Education Initiative effort. If this supplemental budget of \$1,545,000 is approved, the total, city-funded spending authority for the School Department will be \$342,595,000 for FY89, a 9.9 percent increase over the FY88 appropriation and will support a School Department FY89 budget of \$351,545,000.

There are about 13,000 Special Needs (c. 766) children in the Boston Public Schools. Of unique importance to those children and their parents is the quality and scope of services of the Special Needs education program, which has been the subject of a lawsuit stretching back over twelve years. Within the supplemental budget is an amount of \$995,000, which funds certain aspects of the Special Education program, as required under the terms of a Special Education Remediation Plan filed pursuant to the recent court Disengagement Order. If the School Department complies with the terms of the Remediation Plan noticeable improvements in special education should occur.

In the terms of the additional transportation funding, a recommended increase of \$250,000 represents an amount which will hold the School Department harmless as a consequence of incurring costs associated with providing school bus transportation for high school students. In late spring, the School Department proposed a plan in which 3,500 high school students would have taken the MBTA instead of school buses. The plan was a direct result of an assumed savings of \$500,000 contained in the current operating budget of the School Department. Unfortunately, no such savings will or could occur. To date, and after repeated requests, neither the city budget office or city Transportation Department has been shown any analysis which supports such a planned savings. The MBTA also did an analysis of the proposed and demonstrated that the budget savings proposal of the School Department would actually end up costing the City of Boston \$149,300 and the Commonwealth another \$784,000. In sum, the proposal would substantially increase public expenditures without providing any additional services. It is also important to note that officials of the city's Transportation Department have met with officials of the School Department on this matter and are committed to reviewing future transportation proposals that would genuinely reduce costs while also increasing the use of available MBTA services.

Finally, the supplemental budget request deals with a funding commitment of \$300,000 for the innovative and effective Alternative Education Initiative. This critical program addresses the very serious issue of school drop-outs, which has proven to be very effective over the past two years. The current operating budget of the School Department does not achieve complete and full funding of existing programmatic levels of the Alternative Education Initiative. The additional funding will allow us to support a programmatic level more comparable to current year programming efforts.

Funding for this supplemental budget is achieved by modest upward adjustments in FY89 revenue projections for property tax receipts, c. 121A disbursements, and interest earnings. I respectfully request your approval of this supplemental budget and the funding of these important education initiatives.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That in addition to the appropriations heretofore made, to meet current operating expenses of the School Department in the fiscal period commencing July 1, 1988, and ending June 30, 1989, the sum of \$1,545,000 be, and the same hereby is appropriated, said sum to be raised by taxation pursuant to section 23 of chapter 59 of the General Laws:

School Department, General School Purposes, \$1,545,000.

Referred to the Committee on Public Education.

Report on Docket No. 0556, ordinance amending CBC, Ordinance 5, s. 450 (referred April 27) — recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and Eighty-eight,
An Ordinance Requiring Harmony Clauses in Construction Contracts.

Be it ordained by the City Council of Boston, as follows:

Whereas, Massachusetts General Laws, chapter 30, section 39M(c) requires that "the lowest responsible and eligible bidder" on any public work project shall also "certify that he is able to furnish labor that can work in harmony with all other elements of labor employed or to

be employed . . ." on new construction, rehabilitation, renovation or remodeling work; and

Whereas, It is in the public interest for the City of Boston to minimize delays and disruption caused by the inability of certain contractors and subcontractors to furnish labor in compliance with state law; and

Whereas, Residents of the City of Boston suffer when disruptions occur at worksites covered by contracts entered into by the City of Boston with contractors and subcontractors who are unable to meet the requirements of G.L. c. 30, s. 39M(c), inasmuch as there are delays which are costly in terms of lost worker hours and cost overruns; and

Whereas, The Massachusetts Supreme Judicial Court in *Modern Continental Construction Co., Inc. v. Massachusetts Port Authority*, 343 Mass. 362 (1976) upheld the language and legislative intent of G.L. c. 30, s. 39M(c); now, therefore, be it ordained by the City Council of Boston, as follows:

Section 1. City of Boston Code, Ordinances, Title 4, is hereby amended by adding thereto the following new sections:

Section 100. It is the policy of the City of Boston to insure that all city departments, authorities, commissions and agencies serving as awarding authorities for contracts for new construction, rehabilitation, renovation or remodeling work require the contractor and/or subcontractor to certify in writing that he or she shall furnish labor who can and will work in harmony with all other labor employed in any work or at the worksite which is the subject of the written contract. No city department, authority, commission, agency or awarding authority shall enter into any contract for new construction, rehabilitation, renovation or remodeling work until and unless the contractor and/or subcontractor certifies in writing that he or she shall furnish labor who can and will work in harmony with all other labor employed in any work or at the worksite which is the subject of the written contract.

Section 101. The requirements contained herein shall continue in effect unless specifically repealed, notwithstanding any repeal of G.L. c. 30, s. 39M(c).

Section 2. This ordinance shall take effect upon passage.

U. S. INTERNATIONAL TRADE COMMISSION HEARING

The following address was expressed for Mayor Flynn by Marilyn Swartz Lloyd, at Boston, March 15, 1989.

Good morning, Commission members. Thank you for giving me this opportunity to address you on international trade policy and to express the views of the Flynn Administration on this vitally important subject. My name is Marilyn Swartz Lloyd, and I am the Director of the Economic Development and Industrial Corporation of Boston — we call it EDIC.

I represent an agency of government, chartered by the Commonwealth of Massachusetts, whose mandate is to work with the City of Boston to expand the manufacturing base and the economic life of this City by retaining and attracting manufacturing companies that can offer well-paying jobs to Boston neighborhood residents, minorities, and women. One of our leading industries continues to be the apparel industry, with a total of eighty-eight firms and over 4,000 jobs. This industry has been a traditional source of employment for new arrivals to Boston as a productive source of employment that enables people fitting into our mainstream to support themselves and their families. At the present time the EDIC works with this industry by helping companies to find affordable space. We originally began renovation of the Boston Army Base — now an EDIC-sponsored industrial center — in order to provide a home for the garment companies that were being pushed out of their quarters in the Chinatown neighborhood by gentrification and office and commercial development. For the past several years we have continually provided real estate site assistance to garment companies that needed it, and we are now working with the International Ladies Garment Workers Union and a group of garment manufacturers for the same purpose, so that they will be able to negotiate affordable leases that take advantage of the economies of scale that are often available to companies willing to band together to lease a large block of space all at once.

I mention this example, because I think it is important that the International Trade Commission understand that at the local level while we support and encourage free trade in Boston, we also are working to expand our manufacturing base and to protect vital and productive industries, industries that provide jobs for people often entering our economy.

In this respect we are proud to work with the apparel industry and the International Ladies Garment Workers Union in the spirit of government involvement with labor and management to encourage the maintenance of this important enterprise.

But in addition to these important domestic considerations, there is a larger question of fair play that must be understood this morning. We

must have a level playing field for our apparel and other domestic industries so that American producers are not shut out of the marketplace simply because they provide humane working conditions and pay their employees a decent living wage.

Furthermore, it is to be understood in the context of the upcoming talks that many of the countries seeking access to the U. S. market do not follow our standards of fair treatment of their employees, especially in the textile and garment trades. They are subject to appallingly low wages, to dangerous working conditions, and have no retirement or health benefits. We would question encouraging such conditions at this stage in the twentieth century under a well-intentioned statement of free market activity, while these industries and

their workers here at home are undetermined.

Our own manufacturers cannot be expected to compete against foreign producers whose low overhead derives from working conditions that by any norm of western industrial policy must be considered unacceptable.

There are several levels at which this problem can be addressed.

We have done everything that can be done at the local level to reduce these companies' cost of production, so that their products can be as competitive in the marketplace as possible — consistent with humane working conditions for their employees.

But there are limits to what we, as a city agency, can accomplish. We have neither the legal authority nor the leverage to influence international commerce or foreign policy; that is where the federal government must exercise its own authority.

Provisions denying duty-free import status to countries that do not protect workers' rights have been part of the Generalized System of Preferences and the Overseas Private Investment Corporation for several years. Omnibus trade legislation, passed last year, made protection of labor rights a U. S. goal for General Agreement on Tariffs and Trade (GATT) negotiations. I would urge our trade negotiators to take these measures promoting fair international competition — and the growth of world demand through rising wages — very seriously.

Many of the countries whose exports displace our workers in apparel or garment production fail to recognize the fundamental rights of working people to organize unions in their own behalf or to express their views in the political process. We do not believe that our markets should be so open to such products so that we

(Continued on next page)

Trade Commission Hearing . . .

(Continued from previous page)

undercut our own standards of decency, safety, and health.

Fair and free trade, in our view, means trade with countries who treat their workers fairly. We are willing to compete with those who recognize the rights of labor; but we do not think that Boston employers should be forced to compete with those who repress democratic rights. We don't think that fairness or free trade needs to force Boston employers to drive their workers into the situation of workers in countries such as Haiti, who fear for their lives or freedom if they try to organize unions or speak their minds in politics.

Thank you.

INDUSTRIAL DEVELOPMENT IN THE CITY DEBATED

Light industry, heavy industry, or no industry in our back yards was the issue on March 30 when Boston residents gathered at the Boston Public Library for a public symposium — "Does Boston Lose When Industry Leaves?"

Sponsored by the Boston Society of Architects (BSA), this symposium, according to BSA organizer Manjeet Tangri AIA, "is an attempt to dissect in public one of our region's most significant economic issues — the future of manufacturing and manufacturing jobs in Boston." Speakers and panelists included Barry Bluestone, co-author of *The Great U-Turn*; developer Ed Logue; Houghton Chemical's Proctor Houghton; EDIC's Marilyn Swartz Lloyd; *The Boston Globe's* John King; and Allston/Brighton civic leader Ray Mellone.

Discussion was focused on the role of manufacturing jobs in the city economy, opportunities and problems of manufacturing in the city's neighborhoods and waterfront, newly enacted Boston "Light Manufacturing Zone" ordinance in retention/creation of city jobs, the "new industries" of biological and high technologies, the dialogue between industries and neighborhoods and the public sector, business/industry and neighborhood partnership in the city's economic growth.

The symposium was free to the public and was held in the Boston Public Library's Rabb Lecture Hall.

HEAD START CENTER DEDICATED

The newly renovated Action for Boston Community Development (ABCD) Headstart Center was named "Allan Rohan Crite Headstart Center," after Allan Rohan Crite, a well-known, African-American artist. Crite a local South End painter, printmaker, artist historian, and educator, has exhibited his artwork nationwide in such museums as the Smithsonian Institute in Washington, D.C., the Museum of Fine Arts in Boston, and the Museum of Modern Art, in New York.

Since 1965, Headstart has ensured that low-income children between the ages of three and five received educational, health, and social services. The family has always been a direct participant in Head Start, and all Head Start programs emphasize parent involvement.

State Representatives Byron Rushing and Salvatore DiMasi attended along with ABCD's Executive Director Robert M. Coard, and Deputy Director John Drew.

DISAPPROVING ORDINANCE FURTHER
AMENDING THE ENVIRONMENTAL ORDINANCES

The following was received:

City of Boston
Office of the Mayor

August 19, 1988.

To the City Council.

Dear Councillors:

I return here, without my signature and disapproved, an ordinance passed by your Honorable body on August 3, 1988, further amending the environmental ordinances.

My reason for disapproval is that the ordinance states penalties of \$300 for violations of certain ordinances. Section 35 of chapter 448 of the Acts of 1854, as amended most recently by chapter 78 of the Acts of 1976, states that the City of Boston can annex penalties not exceeding \$200 for the breach of an ordinance. This is less than the amount stated in G. L. c. 40, s. 21, which allows cities and towns to affix penalties not exceeding \$300 for breach of an ordinance. The city is governed in this instance by the special act stating the \$200 limitation.

I support the substance of the ordinance. I, therefore, am filing a new ordinance changing the penalty amount, where appropriate, from \$300 to \$200. Recognizing the inconsistency whereby other cities and towns can affix penalties not exceeding \$300 for the breach of an ordinance, I am also filing a home rule petition amending section 35 of chapter 448 of the Acts of 1854, to increase such penalty in the City of Boston to an amount not to exceed \$300.

Respectfully submitted,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the ordinance referred to.)

Assigned for further action.

DISAPPROVING ORDER RE CPR TRAINING

The following was received:

City of Boston
Office of the Mayor

August 19, 1988.

To the City Council.

Dear City Councillors:

I return herewith, without my signature and disapproved, the order passed by your Honorable Body on August 3, 1988.

My reasons for disapproval are St. 1948, c. 452, s. 17G as appearing in St. 1951, c. 376, s. 1, "... neither the City Council, nor any member, ... shall directly or indirectly on behalf of the city ... take part ... in the conduct of the executive or administrative business of the city or county ..."

Training programs in cardio-pulmonary resuscitation and basic first aid are available for all City Hall security officers. Similar programs are available to security officers in many other city buildings. Because I agree with the need to ensure that cardio-pulmonary resuscitation and basic first aid be available to all city employees whose position warrants the need, I am instructing the Director of Administrative Services that a cardio-pulmonary resuscitation and basic first aid program be made available through the Office of Personnel Management.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER THAT ANY MOTION,
ORDER (OTHER THAN 17F ORDER) OR RESOLUTION
PASSED BY COUNCIL CALLING FOR ACTION OR COMMENT BY MAYOR OR ANY
DEPARTMENT HEAD SHALL BE ANSWERED
BY WRITTEN COMMUNICATION

The following was received:

City of Boston
Office of the Mayor

August 19, 1988.

To the City Council.

Dear Councillors:

I return herewith, without my signature and disapproved, the order passed by your Honorable Body on August 3, 1988.

My reasons for disapproval are that St. 1948, c. 452, s. 17F, as appearing in St. 1951, c. 376, s. 1, as well as other sections of the Charter, specifically state what the Mayor is required to do in response to certain City Council actions. The Mayor and the City Council are bound by the Charter provisions.

Within the bounds of the Charter, this administration has always maintained its strong commitment to an open government process. This is a commitment which will continue into the future.

Sincerely,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER RE FANS AND AIR
CONDITIONING FOR ELDERLY AND HANDI-
CAPPED RESIDENTS

The following was received:

City of Boston
Office of the Mayor

September 6, 1988.

To the City Council.

Dear City Councillors:

I return herewith, without my signature and disapproved, the order passed by your Honorable Body on August 17, 1988, concerning fans and air conditioning for elderly and handicapped residents of the City of Boston.

My reason for disapproval is that it is beyond the scope of the city's authority. This is because the order would

require the city to take certain action with regard to Boston Housing Authority (BHA) property. The BHA is a public body politic and corporate created pursuant to G. L. c. 121B. As such, it owns and operates certain properties. The City of Boston has no authority to interfere with those properties. Nor is there authority for the city in mandating such measures generally as to other non-city-owned property, which the order appears to require.

In addition, the order raises complex and serious potential liability questions. The order appears to obligate the city to provide, maintain, and replace fans and air conditioners for an indefinite time into the future, with potential liability to the city should it fail to meet those obligations.

The spirit of the order is well-intentioned. In fact, I have urged the federal government to install this equipment in all new elderly housing developments. But for now, the City of Boston through the Commission on Affairs of the Elderly has this past summer instituted a heat relief program. As part of this program, heat relief centers were set up for the elderly in schools, 359 fans were distributed to the elderly, and shuttle services were provided on request to the heat relief centers. To ensure that our elderly citizens would be aware of this heat relief program, approximately 6,000 notices of the heat relief program were delivered to libraries, senior centers, BHA developments, and private housing developments. In addition to the heat relief program, the Commission on Affairs of the Elderly has worked closely in conjunction with the Mayor's Office of Neighborhood Services 24-Hour Service in order to provide the quickest response to heat-related inquiries.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

ORDINANCE FURTHER AMENDING THE ENVIRONMENTAL ORDINANCES

The following was received:

City of Boston
Office of the Mayor

September 13, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an ordinance further amending the environmental ordinances. This ordinance clarifies the ordinance passed by your Honorable Body on August 3, 1988. Also, the maximum penalties contained therein are \$200 instead of \$300.

I urge your Honorable Body to pass this ordinance.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

ORDER FOR PETITION FOR SPECIAL LAW TO AMEND SECTION 35 OF CHAPTER 448 OF ACTS OF 1854

The following was received:

City of Boston
Office of the Mayor
September 13, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval a home rule petition amending section 35 of chapter 448 of the Acts of 1954. That act, as last amended in 1976, provides that the City of Boston, may affix penalties not exceeding \$200 for breaches of ordinances. This amendment will raise the amount to \$300.

The reason for the amendment is that since 1981, cities and towns in the Commonwealth have been able to affix penalties not exceeding \$300 for breaches of ordinances. My proposed amendment would bring the City of Boston up to the same level as those other cities and towns.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Ordered, That a petition to the General Court, accompanied by a bill for a special law relating to the City of Boston to be filed with an attested copy of this order be, and hereby is, approved under Clause (1) of section 8 of Article 2, as amended, of the Amendments to the Constitution of the Commonwealth of Massachusetts, to the end that legislation be adopted providing precisely as follows, except for clerical or editorial changes of form only:

Section 1. Section 35 of chapter 448 of the Acts of 1854, as most recently amended by chapter 78 of the Acts of 1976, is hereby further amended by striking out in line 13, the word "two" and inserting in place thereof the word: three.

Section 2. This act shall be effective upon its passage.

Referred to the Committee on Government Operations.

ORDER AMENDING ORDER RE POST OFFICE SQUARE PASSED BY COUNCIL JULY 27, 1988 AND APPROVED BY MAYOR JULY 12, 1988 TO CORRECT CERTAIN TECHNICAL ERRORS IN LAND DESCRIPTION

The following was received:

City of Boston
Office of the Mayor
September 13, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order amending the order regarding Post Office Square passed by the City Council on July 13, 1988, and after a second reading on July 27, 1988. I approved the order on August 12, 1988.

The purpose of this amendment is to correct certain technical errors in the description of the land conveyed by the order which you passed, which description was contained in Exhibits A and B, attached to the original order. The new Exhibits A and B, attached hereto, correct the errors. I also enclose herewith a black-lined copy of corrected Exhibits A and B so that you can more easily see the changes that were made.

I urge your Honorable Body to pass this order as soon as possible so that the garage and park project as described in the original order can proceed as scheduled.

Raymond L. Flynn,
Mayor of Boston.

Whereas, Said order also authorized the Mayor to execute and deliver to the Redeveloper a deed or other instrument in writing conveying two other small parcels (the "Sliver Parcels") as described in an attachment labeled Exhibit B, which parcels are needed for the construction of the Project; and

Whereas, The Mayor approved said order on August 12, 1988; and

Whereas, Exhibits A and B, as corrected, are attached hereto; now, therefore, be it

Ordered, That the order passed by the City Council on July 13, 1988, and July 27, 1988, and approved by the Mayor on August 12, 1988, is hereby amended by deleting Exhibits A and B, attached thereto, and substituting in place thereof Exhibits A and B, as corrected, attached hereto.

ORDER AUTHORIZING PUBLIC FACILITIES DEPARTMENT TO APPLY FOR, ACCEPT, AND EXPEND CDAG NOT TO EXCEED \$316,595 FROM EXECUTIVE OFFICE OF COMMUNITY AND DEVELOPMENT RE CONSTRUCTION OF TWENTY-NINE-UNIT RESIDENTIAL CONDOMINIUM HOUSING DEVELOPMENT

The following was received:

City of Boston
Office of the Mayor

September 12, 1988.

To the Council.

Dear Councillors:

I transmit herewith for your approval an order authorizing the Public Facilities Department of Boston to apply for, accept and expend a Community Development Action Grant (CDAG) not to exceed \$316,595.00 from the Executive Office of Community and Development.

On December 17, 1987, the Public Facilities Department of Boston tentatively designated the Dacia Group Housing Limited Partnership as the developer of a number of city-owned vacant parcels in the Dacia Block area of Dorchester. The Dacia Group Housing Limited Partnership plans to construct twenty-nine residential condominium units. The project has received enthusiastic support from community residents and representatives. The goal of the project is to redevelop long-abandoned parcels of land into affordable housing.

The Dacia Group Housing Limited Partnership is a joint venture partnership between Frontier Enterprises and minority-owned Future Development Group. The Dacia Block consists of almost an entire city block bounded by Dacia Street, Dewey Street, Woodcliff Street, Howard Avenue and Glenbrook Street containing approximately 72,000 square feet of city-owned land. The city-owned parcels are:

32, 34, 36, 42, 52, 46 Woodcliff St., Parcels 663-2, 663-1, 663, 648, 646, 647.

117 Howard Avenue, Parcel 641.

65, 67, 69, 71 Dacia Street, Parcels 665, 666, 667, 668.

29, 31, 33, 35, 37, 39, Lot 19, 47 Dewey St., formerly 45 Dewey St., Parcels 652, 653, 654, 655, 656, 657, 658, 659-1, 659.

2, 3, Lot A, Lot 40 Glenbrook St., Parcels 651, 669, 650, 649.

The site upon which Dacia Group Housing Limited Partnership wishes to build consists of vacant land which needs capital improvements for the construction of housing. These capital improvements include water/sewer lines, new road, the relocation of a 114-year-old sewer line, sidewalks, street lighting and landscaping.

The construction and sale of twenty-nine units of ownership housing on this long vacant site will serve as an important stimulus to the economic revitalization of this neighborhood. The CDAG will allow the city to achieve several important goals:

1) It will allow the highest and best use for a vacant, blighted site in the Dacia Block area.

2) It will provide twenty-nine units of 100 percent affordable residential housing to low and moderate income residents.

3) It will promote residential stability and ownership opportunities in an area where a small percentage of residents own their own homes.

4) It will provide sixty-four construction jobs, at least half of which will be for city residents, 25 percent for minorities, and 10 percent for women.

I urge your Honorable Body to pass this order which will make possible the development of twenty-nine units of housing in the Dacia Block area.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Whereas, The City of Boston is presently in the midst of a severe shortage of affordable housing which has a particularly onerous impact upon homeownership opportunities for low and moderate income residents; and

Whereas, The Dacia Block area of Dorchester is one of the city's neighborhoods with this housing shortage; and

Whereas, To meet the demand for affordable housing, the city has established the construction of new, owner-occupied housing as a major goal; and

Whereas, The city has targeted the Dacia Block neighborhood for the construction of new housing due to the presence of a large number of vacant parcels, with the expectation that this will stimulate the residential and commercial revitalization of the area; and

Whereas, The city has designated the Dacia Group Housing Limited Partnership as the developer of number of city owned vacant parcels, which parcels are as follows: 663-2, 663-1, 663, 648, 646, 647, 641, 665, 666, 667, 668, 652, 653, 654, 655, 657, 658, 659-1, 659, 651, 669, 650, 649; and

Whereas, The Dacia Block development project requires Community Development Action Grant (CDAG) funding to make the construction possible; and

Whereas, Dacia Group Housing Limited Partnership, a joint partnership of Frontier Enterprises and the minority-owned Future Development Group, has the capacity and the neighborhood support to carry out this project, having been tentatively designated by the Public Facilities Department on December 17, 1987; now, therefore, be it

Ordered, That the Mayor, acting on behalf of the City of Boston, be, and hereby, is, authorized to apply for, accept and also in accordance with section 53A of chapter 44 of the General Laws to expend a Community De-

velopment Action Grant (CDAG) grant not to exceed \$316,595 from the Executive Office of Communities and Development to make feasible the construction of a twenty-nine-unit residential condominium housing development by Dacia Group Housing Limited Partnership, and in connection therewith to execute and deliver such documents as may be required; and to act as the authorized representative of the City of Boston in connection with said application.

Referred to the Committee on Planning and Development.

ORDER AUTHORIZING CITY TO SUBMIT PROPOSAL TO BUILD TOWN COMMON IN DUDLEY STREET AREA AND ACCEPT AND EXPEND UP TO \$900,000 IN CITY AND TOWN COMMONS GRANT FROM DEPARTMENT OF ENVIRONMENTAL MANAGEMENT

City of Boston
Office of the Mayor

September 12, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an order authorizing the city to submit a proposal to build a town common in the Dudley area and to accept and expend the grant up to \$900,000. The city and Town Commons grant is administered by the State's Department of Environmental Management and is made available through a competitive applications process to city municipalities.

The proposal to build a town common is part of the larger plan for the Dudley Street area. The plan looks at developing approximately 2,080 units of new and rehabbed housing and a town centre, of which the town common forms the focus. The Public Facilities Department along with the Dudley Street Neighborhood Initiative had submitted a proposal and was selected in the first round of applications. This proposal is for the second and final round of application.

I urge your Honorable Body to pass this order as soon as possible.

Respectfully,
Raymond L. Flynn,
Mayor of Boston.

Whereas, The Commonwealth of Massachusetts, acting by and through the State's Department of Environmental Management, has solicited grant applications from city municipalities; and

Whereas, The City of Boston has submitted a grant application for funding through the City and Town Commons Program administered by the State's Department of Environmental Management; and

Whereas, The City and Town Commons Grant will be designated for building a town common in the Dudley Street area; now, therefore, be it

Ordered, That the Mayor acting on behalf of the City of Boston be, and hereby is, authorized to submit a proposal for such a grant and to accept and expend up to \$900,000 in the City and Town Commons Grant from the State's Department of Environmental Management, and in connection herewith to execute and deliver such documents as may be required by the Commonwealth of Massachusetts in connection with the said authorization of submittal, acceptance and expenditure.

COMMITTEE ON CITY AND NEIGHBORHOOD SERVICES TO HOLD HEARING TO DEMAND CALBEVISION ADDRESS TECHNICAL AND FINANCIAL PROBLEMS RE INSTALLATION OF SERVICES AT VARIOUS LOCATIONS

Coun. HENNIGAN CASEY offered the following:

Whereas, The residents of South Street, Martinwood Road, Asticou Road and the members of the American Legion Post 76 have requested cable service for their area; and

Whereas, The residents and American Legion Post 76

members were informed that cable service could not be installed in the area until the new Forest Hills Orange Line MBTA Station was completed; and

Whereas, Upon completion of the MBTA project, the residents and Post members were then told that cable service could not be installed in their area due to technical and financial difficulties; now, therefore, be it

Ordered, That the Committee on City and Neighborhood Services hold a hearing to demand Calbevision to address the technical and financial problems associated with the installation of cable service for South Street, Martinwood Road, Asticou Road, and the American Legion Post 76.

COMMITTEE ON PLANNING AND DEVELOPMENT TO HOLD HEARINGS TO EXPLORE SALE OF 26 COURT STREET AND RELOCATION OF SCHOOL DEPARTMENT HEADQUARTERS TO FORMER BOSTON TECHNICAL HIGH SCHOOL BUILDING

Couns. BYRNE and MENINO offered the following:

Whereas, The site of the former Boston Technical High School remains vacant, surplus and is oversized for use as a high school; and

Whereas, The Commonwealth of Massachusetts' transfer of property at the Mass. College of Art campus at Huntington Avenue for use by Boston Latin Academy makes the Boston Tech site no longer necessary as a proposed Latin Academy site; and

Whereas, The Boston School Department could efficiently and properly utilize the Boston Tech building for its headquarters, thereby maintaining a physical presence in the community it serves; and

Whereas, The sale of the present School Committee headquarters at 26 Court Street would bring substantial sales revenues to the city to fund capital improvements in public schools as well as provide significant yearly property tax revenues to the city; and

Whereas, The City of Boston must make innovative use of its assets in times of increasing fiscal difficulties while still providing practical benefits to its residents; now, therefore be it

Ordered, That the Boston City Council's Committee on Planning and Development conduct hearings to explore the sale of 26 Court Street and the relocation of the Boston School Department headquarters to the former Boston Technical High School building.

Coun. BYRNE moved that the matter be referred to the Committee on Planning and Development.

Coun. BYRNE moved the previous question; the motion was carried.

STATEMENT OF COUNCILLOR YANCEY

Having received unanimous consent to make a statement, Councillor Yancey stated that the previous debate

on this matter ignored the fact that there are other uses of the building could be put to. He said it is up to the School Committee to make that decision, and if the Council is to consider 26 School Street, it must consider it within the context of city government and the resources we have available today. It should not be the role of this body to dictate where high schools are located.

The matter was referred to the Committee on Planning and Development.

APPROPRIATE COMMITTEE TO HOLD SERIES OF PUBLIC HEARINGS RE BRA

Coun. KELLY offered the following:

Whereas, The Boston Redevelopment Authority (BRA) is the principal planning and development agency for the City of Boston; and

Whereas, The short-and long-term decisions of the BRA affect the quality of life of city residents, and the tax base of all Boston property taxpayers; and

Whereas, On many occasions, decisions made by the director and staff, have been vigorously challenged by neighborhood residents, and on still other occasions, promises have not been fulfilled in a timely manner, contributing to a growing dissatisfaction with the response of the BRA to legitimate community concerns; and

Whereas, The BRA has become a self-sustaining agency, and accordingly, in recent years, has neither requested nor received annual appropriations nor the concurrent oversight normally employed by the City Council; and

Whereas, Although financial stability is desired, Boston residents do not benefit if financial independence necessarily flows into independent activity, especially if that activity runs contrary to the public good; and

Whereas, The BRA is no longer subject to budgetary review by the City Council, and there are many legitimate questions which should be raised about expenditure of monies collected under the BRA's various programs; therefore, be it

Ordered, That the appropriate committee of the City Council conduct a series of public hearings to determine, among other relevant matters the following, relative to the BRA's operation, beginning with the current director's tenure of that agency, to present:

(1) The nature and source of all income, including, but not limited to, the conditions of all lease or sale agreements, interest from all investments, checking and bank accounts, donations or contributions in any kind;

(2) A full accounting of the balance in all bank accounts;

(3) A complete and detailed explanation of expenditures for all parties, gifts, meals, entertainment expenses, plaques, etc. And a listing of all credit cards issued BRA employees;

(4) A complete telephone listing of all out-of-state phone calls made from the BRA, or charged against its account;

(5) A list of all vehicles, equipment, office furniture or equipment purchased by the BRA, along with a complete list of all leased property, along with proof that the leased item was a result of a competitive bid, showing the next lowest bid, if any, along with an explanation of why, if applicable, that bid was refused;

(6) A complete listing of all travel expenses charged against the agency by any of its all employees, including the director, along with an explanation of the purpose of said travel.

(7) A complete listing of all contracts awarded by the BRA, and the amount of same for all consultants, engineers, design or printing work;

(8) The number of employees and consultants each fiscal year, and the actual dollar amount spent for salaries, gratuities and/or bonuses; assemble said list by name, department, function and yearly salary or contracted amount.

Referred to the Committee on Planning and Development.

REQUESTING COMMITTEE TO MEMORIALIZE VETERANS TO REPLACE SIGN HONORING WWI NAVY VETERAN JOHN C. HOLMES AT INTERSECTION OF MASSACHUSETTS AVENUE AND NORWAY STREET

Coun. KELLY offered the following:

Ordered, Whereas the sign honoring John C. Holmes, a WWI Navy veteran, killed in action aboard the U. S. S. "Manley" in March of 1918, was either destroyed or removed during street reconfiguration over the years, the Committee to Memorialize Veterans is hereby requested to replace said memorial sign at the intersection of Massachusetts Avenue and Norway Street. ORDER THAT SCHOOL DEPARTMENT CONTRACT SERVICES OF INDEPENDENT ACCOUNTING FIRM TO CONDUCT PERFORMANCE AUDIT OF SCHOOL DEPARTMENT BUDGETING PROCEDURES

Coun. KELLY offered the following:

Whereas, The School Department has on a regular basis come before the City Council for Supplemental Appropriations, and these supplemental requests have resulted in the City Council having to divert funds from other needed areas; be it therefore

Ordered, That the School Department shall contract the services of an independent accounting firm to conduct a performance audit of the School Department's budgeting procedures; and be it further

Ordered, That said accounting firm shall make a final, comprehensive performance audit report in writing and in person to the Boston City Council no later than one month prior to submission of the Boston School Department Budget for Fiscal Year 1990.

Referred to the Committee on Public Education.

Couns. SCONDRAS, BOLLING, BYRNE, HENNIGAN CASEY, IANNELLA, McCORMACK, McLAUGHLIN, MENINO, SALERNO, TRAVAGLINI and YANCEY offered the following:

Whereas, The country of Iceland, in defiance of a moratorium adopted by the members of the International Whaling Commission, continues to kill hundreds of fin and sei whales; and

Whereas, Iceland has taken advantage of a loophole in the commercial whaling moratorium by calling its hunt "scientific research" when it is not; and

Whereas, For the past two years, the full International Whaling Commission has stated that Iceland's program does not satisfy the commission's criteria for legitimate scientific whaling and has asked Iceland to halt its hunt; and

Whereas, For the past two year, Iceland has received revenues of approximately \$7 million per year by selling the results of its "scientific research" to Japan; therefore, be it

Resolved, That the Boston School Department and the Purchasing Department of the City of Boston not buy Icelandic seafood products until Iceland ceases the killing of whales.

Passed under suspension of the rules.

ORDINANCE RELATIVE TO DAMAGES IN THE CASE OF CERTAIN UNDERTAKINGS AND PUBLIC TAKINGS

Couns. SCONDRAS and IANNELLA offered the following:

City of Boston

In the Year Nineteen Hundred and Eighty-eight.

An Ordinance Relative to Damages in the Case of Certain Undertakings and Public Takings.

Be it ordained by the City Council of Boston, as follows:

Whereas, In the process of excavation of Huntington Avenue for several months by a massive project which involves the state, the city, the MBTA, Boston Edison and the Water and Sewer Commission, contractors have isolated a small, one-room store so seriously that distributors have been unable to bring in supplies and customers, many of whom are elderly, have been discouraged from using her store; and

Whereas, As a result of this, the store which has been the sole source of income for the owner and her children for the past 11 years, has now closed, driven out of business as a result of the "improvements" which were undertaken without a plan for dealing with the damage caused to abutting businesses and property owners; and

Whereas, Several other businesses on Huntington Avenue have complained of the same suffering; and

Whereas, Similar situations on a grand scale will occur in connection with the depressing of the Central Artery unless we ensure otherwise; and

Whereas, The city cannot afford to have the loss of jobs, revenues and damages that result from this kind of poorly planned activity on its roads and sidewalks; and

Whereas, Meeting with the state DPW and contractors have failed to resolve the difficulties to our satisfaction; and

Whereas, We have a responsibility to ensure that activities undertaken to improve the public ways of the city are done with a plan that minimizes hardship to abutters and businesses in the area, and to indemnify those who are damaged; now, therefore, be it

Ordained by the City Council of Boston, as follows:

Section 1. Whenever an undertaking is proposed involving the use of public property, the board or officer having charge of such property shall, prior to giving any license, permit, or permission for the use of the property,

determine whether or not the same will cause damage (which term shall include interruption of business, physical damage, loss of quiet enjoyment, and all other forms of damage) to any owner or tenant of an abutting, adjacent or nearby estate. When the board or officer determines that such damage is a consequence of the undertaking, no license, permit, or permission for the use of the public property shall be granted until remuneration for such damage shall have been secured, by reason of payment, bond, or deposit satisfactory to the board or officer and to the corporation counsel, unless the owner or tenant shall elect to secure remuneration, or to waive remuneration, in his, her, or its own behalf. The corporation counsel shall whenever necessary bring an action to secure or recover any such damage, and unless the court shall otherwise direct, the collector-treasurer shall receive any proceeds of such an action as trustee for the owner or tenant and pay the same over to the party damaged.

Section 2. Whenever any public body exercises eminent domain to take public property in fee or less than for an undertaking, the board or officer having charge of such property shall, prior to agreeing to any payment for such a taking, determine whether or not the same will cause damage (which term shall include interruption of business, physical damage, loss of quiet enjoyment, and all other forms of damage,) to any owner or tenant of an abutting, adjacent or nearby estate. When the board or officer determines that such damage is a consequence of the taking, agreement to damages for such taking of the public property shall be made until remuneration for such damage shall have been secured, by reason of payment, bond, or deposit satisfactory to the board or officer and to the corporation counsel, unless the owner or tenant shall elect to secure remuneration, or to waive remuneration, in his, her, or its own behalf. The corporation counsel shall whenever necessary bring an action to secure or recover any such damage, and unless the court shall otherwise direct, the collector-treasurer shall receive any proceeds of such an action as trustee for the owner or tenant and pay the same over to the party damaged.

ORDINANCE AMENDING THE COMPARABLE
WORTH COMMISSION ORDINANCE

The following was received:

City of Boston
Office of the Mayor

September 19, 1988.

To the City Council.

Dear Councillors:

I transmit herewith for your approval an amendment to
the Comparable Worth Commission ordinance that
would broaden membership in that body to include addi-
tional representatives from the municipal workforce,
women's advocacy groups, and the private sector, as
well as key members of my administration. Inclusion of
additional members will help insure that I receive the
best available balance of opinion on comparable worth
matters while the city undertakes a comprehensive per-
sonnel reclassification study, the first such effort in over
twenty-five years.

I am particularly pleased to submit this bill knowing
that it comes after several months' productive discussion
with Councillor Hennigan Casey, members of the Com-
parable Worth Commission and other affected parties.

As you know, I strongly support the principles em-
bodied in the concept of comparable worth. My adminis-
tration's deeply held commitment to fairness and equity
extends to city personnel practices, including the city's
personnel evaluation and compensation system.

That is why more than a year ago I originally approved
establishment of a commission "to conduct a study to
investigate . . . the feasibility of implementing a com-
parable worth plan for the City of Boston and its employees
..."

Since that time, I initiated a comprehensive reclassifi-
cation plan to be undertaken over the next three years
under the direction of the Office of Personnel Man-
agement. A request for proposals was issued and a consult-
ant has been selected to assist my administration during
the conduct of the study. More than \$200,000 has been
included in the budget to cover the costs of the first full
fiscal year of this effort. My administration will continue
to work closely with commission members while the city
undertakes this important study.

This amendment guarantees broad and balanced repre-
sentation from all affected parties. I urge your Honorable
Body to approve it as expeditiously as possible.

Respectfully yours,

Raymond L. Flynn,
Mayor of Boston.

MAYOR'S MESSAGE TO ENLIST VOLUNTEERS

Dear Community Leader:

On Saturday, March 25th, the City of Boston launched a campaign to enlist volunteers to support the Boston Youth Campaign: Making Connections. This campaign is being initiated for the purpose of supporting the youth of this city at a time when the usual resources are not available. Although the city is facing tough financial times, we are not going to let these tough financial times become an excuse for inaction at the expense of our young people. This is not a time for excuses; this is a time for coming up with new ways of doing things.

Young people today face obstacles that may be hard for us to relate to and perhaps we don't even understand the problems they face. We've heard said many times, that today's young people are the future leaders of this city, and it is time for us to make sure that they are provided with opportunities to prepare them for that role.

Every day headlines scream about school dropouts and the increasing threat of drugs, violence and the flood of guns on our streets and in our schools, teen pregnancy, alcohol abuse, teenage suicide. These problems — these threats to our society — are difficult to solve. The fact that they so deeply affect our young people makes it even more urgent that we attempt to solve them. At no time are these problems more apparent than in the summer months.

I am committed to making the creation of opportunities for youth a top priority. I am also committed to ensuring that the many, many positive stories about Boston's young people are told. The Boston Youth Campaign: Making Connections is important because its success will determine whether or not our young people will succeed and, thus, whether or not our city succeeds.

I would bet, that as you were growing up, someone helped you at a critical point in your life. Now I'm asking you to return the favor by volunteering to help some of Boston's young people this summer. I want to make sure that as many people as possible will be making connections with the youth in our neighborhoods and I need your help and your involvement. I know that there are people from all across Boston and from all walks of life who are ready to volunteer their time, financial support, and other resources to make this campaign work. With this kind of effort, our young people will be able to make the kind of positive connections that will last them the rest of their lives.

Will you help? A twenty-four-hour hotline — 725-HOPE — has been established to receive calls from those who wish to volunteer. That same number will also be open for young people seeking information about jobs, educational opportunities, recreational activities, and anti-drug services.

Enclosed is a pledge card. Please fill out this card and return it to me. The sooner we receive your pledge card, the sooner we will be able to connect you to this important campaign.

With your support and the support from others like you, I am confident that the Boston Youth Campaign: Making Connections will make a difference for the youth of Boston.

Sincerely,
Raymond L. Flynn,
Mayor of Boston.

**ABCD LEARNING CENTER
HOLDS GRADUATION**

The ABCD Learning Center for Jobs, Education and Career Training Presented food service training graduation.

Action for Boston Community Development's (ABCD's) Learning Center recently honored ten local Roxbury and Dorchester residents at the Food Service Training Program's Graduation Ceremony, held at the Rooftop Ballroom at the Parker House Hotel.

Robert M. Coard, ABCD's Executive Director remarked "In recognition of their achievements, we are honoring these Food Service Training students

upon graduation, and wishing them the best of luck in their new career."

The Program's current class prepared a menu of spinach entimbale, seafood crepes, roast sirloin, sea scallops with bacon, chicken teriyake and spinach quiche, along with other entrees. Among the desserts served were carrot cake, chocolate mousse, and trifle.

The Food Service Training Program is based at the Parker House, which donates space for the program. Because of cooperative relations with many Boston area hotels, restaurants and universities, upon graduation, students are placed at local restaurants and hotels including, the Marriott Longwharf, the Marriott Copley, and the Great Gourmet Restaurant.

The Learning Center, under the auspices of the ABCD Downtown Center for Jobs, Education and Career Training, provides the first step in a program designed to help low-income youths and young adults improve their educational and vocational skills, as well as prepare for their GED exams. The program is designed so that students learn at their own pace, in an individual or a small group setting. The center offers instruction during day and evening hours in order to accommodate students who work or have other time constraints.

**MBTA AWARDS CONTRACT FOR
RECONSTRUCTION OF COMMUTER
PLATFORMS AT NORTH STATION**

Massachusetts Bay Transportation Authority General Manager Thomas P. Glynn has announced that the commuter rail platforms at North Station will be raised to provide easy access to trains for all passengers, under a \$13.7 million contract with the Modern Continental Construction Company, Inc.

"This work, which will provide direct access for passengers using wheelchairs, as well as the general public, will be carried out with a minimum of impact to rail service at North Station," Glynn said. "By construction of a temporary platform and two tracks to the east of the present platforms, service will continue to operate throughout the construction period."

Also included in this project is the installation of thirty-five, deep-bore caisson foundations under the five existing platforms, which will accommodate future air-rights development at North Station. By constructing the caissons at this time, service disruptions will be avoided in the future when development of the air-rights takes place.

Mr. Glynn also noted that the contract, which is to be completed in approximately eighteen months, will also provide for construction of public restrooms and additional seating within the present North Station concourse, extensive signage, and other passenger amenities.

**MUSEUM OF FINE ARTS
DAUMIER: AN EPOCH OBSERVED**

April 22 — July 16

This exhibition of prints by the nineteenth-century painter, sculptor, and graphic artist Honoré Daumier is organized in honor of Benjamin A. and Julia M. Trustman, for whom the permanent collection galleries of the Department of Prints, Drawings and Photographs have recently been renamed. Daumier is best known for his thousands of lithographs and wood engravings, which were published in popular Parisian journals. A master of social and political satire, his caricatural prints document a period of great historical upheaval and transformation. After government censorship of the press early in his career, Daumier's

work shifted to an emphasis on bourgeois society, which he recorded with great insight and humor. Among the better-known of these themes are the scenes of justice, scenes in railroad cars and on the boulevards, and such sure-time activities as visiting exhibition galleries, music halls, and theaters. Although the prints are accompanied by explanatory captions, the images stand on their own, for Daumier was not only a master of expressive compositional arrangement but also of the rich possibilities inherent in the techniques of lithography. Included in the exhibition are two original lithographic stones and one wood-engraved block. Drawings and sculpture related to the prints further enrich the viewer's understanding of Daumier's contemporary vision.

X. HIGH COMMENDATION

At approximately 1944 hours, on January 6, 1989, Box 3121 was transmitted for a building fire at 231 Geneva Avenue. While advancing a line to the third floor, Engine Company 21 was informed that children were trapped in an apartment on that floor. At this time, heavy fire and smoke conditions existed and Fire Fighter Robert M. Staunton crawled down the hall of the burning apartment. The bedroom on his left was fully involved in fire and flames were lapping out into the hallway above Fire Fighter Staunton's head. He quickly entered the bedroom on his right, found a child on the bed and removed her to the safety of the outer hallway where Lieutenant Timothy F. McGillicuddy immediately started C.P.R. At this time, Fire Fighter Staunton heard cries from the rear bedroom and, under intense heat and smoke conditions, he reentered the bedroom. By this time, fire was flashing across the ceiling of that bedroom placing Fire Fighter Staunton under extreme personal risk and making the search extremely difficult. He found a child trapped behind the bed and wedged between the headboard and baseboard. He quickly removed him to the safety of the outer hallway, just as the room flashed over. Fire Fighter John A. King, Engine Company 21, started C.P.R. and removed the child to a waiting ambulance.

Because Fire Fighter Staunton performed these acts under extreme personal risk to himself and before proper ventilation had been performed, or lines were in place, the Fire Commissioner is pleased to commend Fire Fighter Robert M. Staunton, Engine Company 21 and refers his case to the Board of Merit for further consideration.

XI. HIGH COMMENDATIONS

The Fire Commissioner is pleased to commend Fire Fighter Patrick D. Murphy, Ladder Company 16 and Fire Fighter Kevin L. Kelly, Ladder Company 21, for responding to and working at Box 1862, working fire, at 47-49 Savin Hill Avenue on February 5, 1989, and makes this commendation a part of their personnel folder.

REPORT ON ORDINANCE AMENDING THE RENT EQUITY ORDINANCE

Coun. BYRNE, on behalf of the Special Committee on Governmentally Involved Housing, submitted the following:

Report on Docket No. 0761, ordinance amending the Rent Equity Ordinance (referred June 8, 1988, by the Committee on Housing) — recommending passage of the ordinance in the following new draft:

City of Boston

In the Year Nineteen Hundred and Eighty-eight.

An Ordinance

Improving the Rent, Eviction,
and Condominium Conversion Protections
for Tenants in Governmentally Involved Housing.
Be it ordained by the City Council of Boston, as follows:

Whereas, The City of Boston wishes to insure that tenants in governmentally involved subsidized housing have protections which are equal to those of tenants in private housing, to the extent that it has the authority to provide such protections; and

Whereas, Concerns have been raised that the City of Boston's current Rental Housing Equity Ordinance may not sufficiently provide protections for low- and moderate-income tenants who are in governmentally involved housing, particularly those subsidized housing units which may be subject to prepayment of mortgage financing; and

Whereas, The goal of the City of Boston is to encourage owners of this governmentally involved housing to not prepay the existing mortgage financing and to accept federal incentives to maintain their existing mortgages and subsidy; now, therefore

Be it ordained by the City Council of Boston, as follows, in accordance with the provisions of Massachusetts General Laws chapter 43B, section 13, and any other applicable laws as follows, and pursuant to the authority vested in it by law, including, without limitation, Article 2, as amended, and Article 47 of the Amendments to the Constitution of the Commonwealth of Massachusetts, and chapter 797 of the Acts of 1969, as amended by chapter 863 of the Acts of 1970, by section 26 of chapter 843 of the Acts of 1971, by chapter 45 of the Acts of 1987, and by chapter 504 of the Acts of 1987:

Section 1. Section 1(n)(i) of chapter 34 of the Ordinances of 1984, as amended, is amended by striking the section in its entirety and substituting therefore the following:

"(i) Housing accommodations which

(a) are owned by a governmental unit, agency, or authority, provided, however, that none of the units exempted under this subsection (except for housing accommodations owned or acquired by the City of Boston) shall be eligible for vacancy decontrol under section 1(n)(iii) or 1(n)(v) after the basis for exemption under this subsection ceases to exist; or,

(b) have mortgages insured or held by a governmental unit, except as provided in section 1(n)(iii) or section 1(n)(vi) below, so long as and only to the extent that federal or state law specifically preempts local rent control boards from regulating the rents for such housing accommodations, provided, however, that none of the units exempted under this subsection shall be eligible for vacancy decontrol under section 1(n)(iii) or 1(n)(v) after the basis for exemption under this subsection ceases to exist; or,

(c) are under a section 8 existing or moderate rehabilitation subsidy contract, under the rental rehabilitation program, the chapter 707 certificate, moderate rehabilitation, or substantial rehabilitation programs or any other federal, state, or local public subsidy program which guarantees that the tenant pays no more than 30 percent of adjusted income as the tenant's share of the rent, but only to the extent that such units remain under subsidy and the rent charged is within the subsidy contract authority of the agency providing subsidy on behalf of the tenant, provided, however, that rent increases which cause the rent to exceed the subsidy contract authority of the agency providing subsidy be subject to review by the board under sections 5, 6, or 7 of this ordinance as applicable and provided further, that if the basis for exemption under this subsection ceases to exist, such units shall revert to their prior controlled or decontrolled status for the purpose of rent regulation except that the landlord may apply for decontrol of a controlled unit if a voluntary vacancy occurred during the period of exemption.

All such housing accommodations under this section,

although exempt from local rent regulation, shall be subject to the operations of sections 9 to 19 with regard to evictions and condominium or cooperative conversion and removal protections, except to the extent that the federal and state law specifically exempts such housing accommodations from such protections; provided, however, housing accommodations which are owned by the Boston Housing Authority are exempt from all provisions of this ordinance. Should such housing accommodations lose their eligibility for exemption from rent controls, the owner shall have the obligation, within thirty (30) days of such loss of eligibility, to petition the board to establish the maximum lawful rent for such housing accommodations. Such maximum lawful rent shall be the rent lawfully charged as of February 1, 1988, adjusted to insure that such rent provides a fair net operating income as of the date of the loss of eligibility for exemption. In determining rents, the board shall consider, but shall not set a fair net operating income in excess of, the amount of income available, or which would have been available, under a plan of action approved by the United States Department of Housing and Urban Development and the Executive Office of Communities and Development, at its discretion, pursuant to Title II of the Housing and Community Development Act of 1987 had the owner not prepaid the mortgage; said plan of action shall be one which prevents the displacement of tenants and preserves the long-term affordability of all the units in the development.

The owner of housing accommodations which are subject to the provisions of this ordinance and which, subsequent to January 10, 1983, receive a mortgage issued by the United States or the Commonwealth or any authority created under the laws thereof shall not be entitled to apply for a removal permit pursuant to section 11 or sent a notice pursuant to section 10 of this ordinance until the expiration of five years from the date of the recording of said mortgage."

Section 2. Section 1(n)(iii) of chapter 34 of the Ordinances of 1984, as amended, is amended by striking the phrase "January 1, 1972" and substituting therefor the phrase "January 1, 1975", and by adding the words "and after January 1, 1972, with respect to housing accommodations described in paragraph (n)(vi) below" after the phrase "described in paragraph (n)(i) above."

Section 3. Section 1(n)(vi) of chapter 34 of the Ordinances of 1984, as amended, is amended by striking the section in its entirety and substituting therefor the following:

"(vi) Housing accommodations which the United States or any Authority created under the laws thereof insures or insured the mortgage thereon pursuant to sections 207 or 220 of the National Housing Act, as amended, provided that such housing accommodations shall be considered housing accommodations only for the purposes of sections 10 through 19 inclusive of this ordinance, unless said housing accommodation is subject to an agreement pursuant to Mass. General Laws chapter 121A with the City of Boston and/or the Boston Redevelopment Authority, in which case such housing accommodations shall be considered decontrolled housing accommodations only for the purposes of section 6 of the ordinance and shall be considered housing accommodations only for the purposes of sections 9 through 19 inclusive of this ordinance, provided further, housing accommodations which have mortgages insured under section 221(d) of the National Housing Act, as amended, and which have never received a federal rental subsidy or below market interest rate mortgage subsidy shall not be considered housing accommodations but shall be considered housing accommodations only for the purposes of sections 10 through 19 inclusive of this ordinance; and provided further, however, that if the titles of more than

50 percent of the units in housing accommodations which had or have mortgage insurance pursuant to section 220 of the National Housing Act, as amended, were transferred as condominium units to owner occupants and such titles were recorded at the Suffolk County Registry of Deeds on or before December 31, 1983, such housing accommodations shall be exempt from all provisions of this ordinance."

Section 4. Chapter 34 of the Ordinances of 1984, as amended, is hereby further amended by adding the following after section 1(n)(vii) of the ordinance:

"If a housing accommodation is exempt by operation of more than one of the provisions of these seven subsections, one of which provides a limited exemption and at least one of which is not so limited, then the provisions of the exemption not so limited shall apply, except the exemption described in subsection (v), above, shall be deemed a limited exemption for purposes of this provision."

Section 5. Chapter 34 of the Ordinances of 1984, as amended, is hereby further amended by adding the following section to the ordinance which shall be assigned an appropriate section number by the City Clerk: "The Board shall confer with interested parties, including but not limited to representatives of landlords, tenants, and community development corporations in order to develop written recommendations to the City Council and the Mayor for amendments to the ordinance which will foster the preservation of housing accommodations constructed or developed pursuant to sections 202, 221(d)(3), and 236 of the National Housing Act as housing which will remain affordable to the low-income tenants and moderate-income tenants presently residing in such accommodations, including but not limited to incentives for limited equity cooperative ownership by such tenants and appropriate requirements for tenant financial contribution. The board shall report its recommendations under this provision by December 15, 1988."

Section 6. Severability.

Each of the provisions, sections, and subsections of this ordinance are severable, and if any of its provisions,

sections, or subsections shall be held unconstitutional or otherwise invalid by any court of competent jurisdiction, the decision of such court shall not affect or impair any of the remaining provisions, sections, or subsections.

The report was accepted; **the ordinance in the new draft was passed.**

The chair stated that the purpose for which the Special Committee on Governmentally Involved Housing was formed having been accomplished, the Committee was dismissed with thanks.

DISAPPROVING ORDER RE PROHIBITION ON PURCHASE OF SHELL OIL CORPORATION PRODUCTS UNTIL ROYAL DUTCH/SHELL WITHDRAWS FROM SOUTH AFRICA

The following was received:

Office of the Mayor
City of Boston

September 30, 1988.

To the City Council

Dear Councillors:

I return herewith, without my signature and disapproved, an order passed by your Honorable Body on September 14, 1988, which orders the City of Boston to continue to refrain from purchasing and be prohibited from purchasing any Shell Oil Corporation Products until Royal Dutch/Shell, of which Shell Oil is a subsidiary, withdraws from South Africa. The order further requires that the city's Auditing Department be directed to no longer accept reimbursement vouchers from city employees for Shell products purchased after December 31, 1989.

My reasons for disapproval are that the order conflicts with the provisions of the City Charter on at least two points. The Charter prohibits the Council from directly or indirectly taking part in the making of contracts. The Charter also prohibits the Council from taking part in the

conduct of the executive or administrative business of the city. (See, St. 1948, 452, s. 17G as appearing in St. 1951, c. 376, s. 1).

As the City Council knows, I am absolutely opposed to the reprehensible policy of apartheid. In 1986, I directed the Corporation Counsel to draft language to be included in all city contracts for the purchase of goods. That language, which has been in effect since January, 1987, prohibits the city from purchasing goods which originate in substantial part in the Republic of South Africa or Namibia. The Corporation Counsel reiterated that position and strengthened the contract provisions earlier this month. (See attached memo from the Corporation Counsel to department and agency heads). Shell products which originate in South Africa are included in that prohibition.

Products which do not originate in South Africa, whether the products are those of Shell or of other companies, are not part of the city's contract ban. To demonstrate our continuing opposition to apartheid, I shall issue an Executive Order prohibiting city departments from purchasing Shell Oil products until such time as Royal Dutch/Shell divests itself of its South African holdings. In this way, our city can put not only Shell Oil Corporations on notice, but all companies similarly situated, that we strongly disapprove of their continued involvement with the policies of apartheid.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

Assigned for further action.

NOTICE FROM CITY CLERK

Notice was received from the City Clerk in accordance with chapter 6 of the Ordinances of 1979 re actions taken by the Mayor with regard to the papers acted upon by the City Council at its meeting of September 14, 1988.

Whereas, Two hundred union workers were laid off when the plant was shut down in December, 1987;

Whereas, After the Special Committee on Waste Management held hearings to address Nolichucky's initial decision not to recognize the United Paper Workers' International Local 121 and not to rehire former union employees of the plant, Nolichucky reached agreement with the Union; and

Whereas, It was the understanding of the City Council's Special Committee on Waste Management that Nolichucky would begin to operate the Hyde Park facility in a timely fashion; and

Whereas, It has been recently reported that Nolichucky Industries Corporation has closed plants in Michigan and Puerto Rico and is facing serious financial difficulty; now, therefore, be it

Ordered, The Special Committee on Waste Management hold hearings to investigate the present status of the Hyde Park facility and the feasibility of Nolichucky successfully operating the plant; and be it further

Ordered, That the City of Boston's Economic Development and Industrial Corporation attend a hearing convened by the Special Committee on Waste Management to discuss steps that can be taken to interest other companies, who will produce paper products from recycled paper, to purchase (or lease) and operate the Hyde Park facility employing former mill workers and recognizing Local 121 if it is determined that Nolichucky Industries Corporation will not begin operating the plant in the near future.

Coun. SALERNO moved that the order be referred to the Special Committee on Waste Management.

The motion was carried by rising vote.

City of Boston

In the Year Nineteen Hundred and Eighty-eight

An Ordinance

Be it ordained by the City Council of Boston, as follows:

Whereas, Elderly and/or handicapped tenants often become attached to their pets and rely on them for companionship and protection; and

Whereas, Congress had declared that tenants that reside in federally-assisted public and subsidized housing for the elderly and/or handicapped have the right to own and live with pets, so long as they abide by reasonable rules relating to the care and conduct of those pets; and

Whereas, Elderly and/or handicapped tenants who reside in other public, subsidized, and private housing do not have the same rights to own and live with their pets and have had to suffer the trauma of loss of their pets, even when such pets will not cause disturbance or nuisance; and

Whereas, it is in the public interest to insure that such elderly and/or handicapped tenants are not discriminated against and do not face eviction because of their pet ownership, so long as such tenants agree to abide by reason-

able rules relating to animal control and pet care; therefore,

Be it declared by the City Council of the City of Boston in accordance with the provisions of Massachusetts General Laws chapter 43B, section 13, and any other applicable law as follows, and pursuant to the authority vested in it by law, including, without limitation, Article 2, as amended, and Article 47 of the Amendments to the Constitution of the Commonwealth of Massachusetts, and chapter 797 of the Acts of 1969, as amended by chapter 863 of the Acts of 1970, by section 26 of chapter 843 of the Acts of 1971, by chapter 45 of Acts of 1987, and by chapter 504 of the Acts of 1987, that the following ordinance be adopted.

The owner of such housing accommodations shall have the right to promulgate reasonable requirements regarding the number of commonhousehold pets allowed in each unit, standards of pet care, licensing, inoculation, and leash laws, similar to those developed by the Massachusetts Society for the Prevention of Cruelty to Animals, and consistent with state and local laws on animal control, such as G.L. c. 140 — 136A — 17AD. Nothing in this provision shall bar the owner from requiring the removal of any pet if the pet's conduct or condition is determined to constitute a nuisance or threat to the health or safety of other occupants of the building, structure, or development of other persons in the community where the housing accommodation is located."

Section 2. Scope.

Notwithstanding the exemptions found in section 1(n)(i — vii) of chapter 34 of the Ordinances of 1984, as amended, all housing accommodations in mobile homes, in mobile home parks, and in structures having three or more dwellings, excluding motels, hotels, or inns, and excluding housing accommodations in structures having three dwelling units, one of which is occupied by all the legal and beneficial owners of the structure as their principal residence, shall be subject to the provisions of section 9A of chapter 34 of the Ordinances of 1984, as amended.

GEORGE ROBERT WHITE FUND

History of the Fund

George Robert White was one of Boston's most successful businessmen, a substantial property owner, and a bachelor when he died in 1922. The generous terms of his will provided for his one surviving sister and left "all the rest and residue" of his property to the City of Boston to establish a fund to "create works of public utility and beauty" in the city in which he had achieved so much. White specified as Trustees of the Fund the Mayor, President of the City Council, President of the Chamber of Commerce, President of the Boston Bar Association, and City Auditor, all serving ex-officio.

Over the past sixty-six years, the various Trustees have guided the White Fund's operations toward its benefactor's intent: to improve the city's public facilities and enhance the quality of life for its citizens. Monies from the Fund continue to be used to build and maintain cultural, recreational and community projects throughout the neighborhoods of Boston, as described in the following pages.

BOSTON FOOD BANK TO RECEIVE CITY FUNDS

The Boston Food Bank will be able to continue to serve thousands of needy families thanks to a \$50,000 grant from the Public Facilities Department (PFD) of the City of Boston to make much-needed repairs to its food distribution center in Roxbury. This grant will be used to repair or replace the roof of the Food Bank's 21,000 square-foot building. The money comes from PFD's Physical Improvements Program (PIP), which provides grants to nonprofit human service organizations to upgrade their facilities.

"The Boston Food Bank distributed over \$7 million worth of food last year. That meant the difference between a good meal and going hungry to tens of thousands of families in the Boston area," said Lisa G. Chapnick, Director of PFD. "This grant will enable the Food Bank to repair the roof of its distribution center without having to cut back on essential food services."

Since 1984, almost \$3.5 million in Physical Improvements Program grants have been used to renovate facilities for eighty-five nonprofit organizations. Matching funds levered from private sources bring the total project costs to over \$5.6 million.

The Boston Food Bank was formed in 1981 in response to the growing need for emergency food assistance and the realization that an estimated 20 percent of all food produced never makes it to the table. The organization salvages wholesome food through donations from corporations, wholesalers, farmers, caterers, and two local supermarket chains. Over 728 community service agencies affiliated with the Boston Food Bank — organizations such as food pantries, emergency shelters, soup kitchens, and day care program — receive food to help feed 49,000 people each month. Last year, the Food Bank distributed 5.3 million pounds of food.

"Hunger in Boston is unnecessary," said Boston Food Bank Director Vesty Egmont. "A lot of dedicated people have been working very hard for many years to alleviate this problem. The Food Bank today distributes more food in a month than we did in all of 1981. While the need for food assistance is growing, the supply of available food is also increasing. We're very grateful to PFD because financial help like this makes it possible for us to provide enough immediate emergency food assistance to make a difference.

COMMUNITY PROCESS HELPS ROXBURY FIRM EXPAND

Roxbury woodworking firm, C. Pizzano and Son, will expand its business — offering new jobs and expanded parking to local residents — with the purchase of four vacant parcels from the City of Boston's Public Facilities Department.

The agreement, which was negotiated with the assistance of the Dudley Street Neighborhood Initiative (DSNI), calls for the lots, which total approximately 11,500 square feet on Rand and Brookford Streets, to be used as customer and employee parking, and for the conversion of an existing garage to workspace. Nearby residents will be permitted to use the new parking area after business hours. In addition, Mr. Pizzano has agreed to create several new positions in his business, to be filled primarily by Roxbury residents.

"The entire community will benefit from the expansion of this woodworking business," said Lisa G. Chapnick, Director of PFD. "This is a good example of why DSNI was given eminent domain power in the Dudley Triangle. Again and again, this group has shown its ability to reconcile the interests of residents and businesses so that everyone's satisfied."

Boston Mayor Raymond L. Flynn's policy for the disposition of city-owned land strongly favors community approval before a designation can be finalized. Working out an agreement with DSNI and PFD was Mr. Pizzano's first experience with this process. "Not only do I expand my business, but the new workers I hire will be trained," Mr. Pizzano said. "The goodwill of the neighborhood is important to any business, and DSNI and PFD have made sure everything will go fine."

Mr. Pizzano has agreed to enroll at least two, new employees in the State's Apprenticeship Training Program, while he develops his own informal training system. Trainees in each program will earn identical wages, and will

In addition to PFD's PIP grant, the Boston Food Bank has secured \$20,000 in matching funds from a private foundation for the roof repairs. The Food Bank is also slated to receive a below market-rate loan through the MBTA Small Business Loan program, which is administered by PFD. This money will be used to make general renovations, build a new loading dock and add a drive-in cooler.

Construction bids for the Boston Food Bank roof repair project are scheduled to go out next month. Construction is expected to begin in May and should take one month to complete.

receive Certificates of Completion after approximately four years. Trainees will then be entitled to journeyman's wages.

When the expansion of Mr. Pizzano's woodworking business is complete, DSNi will help attract new laborers and apprentices to the program. The agreement stipulates that at least 70 percent of these will be Roxbury residents.

BOSTON'S MANAGEMENT PROGRAM SUCCESSFUL

Boston's Management Performance and Development Program has been described as "Best in the Nation," according to U. S. Conference of Mayors' Survey.

The City of Boston has one of the most innovative and extensive internal management programs in the country, according to a U. S. Conference of Mayors' thirty-city survey has released.

The report stated that Boston's management development effort is distinguished by the Boston Management Consortium, a public private partnership between the city and business community formed to work on city management programs.

"I am very proud of the city's Management Performance and Development Program and am pleased our efforts to build the strongest possible management team for the city have been recognized as successful. I am grateful for the support our management teams are receiving from both the

private sector and the local academic community through the Boston Management Consortium," Mayor Raymond L. Flynn said.

The Boston Management Consortium was proposed to the business community by Mayor Flynn in 1988 and has more than fifty Boston corporation participants. The corporations have donated to the city \$100,000 in cash and approximately \$200,000 in contributed trainers, consultants, training space, equipment and materials.

"The U. S. Conference of Mayors' Report on Management Training and Development Programs in the Nation's Largest Cities," released by Richard Dahl, also noted that Boston targets its training to all levels of management, including senior managers. The city received high credits for training managers who are unionized and members of the civil service. The city's performance appraisal program, a program focused on improving the ability of governmental managers to deliver quality services, was also highlighted in the survey.

"Mayor Flynn has worked very hard to promote efficiency in government and to give city managers the tools they need to deliver quality services to the people of Boston. It is especially important now, given the state's current financial problems, that city managers

on all levels have comprehensive management training," said city Budget Director Robert Ciolek.

The Flynn administration also announced the strengthening of its in-house management, skill-build program, funded in part with the private sector contributions of the consortium. The city unveiled more than six courses and workshops tailored to help Boston managers deal with upcoming period of limited financial resources. The courses are offered to key city managers, management trainers and corporate trainers.

Boston's Management Performance and Development Program involves more than 1,000 city managers in city departments ranging from the Boston Police Department, Department of Health and Hospitals to the city's Emergency Shelter Commission.

"Management strategies are continually improved and expanded, through Boston's management training programs. City managers can continue their education process and stay informed about evolving management techniques, said Dr. Robert Krim, Director of Management Performance and Development for the city.

REPORT OF THE CHAIRMAN

to the Citizens of Boston:

On behalf of my colleagues, I am pleased to present this *Report of the Trustees of the George Robert White Fund*.

A great deal of work has been undertaken since the Trustees reported to you a year ago. At that time, we announced that \$3.3 million had been earmarked for construction of nine properties under the aegis of the White Fund. Since then, conditions at six of our neighborhood health centers have been substantially improved by renovations commissioned by the Trustees. Moreover, the Mirabella and Clougherty swimming pools, which had been used on a very limited basis for the past two summers because of insufficient attention to their aging mechanical systems, will reopen fully this year, for the enjoyment of neighborhood residents of all ages.

But the crowning achievement of the year just past is the selection by the Trustees of the firm of Rojas, Vogt Associates, Inc., to design monuments to honor the men and women of Boston who died in the Korean and Vietnam conflicts. As you can see in the drawing on the right, these monuments blend perfectly with the existing War Memorial, creating a total setting which is both sacred and beautiful, and in which all of us can take great pride.

Artist's rendering of proposed new monuments flanking the existing World War II memorial in the Fens.

Work will continue in the year ahead on several of the health centers, as well as the war memorials. In addition, after an exhaustive competition among twenty-five of the country's top engineering firms, the Trustees identified the Boston-based Wallace, Floyd Associates to restore the Praedo, an elegant park in the North End which is home to our noted statue of Paul Revere. Visitors to our city from around the world make pilgrimages to the Praedo, the Revere statue, and the Old North Church, and we are eager to return this lovely spot to its original excellence. \$750,000 has been earmarked for this project.

The White Fund portfolio, including the principal account which is now ranked in the top 15 percent nationwide, continues to be well-managed under the care of J.S. Trust and Loomis, Sayles & Co. and the prudent stewardship of the City's Trust Office. We congratulate and thank this team for their outstanding work. And I would be remiss in my duties if I did not acknowledge also the important contributions of Councillor Bruce Bolling, who has recently left the Board after two years of service. We are grateful to Councillor Bolling for his dedication, which will be certainly matched by the Council's new President, Christopher Iannella, who brings a wealth of experience to our deliberations.

We have every expectation that the year ahead will offer us continued opportunities to accomplish the intent of our benefactor, to create "works of public utility and beauty for the use and enjoyment of inhabitants of the City of Boston."

Sincerely,

Raymond L. Flynn

Proceedings of City Council

Wednesday, October 19, 1988.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 1 p.m., President IANNELLA in the chair. Absent Councillors MENINO and O'NEIL.

OPENING OF MEETING

President IANNELLA requested that all present stand for a moment of silent meditation, and the meeting was opened with the salute to the flag.

VISITORS TO CITY COUNCIL

President IANNELLA, for all the Councillors, introduced the following recipients of the Henry L. Shattuck Public Service Awards who will be honored in ceremonies tomorrow night at the Park Plaza Hotel: Captain George E. Connolly, Alfonso Denson, Robert E. Drummond, Judith M. Duffy, Janet M. Short, and Officer Robert L. Tebbetts. Each was presented with a citation from the City Council, and the members of the audience and all present stood and applauded them.

DISAPPROVING ORDINANCE RE SECURITY REQUIREMENTS FOR CERTAIN RESIDENTIAL BUILDINGS

The following was received:

City of Boston
Office of the Mayor

October 7, 1988.

To the City Council.

Dear Councillors:

I return herewith, without my signature and disapproved, an ordinance passed by your Honorable Body on September 20, 1988, which would impose security requirements at both Boston Housing Authority and privately owned elderly/handicapped residential facilities.

For reason for disapproval is that there is no legal authority for the City Council to enact this ordinance insofar as it pertains to Boston Housing Authority (BHA) property. Nor is there authority for the council to direct owners of privately owned property, whether government subsidized or not, to undertake the actions stated in the ordinance.

In recognition of the importance of the issues raised in this ordinance and in order to seek alternative approaches for achieving its intent, the Mayor's staff has met with the City Council sponsors and with the advocacy group originator of the bill to explore the possibilities of a redraft of the ordinance for eventual re-submission to your Honorable Body. I have agreed to work with Councillors Bolling and Salerno, tenants of elderly and handicapped developments and with the leadership of the Massachusetts Senior Council to draft an

ordinance which would accomplish the intent of the ordinance which I am returning to you.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the ordinance referred to.)

Assigned for further action.

DISAPPROVING ORDER THAT INSPECTIONAL SERVICES DEPARTMENT INSPECT JAMAICA PLAIN STABLES AT WILLIAMS STREET

The following was received:

City of Boston
Office of the Mayor

October 14, 1988.

To the City Council.

Dear Councillors:

I return herewith, without my signature and disapproved, an order passed by your Honorable Body on September 28, 1988, which would order the Inspectional Services Department to inspect the Jamaica Plain Stables at Williams Street and to determine what improvements are necessary to bring the stables and buildings adjacent thereto into compliance with the State Building Code. The order also would require that the Inspectional Services Department provide that information, as well as an estimate of costs, to the Public Facilities Department and make such information available to all interested developers.

My reason for disapproval is that the City Charter prohibits the City Council from taking part in the executive or administrative business of the city. Ordering two city departments to take certain action constitutes taking part in such business. Under the Charter, executive and administrative authority rests with the Mayor.

In recognition of the fact that the Jamaica Plain Stables are an important part of the community, a series of meetings, in which community participation has been encouraged, have been held in an attempt to determine the best use of available resources. The city will continue to address the concerns of area residents as it moves forward in determining the most feasible use of this site.

Respectfully,

Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER THAT POLICE COMMISSIONER PROVIDE CITY COUNCIL WEEKLY REPORT WITH SPECIFIC CRIME STATISTICS

The following was received:

City of Boston
Office of the Mayor

October 14, 1988.

To the City Council.

Dear Councillors:

I return herewith, without my signature and disapproved, an order passed by your Honorable Body on September 28, 1988, which would order the Police Commissioner of the City of Boston to prepare and provide to the City Council each week a report with specific crime statistics and other information.

My reason for disapproval is that the City Charter prohibits the City Council from directly or indirectly taking part in the executive or administrative business of the city. Ordering the Police Commissioner to act in a certain way constitutes taking part in such business. Under the Charter, executive and administrative authority rests with the Mayor.

The Boston Police Department routinely provides a thorough report of its efforts to the community. For example, during the month of August well over 100 meetings were held between the department and community groups to ensure that the public had every opportunity to discuss matters of public safety with police officials.

In addition, the Council regularly avails itself of its ample opportunities to review public safety matters with police officials at Council hearings as well as at community meetings.

Respectfully,
Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

DISAPPROVING ORDER THAT COMMISSIONER OF INSPECTIONAL SERVICES ISSUE REGULATION REQUIRING OWNERS OF RESIDENTIAL PROPERTY PROVIDE SCREENS FOR ALL WINDOWS DESIGNED TO BE OPENED DIRECTLY TO OUTSIDE

The following was received:

City of Boston
Office of the Mayor

October 14, 1988.

To the City Council.

Dear Councillors:

I return herewith, without my signature and approved, an order passed by your Honorable Body on September 28, 1988, which would order the Commissioner of Inspectional Services to issue a regulation requiring the owners of residential property to provide screens for all windows designed to be opened on all floors opening directly to the outside from any dwelling unit or room units.

My reason for disapproval is that the order violates those provisions of the City Charter which prohibit the City Council from directly or indirectly taking part in the conduct of the executive or administrative business of the city. Ordering the Commissioner of Inspectional Services to act in a certain way constitutes taking part in such business. I am, therefore, required to disapprove this order.

Despite my disapproval of the order, I recognize the need to insure the safety of all city residents whenever and however we can. I, therefore, have instructed the Inspectional Services Department to prepare a regulation requiring screens in residential buildings for all windows opening directly to the outside from any dwelling unit or room unit. The regulation shall apply to all such windows on floors above those currently covered by the Sanitary Code regulation.

The order of September 28, 1988, contains a second "order" relating to the City Council's support of a bill to amend the State Sanitary Code. That expression of support is not an order and requires no action on my part.

Respectfully,
Raymond L. Flynn,
Mayor of Boston.

(Annexed hereto is the order referred to.)

Assigned for further action.

Raymond L. Flynn,
Mayor of Boston.

Whereas, The Company presently employs 295 persons and the Project, upon completion as projected by the Company, will provide employment for approximately 50 additional employees of the Company at the Project within the next two years, and thereby contribute to the alleviation of unemployment in the city, provide security against future unemployment and be of benefit to the economy of the city and the Commonwealth of Massachusetts; and

Whereas, The Company has undertaken to cooperate with public and community agencies engaged in manpower recruitment and training to pursue as a goal, to the extent consistent with state and federal law, and to the extent appropriate to this Project, the furnishing of at least 50 percent of new jobs and new hires at said Project to City of Boston residents of which at least 25 percent of new jobs or new hires to minorities and at least 25 percent of new jobs or new hires to women; and

Whereas, The financing in part or in whole of the Project through the issuance and sale of industrial development bonds is intended to be inducement for the Company to equip and retain the equipment and machinery constituting the proposed Project in the City of Boston for its benefit; and

Whereas, The Authority has adopted an initial favorable resolution with respect to this industrial development project and has indicated its willingness to finance the Project described above through a loan agreement and other financing document pursuant to the Act; and

Whereas, By adopting the order set forth herein or by taking other action in connection with the Project or the proposed bonds, the city does not and cannot provide any assurance that the Project or the Company is financially viable or sound, that amounts owing on such bonds will be paid, that any collateral which may be pledged to secure such bonds would be sufficient to repay the holders of such bonds in the event of default and foreclosure, or that interest on such bonds will be exempt from federal or Massachusetts income taxation; and neither the Company nor any prospective purchaser of such bonds nor any other person shall rely upon the city or the Authority with respect to such matters; and

Whereas, This Council has been advised that notice of a public hearing relating to the proposed issuance of industrial revenue bonds by the city, acting by and through the Authority, in an amount of approximately \$2,960,000 to finance the Project was published in *The Boston Herald* on May 30, 1988, and said public hearing was held on June 14, 1988, all as described in the public notice; now, therefore, be it

Ordered, That it is intended that this approval shall constitute "Official Action" toward the issuance of the aforesaid bonds to the extent, if any, required by section 144 of the Internal Revenue Code of 1986, as amended (the "Code"), and the approval required by section 147(f) of the Code and it is also the intent of this Council that this approval shall serve as an inducement for the Company to undertake the Project.

Referred to the Committee on Planning and Development.

QUESTION 1 REFERENDUM PETITION ON AN EXISTING LAW

Do you approve of a law summarized below, which was approved by the House of Representatives on May 20, 1987, by a vote of 93-58, and approved by the Senate on May 20, 1987, by a vote of 31-8? Yes ___ No ___.

SUMMARY

The law provides a salary increase, effective January 7, 1987, for the members of the legislature and certain constitutional officers of the Commonwealth.

Beginning at a base salary of \$30,000, each member of the legislature will receive a salary increase under the law equal to the compounded percentage increase in the salaries of full-time state employees who are subject to collective bargaining agreements between the Commonwealth and the ALLIANCE, AFSCME, SEIU, AFL-CIO in effect between January 5, 1983 and January 7, 1987. Thereafter the salaries of each member of the legislature will be increased by the same percentages as the salaries of full-time state employees subject to the collective bargaining agreements.

The law further provides that members of the legislature holding leadership position and committee chairmanships will receive an annual sum in addition to their salary. This additional amount will vary from \$7,500 to \$35,000 depending upon the particular position the member holds.

The law also increases the salaries of certain constitutional officers. Under the law the salary of the governor is set at \$85,000; the salaries of the lieutenant governor, state secretary, state treasurer and the state auditor are set at \$70,000; and the salary of the attorney general is set at \$75,000.

Any individual may waive his or her salary increase under this law. Any amount so waived shall not be deemed regular compensation for the purposes of computing any such person's benefits and shall be exempt from state taxation.

SUMMARY

The proposed law would repeal state law requiring that the wages, including payments to health and welfare plans, paid to persons employed in the construction of public works be no less than the wages paid locally under existing collective bargaining agreements and understandings, or by the municipality, for the same kind of work. Under the proposed law, the Commissioner of Labor and Industries would no longer set wage rates for such work or classified jobs.

The proposed law would also remove the Commissioner of Labor and Industries' authority to set the wage rates of employees of contractors who move office furniture and fixtures for the state or a county, city, town or district, and remove the Commissioner's authority to set the wage rates of operators of vehicles and other equipment engaged in public works.

The proposed law would not change the way wages are set for laborers employed by the state Department of Public Works and the Metropolitan District Commission.

Yes ___ No ___.

SUMMARY

The proposed law would require the Commissioner of the Department of Food and Agriculture to issue regula-

tions to ensure that farm animals are maintained in good health and that cruel or inhumane practices are not used in the raising, handling or transportation of farm animals.

The Commissioner would issue regulations, effective within four years after passage of the proposed law, about the surgical procedures used on farm animals, the transportation and slaughter of farm animals, and the diet and housing of those animals. The Director of the Division of Animal Health could issue exemption permits for a period of time up to one year and one-half to any farmer.

Under the proposed measure, an unpaid Scientific Advisory Board on Farm Animal Welfare comprised of veterinarians and animal scientists would also be established within the Department of Food and Agriculture. The Board would examine animal agricultural practices, issue for publication certain reports on farm practices, and make non-binding recommendations to the Commissioner about specific regulations. If appropriated by the legislature, the Board may allocate an annual sum of not more than ten cents per Massachusetts citizen to assist farmers in adopting methods which are consistent with the purposes of this law.

The Director of the Division of Animal Health would be responsible for enforcing regulations issued as a result of this proposed law. Persons who violate the new law would be punished by a fine of up to \$1,000.

ENDORISING EFFORTS OF COMMITTEE FOR QUALITY OF LIFE AND URGING BOSTON RESIDENTS TO VOTE "NO" ON QUESTION 2

Coun. SCONDRAS offered the following:

Whereas, All workers deserve the right to earn a decent wage rate; and

Whereas, Throughout the years workers and labor organizations have fought hard to ensure that a Prevailing Wage Rate be maintained and adhered to; and

Whereas, The principles behind the concept of the Prevailing Wage Rate have benefitted laborers and help to create a healthier and more cohesive economic atmosphere; and

Whereas, The Prevailing Wage Law is important in assuring that tax revenues pay for quality work; and

Whereas, A study by Data Resources of Lexington has concluded that "the only clear result of repealing the Prevailing Wage Law would be lower wages for Massachusetts residents" and notes that small businesses will suffer because lower wages mean less money spent in the community; now, therefore, be it

Resolved, That the Boston City Council, in meeting assembled, does hereby endorse the efforts of the Committee for Quality of Life and urges Boston residents to oppose the repeal of the Prevailing Wage Law by voting no on Question 2.

RESOLUTION OF CITY COUNCIL THAT BOSTON NOT PURCHASE TABLE GRAPES FOR USE IN CITY FACILITIES AS LONG AS BOYCOTT OF TABLE GRAPES CONTINUES

Coun. SCONDRAS offered the following:

Whereas, Cesar Chavez sustained a water-only fast from July 16, 1988, until August 21, 1988, as a personal prayer for purification and strengthening for all to bring attention to the terrible suffering of farm workers and their children; and

Whereas, By passing on his fast to others, Cesar Chavez is also passing on his anguish and pain over the increased cancer risk of farm workers; his agony over their pregnancies, miscarriages and deformed infants; and his shame, frustration and disappointment with those who continue to pour poisonous chemicals on the food of the farm workers harvest and which we eat in our own community; and

Whereas, Cesar Chavez also fasted as an act of penance for those who are bystanders but want to do more because they know the farm worker's demand is just, and as a declaration of noncooperation with the companies which promote, sell and profit from the contaminated grapes and that manufacture the pesticides; and

Whereas, Oil-based pesticides, which cannot be washed off, make up 30 percent of those used on grapes; and

Whereas, The City of Boston purchases table grapes for use in city facilities and at city functions; now, therefore, be it

1. Provide sufficient funding for the Building Commissioner to permanently employ an appropriately qualified engineer who can analyze groundwater table information, if such funding is not currently available.
2. Provide sufficient funding, in addition to funds currently available to the Boston Groundwater Trust from the Boston Redevelopment Authority and private sources, to allow the Trust to employ an engineering firm with expertise on the groundwater table to develop an early warning system for the city by identifying existing observation wells that can be opened and monitored and by identifying sites for new wells that are needed.
3. Charge the Building Commissioner with the responsibility to continue the research that has been done on this problem in other potentially problematic areas of the city.
4. Request of the Boston Groundwater Trust recommendations on actions the city can take to assist those who are damaged by groundwater table level reductions.
5. Submit to the City Council legislation that provides benefits to those who suffer damages resulting from reductions in the level of the groundwater table.

PAPER PRODUCTION UNDER WAY AT HYDE PARK PAPER, INC.

*North America's Oldest Paper Mill Up and Running Again
After Two-Year Shut Down.*

Hyde Park Paper, Inc., a new paper manufacturer, began making paper at North America's oldest paper mill, located in the Hyde Park area of Boston. This followed a ceremony to commemorate the revival of papermaking at the 188-year-old mill, which had been closed for the last two years.

"This is a great step forward for the workers, their families, and the Hyde Park community," Boston Mayor Raymond L. Flynn told those gathered at the ceremony. "It is also a critical step in our efforts to create a market for the paper we hope to recycle from the downtown business towers."

With the first of its two paper manufacturing machines now in operation, Hyde Park president David Weinstein said the company can begin filling orders "within days." The company will produce fine white printing paper, as well as recycled xerographic paper.

"This is a great day," said Weinstein. "Until it shut down in 1987, this mill had been run continuously since 1801. It is our hope that its doors will never close again."

James River, one of the world's largest paper manufacturers, had run the mill for four years before closing it in 1987. The company then leased the plant to Tennessee-based Nolicucky Corp.; however, management and financial problems kept it from reopening. Hyde Park Paper assumed the lease from Nolicucky late in 1988, and has been preparing to restart the plant since then.

"Today is the culmination of months and months of hard work by many people who shared our vision — of bringing innovation to a traditional industry," said Robert Macy, chairman of Hyde Park Paper. "Mayor Flynn and his staff, our friends at Boston Trade Bank, and the paperworkers' union were all tireless in their efforts to get this plant back up and running. They have every reason to share in this success."

HYDE PARK PAPER BACKGROUND

Hyde Park Paper, Inc. is a recently established company manufacturing paper at the former James River paper mill in the Hyde Park area of Boston. The plant covers ten acres of its twenty-two-acre site on the Neponset River.

Though it is the oldest operating paper mill in North America, the plant and its machinery have been continuously updated. Today, Hyde Park Paper is a state-of-the-art facility capable of producing high-quality papers that compare with the world's best.

The Hyde Park facility includes a de-inking plant, stock preparation area, two Fourdrinier paper machines, converting area, power plant, water filtration plant, warehouse and offices. It has the capacity to produce over 60,000 tons of uncoated free sheet annually.

While the Hyde Park plant will initially use pulp and white wastepaper as raw materials, the mill is equipped with one of the few de-inking plants in the nation, giving it the ability to utilize wastepaper, with or without ink, in the production process.

MBTA STUDY EXTENDING COMMUTER RAIL

Massachusetts Bay Transportation Authority (MBTA) General Manager Thomas P. Glynn announced that contracts have been approved to study the feasibility of extending MBTA commuter rail service on the Framingham line to Milford and/or Worcester and on the Stoughton Line to New Bedford and/or Fall River.

Glynn said, "The tremendous growth in commuter rail ridership in recent years and the need for a vital public transportation network during construction of the Central Artery lends strong support to the extension of commuter rail service wherever it is feasible."

The study of a commuter rail link between Framingham and Milford and/or Worcester is being carried out under a \$290,000 contract with Stone and Webster Civil and Transportation Services, Inc. of Boston. It is expected to be completed within six to eight months.

The line under study between Framingham and Worcester is along the Boston-Albany mainline, via Westborough. Limited service was operated by the Penn Central Railroad along this 43-mile, Boston-Worcester corridor until 1975. The line between Framingham and Milford is via Holliston.

The Stoughton to New Bedford and/or Fall River study, undertaken by Louis Berger and Associates, Inc. of Wellesley under a \$198,000 contract, is scheduled to be completed within six months. Service along the 56-mile Boston-Stoughton-New Bedford/Fall River corridor was operated by the Boston and Providence Railroad until 1958.

The feasibility studies include an analysis of potential ridership, station locations and highway access, required improvement to track, signal,

and communication systems, equipment needs, and related costs. Also included, is the study of the impact commuter rail operations would have on the environment, and socio-economic and land use concerns. The studies will also investigate the impact expanded bus service would have along the proposed rail corridors.

Ridership on the MBTA's commuter rail system has increased by 100 percent over the past five years, with over 35,000 people using the system each weekday. To accommodate this increase in demand, the Authority has purchased 289 commuter rail coaches, of which 107 are now in service. Remaining coaches will be placed into service as they are delivered, including seventy-five double deckers.

ABCD'S LEARNING CENTER APPRECIATION NIGHT

Over fifty volunteer tutors were recently honored at Action for Boston Community Development's (ABCD's) Annual Volunteer Appreciation Night.

"We are pleased to honor the tutors who spend many hours each week teaching adults and youths basic and life skills and preparation for the GED exam," remarks Robert M. Coard, ABCD's Executive Director.

That evening, the tutors received certificates from ABCD's Learning Center, as well as books donated from Walden Books and Barnes and Nobel. Refreshments were provided by the ABCD Culinary Arts Training Program.

Special guests included Gerald D'Amico, Director, Commonwealth Literacy Campaign; Theodore C. Landmark, Director, Mayor's Office of Jobs and Community Services, and Mary Ann Hardenbergh, Executive Director, Massachusetts Coalition for Adult Literacy.

The Learning Center, under the auspices of the ABCD Downtown Center for Jobs, Education and Career Training, is designed to help low-income youths and young adults improve their educational and vocational skills, as well as prepare for their GED exams. The program is designed so that students learn at their own pace, in an individual or small group setting. The center offers instruction during the day and

evening hours in order to accommodate students who work or have other time constraints.

ABCD is the largest human services agency in New England and Boston's antipoverty agency, with funding from a variety of sources totaling over \$30 million annually. The agency is a private, non-profit corporation established in 1962, with the majority of board members elected from Boston's neighborhoods through the decentralized ABCD neighborhood network.

MBTA INCREASES EXPRESS BUS FARES

The Massachusetts Bay Transportation Authority announced that cash fares on seventeen express bus routes will increase by approximately 25 percent, twenty-five to forty cents each way, based on distance traveled starting May 1, 1989. In addition, express bus service from the North Shore will be allowed to continue operation to Boston's Haymarket Station.

MBTA General Manager Thomas P. Glynn said, "This is the first fare increase since 1981. Since that time, the Authority has invested \$2.5 billion dollars in new facilities and vehicles, and has increased service by over 25 percent."

A rate of \$8 per inch of 12 lines (set solid) has been established for such advertisements as under the law must be printed in the City Record. Glynn said that the MBTA Board of Directors made the decision to establish a distance-based fare structure for express buses, to allow North Shore buses to continue to Haymarket Station, and to adjust the zone boundaries for Express routes in Lynn after considering comments made at public hearings held on March 21 in Boston and March 23 in Lynn. The MBTA Advisory Board, a fiscal watchdog organization made up of representatives of the seventy-eight cities and towns in the MBTA district, had requested that the Authority increase fares in order to cover at least 33 percent of the cost of operating service.

The MBTA had proposed to increase all express bus fares by forty cents and to reroute express bus routes 44 (Lynn) and 441/442 (Marblehead) to terminate at Wonderland Station in Revere; and 400 (Lynn), 450 (Salem), and 455 (Salem) to terminate at Wood Island Station in East Boston. Both stations are on the Blue Line.

Presently, Express buses (300 and 400 series routes) travel a maximum of three zones, and are priced at \$1.25, and \$1.50, based on distance traveled. As approved, the approximately 25 percent increase would price the routes at \$1.25, \$1.65, and \$1.90 respectively. In addition, the zone boundaries on North Shore routes (400 series) have been adjusted, making Central Square and Washington Street in Lynn the line between \$1.65 and \$1.90 fares: south of and including Central Square and Washington Street in Lynn, the new fare is \$1.65; north of those points the new fare is \$1.90.

As a result, on routes 400/455, 426 and 400/441/442, fares for passengers boarding in Lynn, up to Central Square will be \$1.65; and for passengers boarding north of Central Square in Lynn, and beyond (route 426 ends at Central Square), the new fare will be \$1.90. On route 450, passengers boarding in Lynn up to and including Washington Street, the new fare will be \$1.65; boarding in Lynn north of Washington Street the new fare will be \$1.90.

Bus routes affected by a twenty-five cent increase are 325 (Medford), 326 (West Medford), 301 (Brighton Center), 302 (Watertown), 304 (Watertown), 304A (Newton Corner). Fares on \$ buses will increase to \$1.25.

Bus routes affected by a forty-cent in

crease are: 300 (Riverside), 305 (Wal-tham), 352 (Burlington), 353 (Burlington), and 354 (Woburn). Fares will increase on \$1.50 buses to \$1.90 (ten ride tickets will increase from \$14 to \$18).

Also starting May 1, the cost of to-kens will increase from sixty cents to seventy-five cents for Red, Blue, Or-ange line rapid transit and Green Line subway service. Fares from Newton on the Riverside Line will increase from \$1.50 to \$1.75; a new ninety-cent Green Line fare will be instituted for local New-ton service.

The MBTA's monthly pass program is currently being revised, with the new program expected to be in place by July 1, 1989. Until that time, passengers may continue to buy their regular monthly pass.

Fares on the MBTA commuter rail system were increased by forty cents to seventy-five cents, starting March 1 for cash fares, and April 1 for monthly passes.

The fare for local and zoned bus serv-ice will not be affected by these changes.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

ASSESSING DEPARTMENT Consultant Services

Dear Mr. Mayor:

On June 13, 1988, your Honor approved the award of a contract, without public advertising, to Thomas L. Jacobs, 230 West Monroe Street, Illinois. This contract is for professional services as a consultant to the Assessing Department for the period of July 1, 1988, through June 30, 1989, at a cost not to exceed \$60,000.

Your approval is requested to amend this contract to provide additional services required by the Assessing Department consisting of: oversee the development of the valuation standards unit in re-search and development of residential and com-mercial value tables (standards); design new man-agement controls over processing of changes in property data and assessments; assist in design of new CAMA system procedures for commercial and industrial property.

Therefore, the Assessing Department re-quires an expansion of the contractor's services.

The cost of this amendment, which is effective March 15, 1989, shall not exceed \$21,500, which I have deemed to be reasonable. The contract as amended, shall not exceed \$81,500. The rate of compensation shall remain unchanged. The con-tractor shall be allowed additional reasonable ex-penses of not more than \$6,000, which shall be in-cluded in the total contract price.

The term of the contract shall remain un-changed.

Because of the professional and technical na-ture of the services to be provided, the need to mon-itor and improve all assessment techniques and standards, and because this is an amendment of a previously approved contract, I believe that public advertising would serve no useful purpose.

Sincerely,
Thaddeus, J. Jankowski, Jr.,
Commissioner.

JOB AND COMMUNITY SERVICES

Educational Services

Dear Mayor Flynn:

On or about October 10, 1988, your Honor ap-proved the award of a contract to the Cardinal Cushing Center, a nonprofit corporation, located at 1375 Washington Street, to provide alternative ed-ucational services leading to a high school diploma or a General Equivalency Diploma for City of Boston high school dropouts. Compensation was for an amount not to exceed \$33,750, payment be-ing made from funds set aside for the Alternative Education Initiative for the period July 1, 1988, through June 30, 1989.

Your approval is requested to amend this con-tract in terms of compensation. The purpose of this amendment is to increase the contract amount to allow the contractor, to provide alternative edu-cational services to eight additional participants re-siding in the Mission Hill area. Funding will be pro-vided through the Alternative Education Initiative in the amount of \$22,500. Total compensation under the terms of this contract, as amended, shall not exceed \$56,250. All other terms and conditions of the original contract shall remain the same.

As this is a negotiated contract amendment at a reasonable cost, I believe that public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landmark,
Director.

LAW DEPARTMENT

Legal Intern Services

Dear Mr. Mayor:

On June 27, 1988, your Honor approved an award of a contract, without public advertising, for bids to Thomas Tretter, an individual located at Dedham, for services to the Law Department as a legal intern during the period July 1, 1988, through June 30, 1989.

Your approval is requested to amend this con-tract to ensure Mr. Tretter's continued services in the Law Library. This amendment is necessary due to the fact that he will have worked more hours over the term of his contract than were originally anti-cipated.

The cost of this amendment, which is effective February 22, 1989, shall not exceed \$3,000, which I have deemed to be reasonable. The contract as amended, shall not exceed \$8,000.

Because of the professional nature of the serv-ices to be performed, I believe that public advertis-ing would serve no useful purpose.

Very truly yours,
Joseph I. Mulligan,
Corporation Counsel.

PUBLIC FACILITIES DEPARTMENT

Playground Renovations

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Com-mission on January 12, 1989, I respectfully request

your Honor's written permission to dispense with public advertisement and amend a contract ap-proved by your Honor on May 12, 1988, to Quincy School Community Council for renovations to a playground under the Grassroots Program during the period July 15, 1988, to June 30, 1989, at a cost not to exceed \$12,000.

Your approval is requested to amend this con-tract to provide for additional costs necessary to enable the playground to serve more children. These costs include the installation of additional play equipment, protective fencing and shrubs.

The cost of this amendment shall not exceed \$10,000, which I have determined to be reason-able. The contract, as amended, shall not exceed \$22,000. The period of performance, as amended, shall be from July 15, 1988, to December 30, 1989.

Because of the professional nature of the serv-ices to be provided, and the qualifications of the contractor, I believe that public advertising would serve no useful purpose in this instance.

Sincerely,
Lisa G. Chapnick,
Director.

City Hall Waterproofing

Dear Mayor Flynn:

Under delegation from the Public Facilities Com-mission to the Director of the Public Facilities De-partment, dated November 19, 1987, I respectfully request your Honor's written permission to dis-pense with further public advertisement and amend a contract approved by your Honor on Feb-ruary 3, 1987, awarded to Bayside Engineering As-sociates, Inc. with offices at 803 Summer Street, South Boston, for the design of City Hall Water-proofing Phase II including reroofing, terrace re-pairs, and miscellaneous waterproofing. The cost of this amendment shall not exceed \$7,000. The amended cost of this contract shall not exceed \$108,800 (including \$32,300 for Supplementary Services) which is a fixed fee of 9 percent based on an estimated cost of construction of \$850,000.

Said amendment is necessary due to the in-creased scope of service required of the designer. Under the terms of the amended contract, Bayside Engineering Associates, Inc. shall provide addi-tional hygienist services required to monitor asbes-tos containment during construction. The disrup-tion of asbestos was not expected prior to the start of construction.

In view of the technical and professional nature of the services required, the expertise and fami-liarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no use-ful purpose in this particular instance.

Sincerely,
Lisa G. Chapnick,
Director.

Fire Department Renovations

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Com-mission on January 12, 1989, I respectfully request your Honor's written permission to dispense with further public advertisement and amend a contract approved by your Honor on August 8, 1988, awarded to Ganteaume & McMullen, Inc., with of-fices at 99 Chauncy Street, for the design of re-novations to eleven Fire Department buildings. The cost of this amendment shall not exceed \$42,313. The amended cost of this contract shall not exceed \$162,332 (including \$35,000 for supplementary services) which is a fixed fee of 13.127 percent

based on an estimated cost of construction of \$970,000.

Said amendment is necessary due to the increased scope of service required of the designer. Under the terms of the amended contract, Ganteaume & McMullen, Inc. shall provide additional services including design of replacement of overhead doors, chain link fence, windows, existing doors, and replacement of the roof in some sites in lieu of roof repair; also, structural repair to various sites, additional security improvements, masonry repair and retaining wall.

In view of the technical and professional nature of the services required, the expertise and familiarity of the designer with all existing conditions, and the reasonable cost of such services, it is my view that further public advertising would serve no useful purpose in this particular instance.

Sincerely,
Lisa G. Chapnick,
Director.

SCHOOL DEPARTMENT
Teacher Training, etc.

Dear Mr. Mayor:

On August 31, 1988, your Honor approved an award of a contract without public advertising for bids, to Brown Bag Opera, Inc., located at Newton Centre, for performances, teacher training, and instructional materials for the chapter 636 program during the period from September 15, 1988, to June 15, 1989, at a cost not to exceed \$15,000.

Your approval is requested to amend this contract to provide for an additional series of three presentations at four schools. The cost of this amendment, which is effective on February 27, 1989, shall not exceed \$5,000, which I have determined to be reasonable. The contract, as amended shall not exceed \$20,500 and the period of performance shall not be extended.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by public advertisement for bids.

The agreement is to be executed, without an appropriation of funds, under provisions of General Laws, chapter 44, s. 53A and is subject to the receipt of funds under grant from chapter 636.

Very truly yours,
Laval S. Wilson,

CONTRACTS AWARDED AFTER ADVERTISING ("Requests for Qualifications") ("Requests for Proposals") ("Technically Deficient Bids")

The Mayor has approved the awarding of the contracts based on the following communications:

PARKS AND RECREATION DEPARTMENT

Management, Training and Development

Dear Mayor Flynn:

The Boston Parks and Recreation Department respectfully requests your Honor's permission to award a contract to Evergreen Training and Development Inc., Groveland. Under the terms of the contract, the contractor will assist the Parks and Recreation Department in providing services for management training and development.

The Parks and Recreation Department publicly advertised a Request for Proposals in the *City Record*, December 12, 1988 and December 20, 1988, to provide management training and development for managers in the Boston Parks and Recreation Department. The contract was competitively awarded, by means of a RFP, prebid conference, and the active solicitation of proposals. Five firms responded to the request for proposals. After reviewing the proposals and numerically rating each firm, the top four firms were selected for interviews by departmental officials participating in the selection process. Evaluation criteria included cost and quality of the consultant's experience, expertise in management training, MBE/WBE Enterprise, overall content and quality of the proposal, qualification of the staff, and the degree and depth of understanding expressed by the companies in responding to the scope of services detailed in the RFP.

Evergreen Training and Development Inc. was rated the highest and their previous experience consulting with both public and private sector organizations in management training programs made them uniquely qualified for this program. Their response to the RFP and questions from the selection committee deemed them the best choice to implement this aggressive training program.

Compensation under the terms of this contract will not exceed \$29,232. Services will be rendered at the following hourly rates: \$100/principal staff and senior consultants; \$25/support staff and clerical support. Payment for these services will be made from appropriations code 011-300-0301-0290-PK01 and the period of performance will be from March 1, 1989, through June 30, 1989.

Based upon an extensive review of proposals submitted for consideration, I respectfully request your Honor's permission to award this contract to Evergreen Training and Development, Inc.

Sincerely,
William B. Coughlin,
Commissioner.

Instructional Services

Honorable Raymond L. Flynn, Mayor.

On August 23, 1988, your Honor approved an award of a contract without public advertising for bids, to Boston College, located at 140 Commonwealth Avenue, Chestnut Hill, for instructional services within the Parent Information Center chapter 636, Area B, during the period from September 1, 1988, to June 30, 1989, at a cost not to exceed \$70,567.

Your approval is requested to amend this contract to provide for consultants who will train teachers of linguistic minority students. The focus will be on understanding linguistic minority students and using methodologies that facilitate academic learning. The cost of this amendment, which is effective on February 13, 1989, shall not exceed \$8,000, which I have determined to be reasonable. The contract, as amended, shall not exceed \$78,567 and the period of performance shall not be extended.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by public advertisement for bids.

This agreement is to be executed, without an appropriation of funds, under provisions of General Laws, chapter 44, s. 53A and is subject to the receipt of funds under grant from chapter 636.

Very truly yours,
Laval S. Wilson,
Superintendent.

RAYTHEON RECEIVES UNITED WAY OF AMERICA "SUMMIT AWARD"

Before the start of last year's United Way campaign, employees at Raytheon Company learned a lesson about the facts of life.

"I wanted to open up our people's eyes and touch their hearts," said James R. Rudnik, who served as the 1988 United Way campaign chairman for Raytheon. "I wanted to show them how their money is used to help so many needy people in the world today. My plan was to teach them what the United Way is all about."

Rudnik's aim was right on target. That became most evident recently when Raytheon was chosen as a Summit Award recipient in the Employee Education category by United Way's National Corporate Leadership "Spirit of America" selection committee.

"Raytheon really knows how to get the United Way message across to its people," said Mike Wargo, director of operations, National Corporate Relations Division, at the United Way of America, located in Alexandria, Virginia. "Raytheon informs them about what United Way services are available to them in the community. Raytheon has always shown a strong commitment to employee education and is most deserving of this prestigious award."

Judi VonDohlen, employee programs manager at Digital Equipment Corporation in Maynard, who was one of the judges on the selection committee, added, "There were some excellent organizations from all across the country competing for this award. But Raytheon was just a cut above the rest."

Rudnik devised various ways to educate his co-workers about the United Way throughout the campaign. He got things rolling right from the beginning by inviting three local United Way agency leaders — Rose Mary Kirwin, community programs director of DOVE (Domestic Violence Ended), Barbara Whelan, executive director of Bridge Over Troubled Waters (serving runaways and street youths), and Lt. Colonel Donald Seiler, divisional commander

of the Salvation Army — to speak to his key campaign people nationwide at Raytheon's headquarters in Lexington.

"All of the United Way speakers were very good," said Rudnik, who is manager of discretionary resources at Raytheon's Equipment Division in Marlborough. "They certainly got our people's attention by the stories they shared with us. Rose Mary Kirwin read us a poem written by an eleven-year-old girl, who graphically described what it's like to live in an atmosphere filled with domestic abuse."

"I end most of my presentations with that poem because it's so powerful," said Kirwin. "It shows the magnitude of the problems that happen at home and the little power children have."

Said Rudnik, "The goal at the kickoff meeting was to make our key campaign people aware of what the problems were in our society, and how they could use them in informing other people. We wanted them to become familiar with the issues affecting so many people every day, and how the United Way helps them."

Rudnik's plan worked to perfection. Raytheon concluded its 1988 companywide United Way campaign with a record \$6.9 million in employee contributions, an increase of nearly half a million dollars over the previous year. The company and its subsidiaries added \$1.5 million in corporate gifts to the employee campaign, making Raytheon's total donation nationwide \$8.4 million.

Raytheon employees in New England raised \$4 million, tops in the region. Combined with a \$1 million corporate gift, Raytheon's overall United Way contribution in New England was \$5 million. The largest share of this contribution went to Massachusetts.

"The money we've raised reflects the hard work of the many Raytheon people who organized and ran the individual drives at our various plants across the country," said Rudnik. "They did a tremendous job in arranging fun events for employees around United Way, as well as making the extra effort to educate people about the United Way agencies their dollars support."

In addition to the financial contribution, last year, nine current and retired Raytheon employees served as full-time Loaned Executives to the United Way. (Loaned Executives leave their regular jobs for three months to devote their full efforts to help plan and implement United Way employee fund-raising campaigns. Their salaries are paid by their employers while they work at the United Way).

Raytheon is a diversified company with international sales in electronics, aviation, appliances, industry services, construction and publishing. The company, which employs 76,000 people worldwide and 31,000 in Massachusetts, has been actively supporting the United Way for more than four decades.

"Raytheon has made a traditional, long-standing commitment to its local communities through the United Way," said Richard Brothers, assistant vice-president of United Ways of Eastern New England. "Last year, Jim Rudnik's goals were to increase participation, and raise awareness of what the United Way does in every-

body's community — and he did just that."

Rudnik is delighted that Raytheon won the "Spirit of America" Summit Award, but he refuses to have the spotlight shine solely on him. "I'm very proud of what we accomplished," he said. "There's no way I could have done it myself. It took a lot of time and effort by many people to achieve what we did. Teamwork was a big factor in our success."

Asked what advice he would give Joan E. Hill, Raytheon's 1989 United Way campaign chair, and the first woman to hold such a position for the company, Rudnik paused a moment to collect his thoughts.

"Joan is very fortunate to have the support of our chairman and chief executive officer, Thomas L. Phillips," said Rudnik. "My best advice to her is to start early because running a campaign takes more effort than you realize."

"The thing you're always looking for is new resources to support the increasing needs of so many people. When it comes to the less fortunate, we all try our best to make their lives a little bit better."

"Once you've seen someone in a Salvation Army kitchen who hasn't had enough to eat, you know you want to give," said Charles F. Adams, former chairman of the board and chief executive officer of Raytheon, whose father, the late Charles Francis Adams, was "Founding Father" and first President of the United Way of Massachusetts Bay (one of twenty-three members in the UWENE family).

"Once you hear the problems other people have — violence in the home, alcoholism, children without parents — it leaves you motivated to help."

Highlights of Proposed MBTA Pass Program

Passengers requiring a local bus transfer to a zoned service will be required to purchase a pass with the face value at least equal to the price of the greatest fare. This rule will allow the new combination

passes to be valid on local bus routes through out the MBTA district, without exception. This provision essentially extends the same privilege for all valid bus passes for unlimited transfers to local bus services as currently allowed with the Local bus pass.

Commuter rail zone 1 and 2 passes will be applied to the \$1.65 and \$1.90 Express Bus services, respectively.

The basic four passes which will satisfy the need of approximately 95 percent of all pass program participants outside of commuter rail will be designated as follows:

\$0.50 Local Bus

Valid for all local trips on bus routes and surface stops on Green Line

\$0.75 Subway

Valid at all Red, Blue, Orange, and Green Line stations and stops except for Newton Green Line stops and Braintree, Quincy Adams, and Quincy Center Red Line stations.

\$1.25 Bus and Subway

\$1.25 Express Bus

Valid for all services covered by the local bus and subway passes above, the \$1.25 Express Bus routes, Quincy Center station, and Newton Green Line Stops.

\$1.50 Bus and Subway

**MBTA MAKES PASSES
EASIER, BETTER**

General Manager Thomas P. Glynn has announced that the MBTA's Pass Program has been redesigned to make it more "user friendly." When the new program and prices go into effect on July 1st, there will be three basic passes used by over 90 percent of the MBTA's customers: a local bus pass, a subway pass, and a combination pass.

— The local bus pass will continue to cost \$18 per month and can be used by passengers riding at street level on the Green Line.

— The subway pass will cost \$27 each month, and can be used by Red (except Quincy, Quincy/Adams, and Braintree), Blue, Orange and Green line riders (except Newton stops), as well as Commuter Rail passengers in Zones 1A and 1B.

— The combination pass will allow you to use all local buses, the majority of the subway system (except Quincy/Adams and Braintree) and certain Express Buses for \$40 a month.

A fourth pass, costing \$48 per month, will let you use all local buses, the entire subway system, and certain express buses.

The MBTA is also designing incentives for riders to use its popular Pass Program.

"Sizzlin' Summer"

For a special two-month trial period, in July and August, any T pass can be used anywhere on the system on week-

ends. That means you can go to the beach or the Boston Pops, a lake or museum — any town where the T takes you, as long as you have a pass — any pass — for *no additional charge*. Your pass allows you to hop a trolley, bus, or commuter rail train.

— Hike or picnic at the Blue Hills Reservation in Canton via commuter rail.

— Swim and sun at Singing Beach in Manchester.

— Attend a free concert or dance performance on the Esplanade — a short walk from the Green Line.

— Tour historic Pickering Wharf, view local artists at Bearskin Neck and visit other tourist attractions after a leisurely ride on the North Shore Purple Line.

— Visit the Children's Museum, the Institute of Contemporary Art, the Museum of Science and all the other cultural attractions in Boston.

*Save Time and Money —
Buy a Pass Once a Year*

Regular riders never have to worry about forgetting to purchase a pass before the first of each month. The T has made it easy to purchase one pass good for the entire year. That means you are guaranteed the yearly discount on your car insurance. Your Annual Pass will arrive in the mail each month and is one less thing to remember in your busy schedule.

Best of all, if you buy an Annual Pass during from now through December 1989, you can pay current rates for twelve months from the date of purchase. The price increases on Annual Passes do not go into effect until January 1, 1990 — another bargain!

Monthly passes are sold the last four and first two business days of each month at Downtown Crossing, Government Center and Harvard stations, selected post offices, banks and other retail outlets. For additional information about the monthly pass program, passengers should call the MBTA's Pass Program at 722-5219.

**ABCD'S LEARNING CENTER
VOLUNTEER APPRECIATION NIGHT**

Over fifty volunteer tutors were recently honored at Action for Boston Community Development's (ABCD's) Annual Volunteer Appreciation Night.

"We are pleased to honor the tutors who spend many hours each week

teaching adults and youths basic and life skills and preparation for the GED exam," remarks Robert M. Coard, ABCD's Executive Director.

That evening, the tutors received certificates from ABCD's Learning Center, as well as books donated from Walden Books and Barnes and Nobel. Refreshments were provided by the ABCD Culinary Arts Training Program.

Special guests included Gerald D'Amico, Director, Commonwealth Literacy Campaign; Theodore C. Landsmark, Director, Mayor's Office of Jobs and Community Services, and Mary Ann Hardenbergh, Executive Director, Massachusetts Coalition for Adult Literacy.

The Learning Center, under the auspices of the ABCD Downtown Center for Jobs, Education and Career Training, is designed to help low-income youths and young adults improve their educational and vocational skills, as well as prepare for the GED exams. The program is designed so that students learn at their own pace, in an individual or small group setting. The center offers instruction during the day and evening hours in order to accommodate students who work or have other time constraints.

CONTRACTS AWARDED WITHOUT ADVERTISING

The Mayor has approved the awarding of contracts without advertising, based on the following communications:

ASD PURCHASING DIVISION Pneumatic Life Cube

Dear Mr. Mayor:

I respectfully request your permission to award a contract, without public advertising, to Fire Service Institute, Inc., Concord, New Hampshire, to provide a pneumatic life cube (CC: 340-24) to the Boston Fire Department.

The pneumatic life cube is a life-saving device which is used in extremely life-threatening situations such as hi-rise building fires which require people to jump, or in suicide attempts.

The item has many features which make it a beneficial acquisition to the Boston Fire Department: (i) it is lightweight and can be deployed with thirty seconds; (ii) it is portable when inflated, and flexible enough to be easily passed through small openings, allowing access to courtyards and other narrow enclosures.

Fire Service Institute has allowed Rescue 11 Company of the Fire Department to test the item for sixty days, and Fire Commissioner Stapleton, his officers and fire fighters have been pleased with the results.

Inasmuch as Fire Service Institute is sole supplier of this particular life-saving device, no useful purpose would be served by public advertising. Accordingly, your permission is requested to award a contract to Fire Service Institute, Inc., in an amount not to exceed \$6,220 net, a cost I consider reasonable.

Respectfully yours,
O. Tony Streeter, Jr.,
Purchasing Agent.

JOBS AND COMMUNITY SERVICES Education Classes, Tutorial and Counseling Services

Dear Mayor Flynn:

I respectfully request your Honor's permission to award a contract to Roxbury Community College, an accredited Commonwealth of Massachusetts educational institution, located at 1234 Columbus Avenue. Under the terms of the contract, the contractor will provide adult basic education classes, tutorial and counseling services for employees of the Boston City Hospital and University Hospital.

The Mayor's Office of Jobs and Community Services (JCS) was asked by the Executive Office of Economic Affairs/Office of Training and Employment, now the Commonwealth of Massachusetts/Department of Employment and Training, to administer its Workplace Education Grant. This project represents a joint collaboration by the Executive Office of Labor, Commonwealth of Massachusetts/Department of Employment and Training, Department of Education, and the Commonwealth Literacy Campaign, and has been administered by JCS for the Boston Service Delivery area on behalf of the state for the past year. The contractor was selected based upon its refunding proposal submitted to the state in the areas of contractor's performances during the prior contract period, administrative capability, reasonableness of cost, and the ability to serve the targeted population.

Compensation under the terms of this contract

shall not exceed \$41,523, payment being made from funds provided by the state to the City of Boston through the Workplace Education Grant. The period of performance shall be from September 12, 1988, until June 30, 1989. This contractor has had a contract with this agency for this program for the previous fiscal year (FY 88) at the funding amount of \$43,500. The submission of this letter has been delayed due to administrative oversight related to staff turnover at JCS, and due to the late notification of funding availability from the state.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose.

Sincerely,
Theodore C. Landsmark,
Director.

PARKS AND RECREATION DEPARTMENT Parks Water Systems Designs

Dear Mr. Mayor:

You are respectfully notified that advertised proposals for designer qualifications for design work for new water systems at Columbus Park, Hunt Playground, Daisy Field and Ross Field were advertised in the *City Record* on October 31, and November 7, 1988. Proposals were received in this office on November 17, 1988.

Five firms submitted design proposals which were received and numerically rated by the department's Designer Selection Board. The ratings were based on place or office, professional strength, quality of work and experience with municipal contracts. The firm of Bryant Associates, Inc., 648 Beacon Street, was selected as the designer for new water systems at Columbus Park, Hunt Playground, Daisy Field, and Ross Field, during the period January 9, 1989, to September 4, 1989.

Compensation under the terms of this contract will be \$8,298, which is 9.22 percent of the estimated cost of construction of \$90,000 for basic design services, with an additional \$10,000 available to cover supplemental design services. Payment for these services will be made from appropriation code 6S2-300-6670-0725 shall not exceed \$18,298 (including \$10,000 for supplementary design).

Bryant Associates, Inc. is qualified to perform the services proposed. The compensation to be paid the firm is fair and reasonable and conforms with the rate paid for similar professional services in the Boston area.

Your approval is respectfully requested to award this contract to Bryant Associates, Inc. for the sum not to exceed \$18,298.

Very truly yours,
William B. Coughlin,
Commissioner.

POLICE DEPARTMENT

Dear Mayor Flynn:

I respectfully request your Honor's permission to dispense with public advertising and to award a contract to Cole Publications, a corporation, located at Plainville, for the rental of the 1989 Blue Book Cross Reference City Directories.

Under the terms of the contract, the contractor will provide the Police Department with the 1989 editions of the Blue Book Cross Reference City Directories. The directories to be supplied will include Boston-Central, Boston-North, Boston-South and Boston-West. These directories are a vital investigatory tool used by the detective, security alarm, licensing and operations units within the Police Department.

corporation, with offices at 286 Congress Street, providing continuation of design services for renovations and repair to Franklin Park Garage, Maintenance Building, and Croton Greenhouse. The scope of work will include preliminary drawings, design development, working drawings and construction supervision.

Compensation under this contract shall not exceed \$237,100 (including \$60,000 for supplementary services) which is a fixed fee of 11.5 percent based on an estimated cost of construction of \$1,540,000, which I have determined to be a reasonable cost for the work to be performed. The term of this contract shall be for 104 weeks from the date of execution.

Sterling Associates, Inc. has successfully completed a master plan for the greenhouse complex. They have also completed the design for one greenhouse. It has since become necessary to design renovations for a second greenhouse.

Accordingly, the qualifications of the above-mentioned firm have been reexamined by the Public Facilities Department Designer Selection Committee pursuant to M.G.L. c. 7, s. 38I. It has been determined that it is in the best interest of the City of Boston to continue the services of this firm.

I believe Sterling Associates, Inc. is qualified to perform the services required.

In view of the technical and professional nature of the services, and the selection process used, it is my judgment that further public advertising would serve no useful purpose in this instance.

Sincerely,
Lisa G. Chapnick,
Director.

PUBLIC FACILITIES DEPARTMENT Renovations and Repairs to Buildings

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on December 22, 1988, I respectfully request your Honor's written permission to dispense with further public advertisement and award a contract to Sterling Associates, Inc., a Massachusetts

Cole Publications is uniquely qualified to provide this service because it is the sole nationwide manufacturer and distributor of this product.

Compensation under this contract shall not exceed \$6,294, which I have determined to be reasonable for the service to be performed. The funding will be charged against appropriation 011-211-0211-PD03-0490 with an initial encumbrance of \$6,294. The term of this contract shall be from April 1, 1989, through June 30, 1989. Cole Publications had a contract with the Boston Police Department in FY'88 for \$8,578.

In light of the fact that Cole Publications is the sole manufacturer and distributor of this product in the nation, it is submitted that public advertising would serve no useful purpose.

Respectfully,
Francis M. Roache,
Police Commissioner.

Modular Housing Awards

Dear Mayor Flynn:

Pursuant to a vote of the Public Facilities Commission on November 10, 1988, I respectfully request your Honor's written permission to dispense with public advertisement and award a contract to Boston Society of Architects, a Massachusetts corporation, located at 305 Newbury Street. Under the terms of this contract, the contractor will administer the Modular Housing Competition awards.

Compensation under this contract shall not exceed \$37,000, which I have determined to be a rea-

sonable cost for the services to be performed. The term of this contract shall be from January 10, 1989, to June 1, 1989. Funds for this contract shall come from those received under the Challenge

Grant program, and from Project 747 funds. The contractor is the only local nonprofit organization, with the capability and expertise in architectural competitions needed for this contract. Costs were determined to be reasonable since the contractor has agreed to lower their usual fee of 10 percent of the amount to be awarded to 2.5 percent for the Public Facilities Department.

As this is a negotiated contract at a reasonable cost, based upon an extensive program and proposal review, I believe that public advertising would serve no useful purpose. I, therefore, request permission to dispense with inviting sealed bids in the *City Record*, pursuant to authority granted under the City of Boston Code, St. 4, s. 5. This request has been delayed due to the time necessary for the contractor to complete the contract documents.

Sincerely,
Lisa G. Chapnick,
Director.

Emergency Underground Ruptured Oil Tank

Dear Mayor Flynn:

On October 31, 1988, the Public Facilities Department was notified of an emergency situation regarding a ruptured underground oil tank at 43 Hawkins Street, a city-owned building. The leaking oil poses a threat in the Edison manhole at the downtown substation with the potential threat of explosion. The Department of Environmental Quality Engineering has ordered the immediate pumping and removal of the tank. Clean Harbors, Inc., a company normally engaged in this type of service, was called in to correct the situation by excavating, clean, pack with dry ice and slurry fill the tank with a lean mixture of concrete and to remove any accessible contaminated soil pack and dispose of properly, backfill the excavated area with clean soil and level on grade.

Therefore, in accordance with Massachusetts General Laws chapter 30, section 39M, I request your written approval to award a contract to Clean Harbors, Inc. of Braintree, for a sum not to exceed \$10,000.

Sincerely,
Lisa G. Chapnick,
Director.

PUBLIC WORKS DEPARTMENT Snow Removal

Dear Mr. Mayor:

On January 21, 1988, his Honor, the Mayor, approved the award of a contract based on public advertising for bids to Brockton Excavating Contractors, Inc., for removing snow and furnishing labor and equipment for the purpose of supplementing the department forces and equipment in connection with the work of keeping the highways and streets open following snowstorms in District 1A, SC-7696(88), at a cost not to exceed \$100,000, for the period November 15, 1987, to April 30, 1988.

This contract contained an option to renew clause which allows the city to obtain the same services this year as last, at last year's prices, which I believe will result in a substantial savings to the city, and would be performed by a contractor well qualified and familiar with the area of work.

For the reasons stated above and since public advertising would serve no useful purpose, I respectfully request your Honor's permission to dis-

Removing Refuse

Dear Mr. Mayor:

In conjunction with the Waste Management of Mass., Inc., contract for collecting and removing refuse SC-7300(89), paragraph 13.10, section 2(f), in accordance with the specifications of the said refuse contract, the contractor is obligated to furnish plowing vehicles (50 percent for every vehicle used for collecting and refuse removal) to be used for plowing operations during the snow season.

With regard to the foregoing, I respectfully request permission to dispense with public advertising and to award a contract to Waste Management of Mass., Inc., a corporation, located at South Boston, for furnishing trucks for plowing operations during the snow season in various districts in the City of Boston.

The contractor is specifically qualified to do this work because it is relative to the above-mentioned contract for refuse collection and removal.

Compensation under this contract shall not exceed \$9,000, to be paid at an hourly rate of \$98.05 for each three-axle truck and \$85.90 for each two-axle truck utilized during plowing operations, and which I have determined to be reasonable for the work to be performed. The term of this contract shall be from November 15, 1988, to April 30, 1989.

Because this work is relative to and in conjunction with another existing contract, and due to the reasonable cost of the services, I believe that public advertising would serve no useful purpose.

Very truly yours,
Joseph F. Casazza,
Commissioner.

SCHOOL DEPARTMENT Various Educational Materials

Dear Mr. Mayor:

I respectfully request your Honor's permission to dispense with public advertising and award contracts to companies listed on the attached for the period July 1, 1989, through June 30, 1992.

Under the terms of these contracts, the contractors will provide books and certain other educational materials as requested by a designated representative of the Boston Public Schools. The cost of all items purchased under these contracts will not exceed standard catalog prices then in effect, which the Business Manager considers reasonable. The total amount of the contract for all companies shall not exceed \$6,000,000 per year.

Because of the ongoing need to provide the Boston Public Schools with books and certain other educational materials, and because textbooks and certain other educational materials are unique to a particular publisher, it is my opinion that advertising for bids would serve no public purpose. The attached list of book vendors represents a comprehensive collection of the places from which Boston Public Schools are buying educational materials.

Your approval is hereby requested to award contracts to the firms listed on the attached award letter for the period of July 1, 1989, to June 30, 1992, inclusive.

The Auditor may certify an appropriation or other funds in an amount less than the face amount of each contract hereunder pursuant to the Standard Contract General Conditions, Article 12.3 and 12.4.

Very truly yours,
Leo J. Burke,
Business Manager.

Teacher Training, etc.

Dear Mr. Mayor:

As superintendent of the Boston Public Schools,

I respectfully request your authorization for the award of a contract to Boston Area/Educators for Social Responsibility, a corporation located at Cambridge.

This contract shall be in effect during the period March 1, 1989, to June 30, 1989, and shall occur at a cost not to exceed \$18,500, which I have deemed to be reasonable.

Under the terms of this contract, the contractor will provide teacher training and professional development in conflict resolution and related skills such as classroom management, cooperation, prejudice reduction, etc., will work with teachers and students demonstrating pedagogical techniques in the areas above; will act as a resource for teachers helping them problem-solve and formulate action plans; will suggest and help teachers locate print, multi-media, and human resources; and will work with parents to encourage carry over between school and home.

The contractor is specifically qualified to provide the above services because of the expertise of the consultant in subject matter and teacher education, the experience of the consultant in classroom teaching and teacher education, and the range of services offered by the consultant in working with teachers and students.

This organization has worked with the Agassiz School on prior occasions and our staff have attended a summer institute given by Educators for Social Responsibility. They are fully cognizant of the needs of our school vis-a-vis our involvement in the Whole School Compact (Drop Out Prevention Program), Grant 90R.

Their normal hourly rate is \$100, but given our past association, they have lowered the amount so that money would not become an obstacle in providing services to our students and staff.

No other organization in the Boston area has the range of resources, expertise, or familiarity with the Agassiz School as Educators for Social Responsibility. These are the reasons for submitting this no-competition contract.

Because of the professional nature of the services to be provided under this agreement and the expertise of the contractor in providing these services, it is my determination that the public interest would not be served by publicly advertising for bids.

This is the first contractual agreement of this kind between the Boston Public Schools and the Boston Area/Educators for Responsibility.

Very truly yours,
Laval S. Wilson,
Superintendent.

CONTRACTS AMENDED

The Mayor has approved the amending of contracts, based on the following information:

ASSESSING DEPARTMENT Auto Body Repairs

Dear Mr. Mayor:

On September 30, 1988, your Honor approved the award of a contract, with advertising for bids to R. J. Williams Co., 29 Wareham Street, for miscellaneous automobile repairs to Assessing Department automobiles during the period October 5, 1988, through June 30, 1989, at a cost not to exceed \$6,200.

Your approval is requested to amend this contract to provide for authorization of additional funds

for previously contracted services. The funds are requested for unanticipated additional autobody repairs for the department's fleet of automobiles.

The cost of this amendment shall not exceed \$1,500, which I have deemed to be reasonable for the services to be provided. The total cost of this contract, as amended, shall not exceed \$7,700. The period of performance shall remain unchanged.

Because this is an amendment of a previously advertised contract, I believe that public advertising would serve no useful purpose.

Sincerely,
Thaddeus, J. Jankowski, Jr.,
Commissioner.

Repairs and Maintenance of Automobiles

Dear Mr. Mayor:

On July 12, 1988, your Honor approved the award of a contract, with advertising for bids, to Arcand Sales and Service, 229 Brighton Avenue, Allston, for miscellaneous repairs and maintenance to Assessing Department automobiles during the period July 15, 1988, through June 30, 1989, at a cost not to exceed \$6,150.

Your approval is requested to amend this contract to provide for authorization of additional funds for previously contracted services. The funds are requested for unanticipated additional miscellaneous repairs and maintenance for the Assessing Department's fleet of automobiles.

The cost of this amendment shall not exceed \$1,000, which I have deemed to be reasonable for the services to be provided. The total cost of this contract, as amended, shall not exceed \$7,150. The period of performance shall remain unchanged.

Because this is an amendment of a previously advertised contract, I believe that public advertising would serve no useful purpose.

Sincerely,
Thaddeus, J. Jankowski, Jr.,
Commissioner.

HEALTH AND HOSPITALS DEPARTMENT Blood Bank Products

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Cobe Laboratories, Inc., Colorado, to furnish blood bank products, to the Department of Health and Hospitals, for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$8,300.

This amendment will increase the amount of the contract by \$11,500, thereby increasing the city's total liability under this contract to an amount not to exceed \$19,800.

The contract was awarded to Cobe Laboratories, Inc., as the lowest acceptable bidder to furnish IBM processing sets. It has become necessary to order more of these sets from Cobe than in previous years due to the increase of patients with Sickle Cell Disease and AIDS. These patients require washed red cells for transfusion purposes.

In view of the above and because the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,
Judith Kurland,
Commissioner.

Cell Counts, Ratio Testing, etc.

Dear Sir:

Pursuant to the authority delegated to me by the

Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Mallory Pathology Associates, Inc., 784 Massachusetts Avenue, for the period September 1, 1988, through June 30, 1989, at a cost not to exceed \$80,000.

This amendment will increase the amount of the contract by \$40,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$120,000.

Under this contract, Mallory Associates will perform monoclonal assay, T4 and T8 cell counts and T4 and T8 ratio testing for Boston City Hospital. The unit cost for each test will be \$40. This amendment is necessary because of the unanticipated increase in the volume of testing required.

In view of the above, because the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,
Judith Kurland,
Commissioner.

Temporary Medical Technologists

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Medical Register, Inc., 396 Commonwealth Avenue, for provision of temporary medical technologists, phlebotomists and respiratory therapists for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$20,000.

This amendment will increase the contract by \$10,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$30,000.

This amendment is necessary due to an unanticipated staffing shortage of temporary medical technologists, therefore making it necessary to amend this contract.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,
Judith Kurland,
Commissioner.

Temporary Nursing Personnel

Dear Sir:

Pursuant to the authority delegated to me by the Board of Health and Hospitals, I respectfully request your Honor's permission to amend the contract with Staff Builders, 18 Tremont Street, for providing temporary nursing personnel services to the Department of Health and Hospitals for the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$745,000.

This amendment will increase the amount of the contract by \$2,000,000, thereby increasing the city's total liability under this contract, as so amended, to an amount not to exceed \$2,745,000.

Because of the shortage of nurses, the Department of Health and Hospitals has been unable to recruit enough nurses to staff the wards. Therefore, the hospital has had to increase the services provided by temporary nursing agencies.

In view of the above, and as the cost, in my opinion, is reasonable, I recommend approval of this amendment.

Very truly yours,
Judith Kurland,
Commissioner.

OFFICE OF THE MAYOR

Program Planning and Development

Dear Mr. Mayor:

On August 10, 1988, your Honor approved an

award of a contract based on public advertising for bids to Mr. James Vrabel of 18 Lawn Street, Boston, for program planning and development for various city initiatives during the period from August 22, 1988, to June 30, 1989, at a cost not to exceed \$17,000.

Your approval is requested to amend this contract to provide for additional services within the original scope of the contract. These additional services are made necessary due to the fact that the contractor has been working longer hours on more projects than originally estimated. It was originally estimated that the contractor would work approximately fourteen to twenty-one hours per week, and has been requested to work twenty-one to twenty-eight hours per week. The cost of this amendment, which is effective March 27, 1989, shall not exceed \$10,000 which I have determined to be reasonable. The contract, as amended, shall not exceed \$27,000.

Due to the professional nature of the services to be provided and the contractor's unique ability to provide them, I believe that further public advertising would serve no useful purpose.

This contract is being submitted later due to administrative delays.

Sincerely,
Robert Consalvo,
Operations Director.

PARKS AND RECREATION DEPARTMENT Repairs to Grass Cutters

Dear Mr. Mayor:

On August 1, 1988, your Honor approved an award of a contract based on public advertising for bids, to Sawtelle Brothers, Inc., Lawrence, for miscellaneous repairs to grass cutting equipment, Contract S, during the period July 1, 1988, through June 30, 1989, at a cost not to exceed \$39,875.

The above contract is for an as-needed basis. The department's turf equipment fleet has been increased by approximately 80 percent in the fiscal year. Due to the intensive utilization of the turf equipment fleet in maintaining the Boston Parks system, there has been much more wear and tear on these vehicles than originally anticipated which has required an increase in the number of repairs. Because the demand for the contracted services has been much higher than anticipated, the money allotted will have to be expended before completion of the scheduled and necessary repairs are made. Therefore, your approval is requested to amend this contract to provide funds for needed repairs. Payment for work performed will be at the original contract unit prices.

The cost for this amendment which is effective April 15, 1989, shall not exceed \$6,000 a sum which I have determined to be reasonable. The contract as amended shall not exceed \$45,875.

Because time is a critical factor, and because the contractor has performed satisfactorily, it is my judgment that the amendment proposed is in the best interest of the city, and that public advertising would serve no useful purpose.

Sincerely,
Patrick S. Harrington,
Executive Assistant.
